Luttes Armes En Amerique Latine:

Les luttes armées en Amérique latine Alain Gandolfi, 1991 **Réformisme militaire et lutte armée en Amérique latine**, 1971 **The Anthropological Turn** Jacob Collins, 2020-04-24 A close look at post 1968 French thinkers Régis Debray Emmanuel Todd Marcel Gauchet and Alain de Benoist In *The Anthropological Turn* Jacob Collins traces the development of what he calls a tradition of political anthropology in France over the course of the 1970s After the social revolution of the 1960s brought new attention to identities and groups that had previously been marginal in French society the country entered a period of stagnation the economy slowed the political system deadlocked and the ideologies of communism and Catholicism lost their appeal In this time of political cultural and economic indeterminacy political anthropology as Collins defines it offered social theorists grand narratives that could give greater definition to the social by anchoring its laws and histories in the deep and sometimes archaic past Political anthropologists sought to answer the most basic of questions what is politics and what constitutes a political community Collins focuses on four influential yet typically overlooked French thinkers Régis Debray Emmanuel Todd Marcel Gauchet and Alain de Benoist who from Left to far Right represent different political leanings in France Through a close and comprehensive reading of their work he explores how key issues of religion identity citizenship and the state have been conceptualized and debated across a wide spectrum of opinion in contemporary France Collins argues that the stakes have not changed since the 1970s and rival conceptions of the republic continue to vie for dominance Political and cultural issues of the moment the burkini for example become magnified and take on the character of an anthropological threat In this respect he shows how the anthropological turn as it figures in the work of Debray Todd Gauchet and Benoist is a useful lens for viewing the political and social controversies that have shaped French history for the last forty years **Révolution, lutte armée et terrorisme**, 2006-01-01 Cet ouvrage s'intéresse à l'articulation entre révolution, lutte armée et terrorisme En dehors d'une large bibliographie d'une réflexion générale sur les stratégies révolutionnaires et d'une analyse des relations entre trotskysme et terrorisme diverses aires géographiques sont abordées l'Europe avec l'Espagne et l'Allemagne l'Amérique latine et l'Amérique du nord **Poets and Prophets of the Resistance** Joaquín Mauricio Chávez, 2017 Chávez shows instead how peasant intellectuals acted as political catalysts among their own communities first particularly in the region of Chalatenango laying the groundwork for the peasant movements that were to come In this way he contends the Salvadoran insurgency emerged in a dialogue between urban and peasant intellectuals working together to create and execute a common revolutionary strategy one that drew on cultures of resistance deeply rooted in the country's history poetry and religion Focusing on this cross pollination this book introduces the idea that a pedagogy of revolution originated in this historical alliance between urban and peasant making use of secular and Catholic pedagogies such as radio schools literacy programs and rural cooperatives This pedagogy became more and more radicalized over time as it pushed back against the increasingly repressive structures of 1970s El Salvador **Historical and Future**

L'Amérique hispanique au XXe siècle Jean-Marie Lemogodeuc, François Delprat, 1997-01-01 T00:00:00+01:00 Ce livre est le résultat d'un projet ambitieux qui a pour objet de nouer les fils par le tissu des identités de l'Amérique hispanique Il ne s'agit pas de créer une nouvelle version de l'Histoire partagée du sous-continent mais de proposer une grille de lecture et d'analyse de l'évolution identitaire des pays américains de langue espagnole dont la culture les valeurs et les codes qu'elle véhicule constituent un fond d'nominateur commun Cet ouvrage tente donc d'appréhender le processus de structuration des identités et son évolution en multipliant les éclairages latéraux afin de ne laisser dans l'ombre aucun des éléments fondamentaux de la vie politique sociale économique et culturelle de ce siècle Ce manuel s'adresse un public averti d'étudiants d'universitaires et de spécialistes de l'Amérique latine mais aussi un lectorat plus vaste soucieux d'élargir la base de ses connaissances de cette région Dans les deux cas le lecteur se voit invité remettre en cause certains lieux communs et préjugés relatifs au développement des sociétés et des cultures de l'Amérique hispanique du XXe siècle

