Luo Kenya Uganda:

The Luo People in South Sudan Kon K. Madut, 2020-08-13 This work draws from several interpretations and perceptions of Luo ethnic groups regarding their kinships lineages and the geocultural claims pertaining to their identity and sociocultural interactions among social groups and communities It builds on the current literature and oral history to methodologically reaffirm kinships and establish ethnic lineages Most contemporary Luo narratives come from Kenya and Uganda in addition to those written by Western anthropologists and missionaries None of these narratives have changed the content of the oral stories told by Luo groups and subgroups in Africa especially those related to their lineages ethnic affiliations and their path of immigration from South Sudan to Tanzania but have instead confirmed the history stories and mythology of the greater Luo groups in Africa This book will serve to evoke intellectual curiosity among African social scientists prompting them to conduct more research to further understanding of Luo ethnic groups ways of life and social interactions as well as their contributions to the sociopolitical and economic development in the countries and regions they inhabit

Jarzombek, 2014-05-27 ARCHITECTURE OF FIRST SOCIETIES THIS LANDMARK STUDY TRACES THE BEGINNINGS OF ARCHITECTURE BY LOOKING AT THE LATEST ARCHAEOLOGICAL AND ANTHROPOLOGICAL RESEARCH From the dawn of human society through early civilizations to pre Columbian American societies Architecture of

First Societies traces the different cultural formations that developed in various places throughout the world to form the built environment. It is the first book to explore the beginnings of architecture from a global perspective. Viewing ancient cultures through a lens of both time and geography, this history of early architecture brings its subjects to life with full color photographs, maps, and drawings. The author cites the latest discoveries and analyses in archaeology and anthropology and discovers links to the past by examining how indigenous societies build today. Encounters with Modernity sections examine some of the political issues that village life and its architectural traditions face in the modern world. This fascinating and engaging tour of our architectural past fills a gap in architectural education concerning early mankind, the emergence of First Society people, and the rise of early agricultural societies. Presents the story of early architecture written by the coauthor of the acclaimed *A Global History of Architecture*. Uses the most current research to develop a global picture of human interaction and migration. Features color and black and white photos and drawings that show site conditions as well as huts, houses, and other buildings under construction in cultures that still exist today. Highlights global relationships with color maps. Analyzes topics ranging in scale from landscape and culture to building techniques. Helps us come to terms with our own modern approaches to historical conditions and anthropological pasts. *Architecture of First Societies* is ideal reading for anyone who seeks a deeper understanding of the strong relationships between geography, ecology, culture, and architecture.

Faith in Schools Amy Stambach, 2009-12-07 American Evangelicals have long considered Africa a welcoming place for joining faith with social action, but their work overseas is often ambivalently received. Even among East African Christians who share missionaries' religious beliefs, understandings vary over the promises and pitfalls of American Evangelical involvement in public life and schools. In this first-hand account, Amy Stambach examines missionary involvement in East Africa from the perspectives of both Americans and East Africans. While Evangelicals frame their work in terms of spreading Christianity, critics see it as destroying traditional culture. Challenging assumptions on both sides, this work reveals a complex and ever-evolving exchange between Christian college campuses in the U.S. where missionaries train and schools in Kenya, Uganda, and Tanzania. Providing real insight into the lives of school children in East Africa, this book charts a new course for understanding the goals on both sides and the global connections forged in the name of faith. *Library of Congress Subject Headings* Library of Congress, 2013

Town and Country in Central and Eastern Africa David Parkin, 2018-08-16 Originally published in 1975, the studies in this volume examine the range of factors which mediate the development of social processes in both town and country, as well as migration. There is the ebb and flow of beliefs, ideologies, and educational and occupational opportunities. It considers the fundamental economic and political bases of migrations in the form of colonialism or multi-national controls of various kinds, international commodity markets of supply and demand, and the distinct development policies adopted by independent governments. The editor's introduction discusses old and new models of migration, the origins of rural inequalities in development, the degree of continuity of language and belief systems.
