Long Twentieth Century:

The Long Twentieth Century Giovanni Arrighi, 2002 The Long Twentieth Century , 1999 Women and the Periodical Press in China's Long Twentieth Century Michel Hockx, Joan Judge, Barbara Mittler, 2018-05-24 In this major new collection an international team of scholars examine the relationship between the Chinese women s periodical press and global modernity in the late nineteenth and twentieth centuries The essays in this richly illustrated volume probe the ramifications for women of two monumental developments in this period the intensification of China s encounters with foreign powers and a media transformation comparable in its impact to the current internet age The book offers a distinctive methodology for studying the periodical press which is supported by the development of a bilingual database of early Chinese periodicals Throughout the study essays on China are punctuated by transdisciplinary reflections from scholars working on periodicals outside of the Chinese context encouraging readers to rethink common stereotypes about lived womanhood in modern China and to reconsider the nature of Chinese modernity in a global context **Long Twentieth Century** Giovanni Arrighi, 1994 **The Long Twentieth Century** Giovanni Arrighi, Fernand Braudel Center for the Study of Economies, Historical Systems, and Civilizations, 1991 *After the Post-Cold War* Jinhua Dai, 2018-10-25 In *After the Post Cold War* eminent Chinese cultural critic Dai Jinhua interrogates history memory and the future of China as a global economic power in relation to its socialist past profoundly shaped by the Cold War Drawing on Marxism post structuralism psychoanalysis and feminist theory Dai examines recent Chinese films that erase the country s socialist history to show how such erasure resignifies socialism s past as failure and thus forecloses the imagining of a future beyond that of globalized capitalism She outlines the tension between China s embrace of the free market and a regime dependent on a socialist imprimatur She also offers a genealogy of China s transformation from a source of revolutionary power into a fountainhead of globalized modernity This narrative Dai contends leaves little hope of moving from the capitalist degradation of the present into a radical future that might offer a more socially just world Interpreting the Ethiopian Revolution Etana H. Dinka, 2025-10-16 Fifty years after the 1974 Ethiopian revolution Etana H Dinka brings together a who s who of modern Ethiopian studies in order to offer this long overdue analysis of the revolution and its legacies With contributions both from seasoned academics many of whom wrote about the revolution as it developed and from representatives of a younger generation this six part collection offers new insights not only into the revolution itself but also into issues such as the Red Terror the EPRDF revolution of 1991 and Abiy Ahmed s repositioning of Ethiopia after 2018 Such wide ranging analyses cumulatively cast Ethiopia s three successive post revolution regimes not as separate entities but rather as successive attempts to fulfil the promise of the revolution surrounding issues such as ethnicity the nationalities question economic development and the land tenure question In developing this model the collection captures the defining developments and issues in Ethiopia the Horn and the Red Sea region over the past fifty years and it speaks directly to a global body of

knowledge about revolutions state making projects and empires and warfare and military interventions in politics A unique collection that expands the historical revolutionary analyses of Ethiopian politics and society to the present in order to suggest new ways of ensuring social economic and environmental justice for all this book is a must read for researchers and upper level students interested in Ethiopia the Horn of Africa African Studies and revolutionary politics and land economics in general

From Adversaries to Partners? Ming-Yen Tsai, 2003-10-30 When China and Russia established a strategic partnership in 1996 both nations declared that they would further develop military cooperation in various fields Tsai examines the course of this military cooperation to reveal the nature of the military ties with the hopes of determining whether these two traditional adversaries have put aside historical legacies and mutual mistrust to create a full fledged military partnership After analyzing the motives and concerns of both powers Tsai concludes that while progress has been made in reducing military tensions in border regions the level of trust has not increased substantially The nature of these ties remains extremely fragile Among Western analysts there has been concern that a closer partnership might adversely affect U S interests in the region China and Russia have developed cooperation in certain areas such as arms transfers and military technical cooperation and these achievements have successfully reduced political tension However reciprocal threats against each other s territories and China s increasing ambitions and capacity to act as a great military power in the region could eventually become a major source of friction Based on research in both Chinese and Russian this study offers a comprehensive analysis on the development of and limits to this military cooperation

Depression to Cold War Joseph M. Siracusa, David G. Coleman, 2002-08-30

Organized around the office of the president this study focuses on American behavior at home and abroad from the Great Depression to the onset of the end of the Cold War two key points during which America sought a re definition of its proper relationship to the world Domestically American society continued the process of industrialization and urbanization that had begun in the 19th century Urban growth accompanied industrialism and more and more Americans lived in cities Because of industrial growth and the consequent interest in foreign markets the United States became a major world power American actions as a nation whether as positive attempts to mold events abroad or as negative efforts to enjoy material abundance in relative political isolation could not help but affect the course of world history Under President Hoover the federal government was still a comparatively small enterprise challenges of the next six decades would transform it almost beyond belief touching in one way or another almost every facet of American life Before the New Deal few Americans expected the government to do anything for them By the end of the Second World War and in the aftermath of the Great Depression however Americans had turned to Washington for help Even the popular Reagan presidency of the 1980s the most conservative since Hoover would fail to undo the basic New Deal commitment to assist struggling Americans There would be no turning back the clock at home or abroad
