Lyric Language:

Lyric Generations G. Gabrielle Starr, 2015-11-01 Eighteenth century British literary history was long characterized by two central and seemingly discrete movements the emergence of the novel and the development of Romantic lyric poetry In fact recent scholarship reveals that these genres are inextricably bound constructions of interiority developed in novels changed ideas about what literature could mean and do encouraging the new focus on private experience and self perception developed in lyric poetry In *Lyric Generations* Gabrielle Starr rejects the genealogy of lyric poetry in which Romantic poets are thought to have built solely and directly upon the works of Chaucer Spenser Shakespeare and Milton She argues instead that novelists such as Richardson Haywood Behn and others while drawing upon earlier lyric conventions ushered in a new language of self expression and community which profoundly affected the aesthetic goals of lyric poets Examining the works of Cowper Smith Wordsworth Coleridge and Keats in light of their competitive dialogue with the novel Starr advances a literary history that considers formal characteristics as products of historical change In a world increasingly defined by prose poets adapted the new forms characters and moral themes of the novel in order to reinvigorate poetic practice *Lyric Tactics* Ingrid Nelson, 2017-01-13 In *Lyric Tactics* Ingrid Nelson argues that the lyric poetry of later medieval England is a distinct genre defined not by its poetic features rhyme meter and stanza forms but by its modes of writing and performance which are ad hoc improvisatory and situational **Secular Lyric** John Michael, 2018-04-17 *Secular Lyric* interrogates the distinctively individual ways that Poe Whitman and Dickinson transformed classical romantic and early modern forms of lyric expression to address the developing conditions of Western modernity especially the heterogeneity of believers and beliefs in an increasingly secular society Analyzing historically and formally how these poets inscribed the pressures of the modern crowd in the text of their poems John Michael shows how the masses appear in these poets work as potential readers to be courted and resisted often at the same time Unlike their more conventional contemporaries Poe Whitman and Dickinson resist advising sermonizing or consoling their audiences They resist most familiar senses of meaning as well For them the processes of signification in print rather than the communication of truths become central to poetry which in turn becomes a characteristic of modern verse in the Western world Poe Whitman and Dickinson in idiosyncratic but related ways each disrupt conventional expectations while foregrounding language s material density thereby revealing both the potential and the limitations of art in the modern age *Lyric Shame* Gillian White, 2014-10-13 Gillian White argues that the poetry wars among critics and practitioners are shaped by lyric shame an unspoken but pervasive embarrassment over what poetry is should be and fails to be Lyric is less a specific genre than a way to project subjectivity onto poems an idealized poem that is nowhere and yet everywhere *Handbook of the Arts in Qualitative Research* , 2022 **The Lyric Theory Reader** Virginia Walker Jackson, Yopie Prins, 2014-02 Reading lyric poetry over the past century *The Lyric Theory Reader* collects major essays on the modern idea of lyric made available here for the first time in one place Representing a wide range of

perspectives in Anglo American literary criticism from the twentieth and twenty first centuries the collection as a whole documents the diversity and energy of ongoing critical conversations about lyric poetry Virginia Jackson and Yopie Prins frame these conversations with a general introduction bibliographies for further reading and introductions to each of the anthology's ten sections genre theory historical models of lyric New Criticism structuralist and post structuralist reading Frankfurt School approaches phenomenologies of lyric reading avant garde anti lyricism lyric and sexual difference and comparative lyric Designed for students teachers scholars poets and readers with a general interest in poetics this book presents an intellectual history of the theory of lyric reading that has circulated both within and beyond the classroom wherever poetry is taught read discussed and debated today [Giving Voice to Love](#) Judith A. Peraino, 2011-11-28 The lyrics of medieval courtly love songs are characteristically self conscious Giving Voice to Love investigates similar self consciousness in the musical settings Moments and examples where voice melody rhythm form and genre seem to comment on music itself tell us about musical responses to the courtly chanson tradition and musical reflections on the complexity of self expression **Adorno's Poetics of Form** Josh Robinson, 2018-05-22 Adorno's Poetics of Form is the first book length examination of the elusive deployment of the concept of form in Adorno's writings on art and literature and the first monograph to offer a comprehensive account of the relation of these writings to his broader philosophical project It examines form within the constellation of concepts that exist around it considering how it appears when seen in conjunction with and in opposition to content expression genre and material Illuminated from these angles form is revealed as the site of a complex web of dynamic conceptual interactions The book thus offers a resolution to a problem in Adorno's work that has remained unsolved for several decades and in doing so sets out the consequences of Adorno's poetics for literary and critical theory today [The American Sonnet](#) Dora Malech, Laura Smith, 2023-02-21 Poet and scholar team Dora Malech and Laura T Smith collect and foreground an impressive range of sonnets including formal and formally subversive sonnets by established and emerging poets highlighting connections across literary moments and movements Poets include Phillis Wheatley Fredrick Goddard Tuckerman Emma Lazarus Paul Laurence Dunbar Gertrude Stein Fradel Shtok Claude McKay Edna St Vincent Millay Ruth Muskrat Bronson Langston Hughes Muriel Rukeyser Gwendolyn Brooks Dunstan Thompson Rhina P Espaillet Lucille Clifton Marilyn Hacker Wanda Coleman Patricia Smith Jericho Brown and Diane Seuss The sonnets are accompanied by critical essays that likewise draw together diverse voices methodologies and historical and theoretical perspectives that represent the burgeoning field of American sonnet studies Contributor List Essayists Abdul Ali Baltimore MD Anna Lena Phillips Bell University of North Carolina Wilmington Jodie Childers Queens New York Benjamin Crawford University of Alabama Meg Day Franklin and Marshall College Donna Deniz St Albans School Michael Dumanis Bennington College Jordan Finkin Hebrew Union College Rebecca Morgan Frank Northwestern University Anna Maria Hong Mount Holyoke College Gillian Huang Tiller University of Virginia Wise Walt Hunter Clemson University John James University of

