Lust To Kill Feminist Investigation Of Sexual Murder:

The Lust to Kill Deborah Cameron, Elizabeth Frazer, 1987

Mythologies of Violence in Postmodern Media

Christopher Sharrett, 1999 This anthology examines a number of issues related to violence within the media landscape. Violence has been a topic of continued concern within American culture and society. Although there have been numerous sociological and historical studies of violence and its origins, there is relatively little systematic analysis of violence within media representation even as this issue becomes preeminent within public discourse. This anthology examines a number of issues related to violence within the media landscape using various methodologies to suggest the implications of the increasing obsession with violence for postmodern civilization.

Lustmord Maria Tatar, 2020-07-21

In a book that confronts our society's obsession with sexual violence, Maria Tatar seeks the meaning behind one of the most disturbing images of twentieth-century Western culture: the violated female corpse. This image is so prevalent in painting, literature, film, and most recently in mass media that we rarely question what is at stake in its representation. Tatar, however, challenges us to consider what is taking place both artistically and socially in the construction and circulation of scenes depicting sexual murder. In examining images of sexual murder, *Lustmord* she produces a riveting study of how art and murder have intersected in the sexual politics of culture from Weimar Germany to the present. Tatar focuses attention on the politically turbulent Weimar Republic, often viewed as the birthplace of a transgressive avant-garde modernism where representations of female sexual mutilation abound. Here a revealing episode in the gender politics of cultural production unfolds as male artists and writers working in a society consumed by fear of outside threats envision women as enemies that can be contained and mastered through transcendent artistic expression. Not only does Tatar show that male artists openly identified with real-life sexual murderers, George Grosz posed as Jack the Ripper in a photograph where his model and future wife was the target of his knife, but she also reveals the ways in which victims were disavowed and erased. Tatar first analyzes actual cases of sexual murder that aroused wide public interest in Weimar Germany. She then considers how the representation of murdered women in visual and literary works functions as a strategy for managing social and sexual anxieties and shows how violence against women can be linked to the war trauma, to urban pathologies, and to the politics of cultural production and biological reproduction. In exploring the complex relationship between victim and agent in cases of sexual murder, Tatar explains how the roles came to be destabilized and reversed, turning the perpetrator of criminal deeds into a defenseless victim of seductive evil. Throughout the West today, the creation of similar ideological constructions still occurs in societies that have only recently begun to validate the voices of their victims. Maria Tatar's book opens up an important discussion for readers seeking to understand the forces behind sexual violence and its portrayal in the cultural media throughout this century.

London was a world where long standing traditions of class and gender were challenged by a range of public spectacles mass media scandals new commercial spaces and a proliferation of new sexual categories and identities In the midst of this changing culture women of many classes challenged the traditional privileges of elite males and asserted their presence in the public domain An important catalyst in this conflict argues Walkowitz was W T Stead s widely read 1885 article about child prostitution Capitalizing on the uproar caused by the piece and the volatile political climate of the time women spoke of sexual danger articulating their own grievances against men inserting themselves into the public discussion of sex to an unprecedented extent and gaining new entree to public spaces and journalistic practices The ultimate manifestation of class anxiety and gender antagonism came in 1888 with the tabloid tales of Jack the Ripper In between there were quotidian stories of sexual possibility and urban adventure and Walkowitz examines them all showing how women were not simply figures in the imaginary landscape of male spectators but also central actors in the stories of metropolotin life that reverberated in courtrooms learned journals drawing rooms street corners and in the letters columns of the daily press A model of cultural history this ambitious book will stimulate and enlighten readers across a broad range of interests
