Councils of the Catholic Reformation Nelson H. Minnich,2024-10-28

This new collection by Nelson Minnich deals with the general councils of the Catholic Reformation in the late medieval and early modern periods The volume opens with overviews of the various editions of and current scholarship on these general councils Three studies then give special attention to the role of theologians in these councils their changing legal status consultative or deliberative voting rights and their individual roles and those of the various theological schools in drafting the decrees Another article examines the legal status of theologians accused of heresy and schism Two examine the contest between the councils of Pisa Milan Asti Lyon and Lateran V for legitimacy studying in particular the contrasting image of Julius II suspended for contumacy by Pisa but the strong leader of Lateran V and the role ceremonies played in securing

legitimacy Last there are three studies devoted to the Council of Trent the status of the Protestants who came to the council its debates on the priesthood of all believers and the influence of Lateran V on its procedures debates and decrees

Luther's First Front Robert C. Croken,1990 Since the Reformation in the sixteenth century one of the basic divisions between Catholics and Protestants has been the concept of the mystery of the Eucharist and its meaning to modern Man In this new study Robert C Croken tries to explain why Luther s view of the Eucharist is pivotal to ecumenical dialogue among Christians The sacrificial dimension of the Eucharist is one of the tenets Luther opposed although this basic theme has often been neglected in recent research This study focuses on Luther s rejection of the Eucharist as a sacrifice and a good work a major doctrinal shift from previous Catholic belief Explaining the historical origins of the debate Robert Croken shows the reader where the Roman Catholic and Lutheran churches have grown apart and where they have found agreement This book is a systematic study of Martin Luther s writings in the context of his break with Rome and will be of value to scholars and theologians of modern Christianity searching for common ground in ecumenical discussions **We Are All Priests** Roger Whittall,2023-12-11 In this book Roger Whittall argues that Luther s teaching on the common priesthood the priesthood of believers was a persistent element of Luther s ecclesiology and closely related to his understanding of the church as the communion of saints Whittall s focus is the common priesthood s activity in the Christian community moving beyond its contested relationship to the church s ordained ministry or the views that limit its appearance to Luther s early polemical writings Rather the common priesthood stands alongside the public ministry They are equal partners in the church s mandate to receive and speak God s word to respond in prayer praise and joyful service of God s world and all its people This wide ranging investigation features later material not often considered in relation to the common priesthood For Luther priesthood was a biblical expression of Christian spiritual life worship and service forming both the personal faith of individual Christians and the corporate nature of the Christian community Whittall also examines Luther s use of key biblical texts to link church and priesthood through the themes of unity and community equality and participation Understood in this way this priesthood still speaks powerfully to the identity and mission of the church today **Martin Luther's Theology** Bernhard Lohse,1999-01-01 This definitive analysis of the theology of Martin Luther surveys its development during the crises of Luther s life then offers a systematic survey by topics Containing a wealth of quotations from less known writings by Luther and written in a way that will interest both scholar and novice Lohse s magisterial volume is the first to evaluate Luther s theology in both ways Lohse s historical analysis takes up Luther s early exegetical works and then his debates with traditions important to him in the context of the various controversies leading up to his dispute with the Antinomians The systematic treatment shows how the meaning of ancient Christian doctrines took their place within the central teaching of justification by faith *Theology of Ministry* Thomas F. O'Meara,1999 A completely revised edition of a widely used text that surveys the history theology and present condition of ministry both clerical and lay in today s church **Serving the**

People of God's Presence Terry L. Cross, 2020-10-27 Leading theologian Terry Cross articulates the doctrine of the church's ministry from a Pentecostal perspective demonstrating how Pentecostals can contribute to and learn from the church catholic This companion volume to Cross's previous book *The People of God's Presence* proposes a radical revision of the structural framework of the local church within the often overlooked corporate priesthood of all believers Cross explores principles for leadership and ministry from the New Testament and the early church helping all believers to do the work of ministry

Bonds of Imperfection Oliver O'Donovan, Joan Lockwood O'Donovan, 2004 Two of today's leading experts on the Christian political tradition plumb significant moments in premodern Christian political thought using them in original and adventurous ways to clarify criticize and redirect contemporary political perspectives and discussions Drawing on the Bible and the Western history of ideas Oliver and Joan Lockwood O'Donovan explore key Christian voices on the political political action political institutions and political society Covered here are Bonaventure Thomas Ockham Wycliff Erasmus Luther Grotius Barth Ramsey and key modern papal encyclicals The authors discussion takes them across a wide range of political concerns from economics and personal freedom to liberal democracy and the nature of statehood Ultimately these insightful essays point to political judgment as the strength of the past theological tradition and its eclipse as the weakness of present political thought