Everyday Poetics Brett Bourbon,2022-02-24 Locating poetry in a philosophy of the everyday Brett Bourbon continues a tradition of attention to logic in everyday utterances through Wittgenstein Austin Quine and Cavell arguing that poems are events of form not just collections of words which shape everyone s lives Poems taught in class are formalizations of the everyday poems we live amidst albeit unknowingly Bourbon resurrects these poems to construct an anthropology of form that centers everyday poems as events or interruptions within our lives Expanding our understanding of what a poem is this book argues that poems be understood as events of form that may depend on words but are not fundamentally constituted by them This line of thought delves into a poem s linguistic particularity to ask what a poem is and how we know By reclaiming arenas previously ceded to essayists and literary writers Bourbon reveals the care and attention necessary to uncovering the intimate relationship between poems life reading and living A philosophical meditation on the nature of poetry but also on the meaning of love and the claim of words upon us Everyday Poetics situates the importance of everyday poems as events in our lives

Notes to Literature Theodor W. Adorno,2019-10-01 Notes to Literature is a collection of the great social theorist Theodor W Adorno s essays on such writers as Mann Bloch H lderlin Siegfried Kracauer

Goethe Benjamin and Stefan George It also includes his reflections on a variety of subjects such as literary titles the physical qualities of books political commitment in literature the light hearted and the serious in art and the use of foreign words in writing This edition presents this classic work in full in a single volume with a new introduction by Paul Kottman **Adorno and Performance** W. Daddario, K. Gritzner, 2014-10-16 Adorno and Performance offers the first comprehensive examination of the vital role of performance within the philosophy of Theodor W Adorno Capacious in its ramifications for contemporary life the term performance here unlocks Adorno s dialectical thought process which aimed at overcoming the stultifying uniformity of instrumental reason **Languages of the Night** Barry McCrea, 2015-03-01 This book argues that the sudden decline of old rural vernaculars such as French patois Italian dialects and the Irish language caused these languages to become the objects of powerful longings and projections that were formative of modernist writing Se n R ord in Ireland and Pier Paolo Pasolini in Italy reshaped minor languages to use as private idioms of poetry the revivalist conception of Irish as a lost perfect language deeply affected the work of James Joyce the disappearing dialects of northern France seemed to Marcel Proust to offer an escape from time itself Drawing on a broad range of linguistic and cultural examples to present a major reevaluation of the origins and meaning of European literary modernism Barry McCrea shows how the vanishing languages of the European countryside influenced metropolitan literary culture in fundamental ways Behind the Lines Philip Metres, 2007-05 Whether Thersites in Homer s Iliad Wilfred Owen in Dulce et Decorum Est or Allen Ginsberg in Wichita Vortex Sutra poets have long given solitary voice against the brutality of war The hasty cancellation of the 2003 White House symposium Poetry and the American Voice in the face of protests by Sam Hamill and other invited guests against the coming shock and awe campaign in Iraq reminded us that poetry and poets still have the power to challenge the powerful Behind the Lines investigates American war resistance poetry from the Second World War through the Iraq wars Rather than simply chronicling the genre Philip Metres argues that this poetry gets to the heart of who is authorized to speak about war and how it can be represented As such he explores a largely neglected area of scholarship the poet s relationship to dissenting political movements and the nation In his elegant study Metres examines the ways in which war resistance is registered not only in terms of its content but also at the level of the lyric He proposes that protest poetry constitutes a subgenre that by virtue of its preoccupation with politics history and trauma probes the limits of American lyric poetry Thus war resistance poetry and the role of what Shelley calls unacknowledged legislators is a crucial though largely unexamined body of writing that stands at the center of dissident political movements *The Event of Style in Literature* M. Aquilina, 2014-09-16 The Event of Style in Literature brings discussions about the question of style up to date by schematising the principal issues relating to the topic through a critical overview of the canon of style studies It reads the work of Jacques Derrida Maurice Blanchot and Hans Georg Gadamer as groundbreaking and eventful interventions *Reading Baudelaire with Adorno* Joseph Acquisto, 2023-05-04 Reading Baudelaire with Adorno examines Charles

Baudelaire's oeuvre including verse poems, prose poems and critical writings in dialogue with the aesthetic theory of Theodor Adorno for whom the autonomy of the artwork critically resists any attempt to view it merely as a product of its socio-historic context. Joseph Acquisto analyzes Baudelairean duality through the lens of dissonance, arguing that the figure of the subject as a dissonant chord provides a gateway to Baudelaire's reconfiguration of subjectivity and objectivity in both esthetic and epistemological terms. He argues that Baudelaire's dissonance depends on older models of subjectivity in order to define itself via the negation of romantic conceptions of a unified lyric subject in favor of one constituted simultaneously as subject and object. This new understanding of subjectivity reconfigures our relationship to the work of art which will always surpass conceptual attempts to know it fully. Acquisto offers a fresh take on some familiar themes in Baudelaire's work. Dissonant subjectivity in Baudelaire rather than cancelling esthetic transcendence points to a different way forward that depends on a new and dialectical relation of subject and object.
