Economics**

Long Life In California:

18 Long Lived Communities around the World Martin K. Ettington, This book is about communities and cities around the world where people live to very old ages It is divided into two groups Those communities who have the longest lived peoples in the world Lots of lifestyle and diet data is included for them The second group are another set of communities which have high average ages which people live to but are not quite the outliers that the first group is I've also tried to provide some general lifestyle and diet guidelines to give an idea of why these places are different for longevity purposes The first four communities were also profiled in my book *Diets and Lifestyles of the World's Oldest Peoples* 32 Longevity Recipes which goes into lot of details about these four locations including traditional recipes Overall I think you will get a better idea of what the reasons are why people live a long time in these locations around the world which may give you ideas about adapting your lifestyle and diets to have maximum longevity
