Reimagining Reality in French Fiction Amanda Vredenburg identifies a contemporary shift in the use of fantastic modalities in French fiction no longer dominated by the desire to escape the disappointments of reality nor the reader's hesitation about the reality of the novel's events but by its innovative confrontation with the real What could bizarre uncanny or supernatural literary representations have to tell us about very urgent real issues like the environmental crisis racism migration and the formation of egalitarian communities Through close readings of a selection of novels by Marie Darrieussecq Marie NDiaye and Antoine Volodine Vredenburg argues that the ability to blur boundaries gives the fantastic both an emancipatory and reparative function in its engagement with contemporary political issues These authors complicate categories such as human nonhuman French foreign inclusion exclusion and individual community and shift the focus to the experiential and affective dimensions of these issues ultimately allowing us to better think and feel with those that are excluded Vredenburg concludes that this use of the fantastic has a specific ethical stance which encourages a community based approach founded on compassion and inclusion *The Publications of the Huguenot Society of London* Huguenot Society of London, 1901

The False Traitor Albert Raimundo Braz, 2003-01-01 The nineteenth century M tis politician and mystic Louis Riel has emerged as one of the most popular and elusive figures in Canadian culture Since his hanging for treason in 1885 the self declared David of the New World has been depicted variously as a traitor to Confederation a French Canadian and Catholic martyr a bloodthirsty rebel a pan American liberator a pawn of shadowy

white forces a Prairie political maverick a First Nations hero an alienated intellectual a victim of Western industrial progress and even a Father of Confederation Albert Braz synthesizes the available material by and about Riel including film sculpture and cartoons as well as literature in French and English and analyzes how an historical figure could be portrayed in such contradictory ways In light of the fact that most aesthetic representations of Riel bear little resemblance not only to one another but also to their purported model Braz suggests that they reveal less about Riel than they do about their authors and the society to which they belong The most comprehensive treatment of the representations of Louis Riel in Canadian literature *The False Traitor* will be a seminal work in the study of this popular Canadian figure