Cuba's Foreign Policy in Global Solidarity Organizations Lasse B. Lassen, 2024-12-23 This book analyzes the influence of the Cuban Revolutionary Government on the evolution of the Afro-Asian Peoples Solidarity Organization AAPSO The author argues that Cuba's accession to AAPSO and the convocation of two solidarity conferences 1966-1967 in Havana initiated a political shift for the organization The Cuban Revolutionary Government thus promoted the inclusion of Latin American delegations that represented their countries' leftist and pro-Cuban dissidence as well as rural guerrilla movements Adding to that Fidel Castro's independent stance towards AAPSO's two main financiers the USSR and the PR China fostered a gradual emancipation of the postcolonial organization from the dominance of its sponsors The book offers a better understanding of the theoretical foundations of Cuba's foreign policy and explains how Havana used the two solidarity conferences to better the island's international prestige at times of diplomatic isolation Retracing the diplomatic influence of a small but key diplomatic actor of the Cold War this study will appeal to postcolonial and Latin America scholars as well as to academic researchers in contemporary history and political sciences

The Emergence of Insurgency in El Salvador Yvon Grenier, 2016-07-27 Grenier offers a better understanding of the

causes of revolution in El Salvador through an analysis of the central role of ideas and ideologues The insurgency was not merely the charismatic embodiment of structurally determined processes as it is commonly suggested it was the expression of a distinct and forceful political will The focus is placed on the period of emergence of insurgency roughly the 1970s and early 1980s a period too often confounded and not only in the Salvadoran case with subsequent periods of the revolutionary cycle

Transnational solidarity Zeina Maasri, Cathy Bergin, Francesca Burke, 2022-07-26 Transnational solidarity excavates the forgotten histories of solidarity that were vital to radical political imaginaries during the long 1960s It decentres the conventional Western focus of this critical historical moment by foregrounding transnational solidarity with and across anticolonial and anti imperialist liberation struggles The book traces the ways in which solidarity was conceived imagined and enacted in the border crossings of nation race and class made by grassroots activists This diverse collection draws links between exiled revolutionaries in Uruguay post colonial immigrants in Britain and Greek communist refugees in East Germany who campaigned for their respective causes from afar while identifying and linking up with wider liberation struggles Meanwhile Arab immigrants in France Pakistani volunteers and Iraqi artists found myriad ways to express solidarity with the Palestinian cause Neglected archives also reveal Tricontinental Cuban based genealogies of artistic militancy as well as transnational activist networks against Portuguese colonial rule in Africa Bringing together original research with contributions from veteran activists and artists this interdisciplinary volume explores how transnational solidarity was expressed in and carried through the itineraries of migrants and revolutionaries film and print cultures art and sport political campaigns and armed struggle It presents a novel perspective on radical politics of the global sixties which remains crucial to understanding anti racist solidarity today With a foreword by Vijay Prashad

Yale French Studies, Number 143

Richard J. Golsan, Lynn A. Higgins, 2024-06-25 A reexamination of 1970s France as a decade of intellectual cultural and

political consequence both then and now Number 143 of Yale French Studies The French Seventies reintroduces and reorients readers to a decade typically considered a period of disillusionment and malaise in the wake of the 1960s This collection of essays edited by Richard J Golsan and Lynn A Higgins shows that the era was in fact a period of intellectual cultural and political ferment It was a time not of spectacular leaps forward but rather of searching regrouping and cultivating trends that would flower in the 1980s and beyond for better or worse The volume offers interdisciplinary scholarly essays on history film national identity as articulated in the mode r tro social and literary movements and more Interviews and personal history essays by major figures who actively participated in this decade add further dimension to this broad collection

Idealism beyond Borders Eleanor Davey, 2015-12-17 This is a major new account of how modern humanitarian action was shaped by transformations in the French intellectual and political landscape from the 1950s to the 1980s Eleanor Davey reveals how radical left third worldism was displaced by the sans fronti riste movement as the dominant way of approaching suffering in what was then called the third world Third worldism regarded these regions as the motor for international revolution but revolutionary zeal disintegrated as a number of its regimes took on violent and dictatorial forms Instead the radical humanitarianism of the sans fronti riste movement pioneered by M decins Sans Fronti res emerged as an alternative model for international aid Covering a period of major international upheavals and domestic change in France Davey demonstrates the importance of memories of the Second World War in political activism and humanitarian action and underlines the powerful legacies of Cold War politics for international affairs since the fall of the Iron Curtain
