The captivating and definitive account of the Great Lisbon Earthquake the most consequential natural disaster of modern times On All Saints Day 1755 tremors from an earthquake measuring approximately 9.0 or perhaps higher on the magnitude scale swept furiously toward Lisbon then one of the wealthiest cities in the world and the capital of a vast global empire Within minutes much of the city lay in ruins A half hour later a giant tsunami unleashed by the quake smashed into Portugal's coastline and barreled up the Tagus River carrying countless thousands out to sea To complete Lisbon's destruction a hellacious firestorm then engulfed the city's shattered remains killing thousands more and incinerating much of what the earthquake and tsunami had spared Drawing on a wealth of new sources the latest scientific research and a sophisticated grasp of European history Mark Molesky gives us the gripping authoritative account of the Great Lisbon Earthquake disaster and its impact on the Western world including descriptions of the world's first international relief effort the rise of a brutal yet modernizing dictatorship in Portugal and the effect of the catastrophe on the spirit and direction of the European Enlightenment

Edward VII (Penguin Monarchs) Richard Davenport-Hines, 2016-02-25 Like his mother Queen Victoria Edward VII defined an era Both reflected the personalities of their central figures hers grand imperial and pretty stiff his no less grand but much more relaxed and enjoyable This book conveys Edward's distinct personality and significant influences To the despair of his parents he rebelled as a young man conducting many affairs and living a life of pleasure But as king he made a distinct contribution to European diplomacy and which is little known to London laying out the Mall and Admiralty Arch Richard Davenport Hines's book is as enjoyable as its subject and the age he made *A.E. Britain and Joseph Chamberlain Michael Balfour, 2012-11-15 After all the endeavours that combined to make Britain the first great industrial nation that dominant position was then relinquished Joseph Chamberlain 1836-1914 the driven and self-made Birmingham businessman who shifted his energies formidably into politics might have appeared to be one leader well equipped to help Britain stay competitive in the global race for economic growth But as Michael Balfour suggests in this absorbing study Chamberlain's personality and temperament were not suited to the challenge Determined always to have his way animated by the business man's love of getting things done Chamberlain lacked the gift of persuasion and made enemies too well it being his unique achievement to split both major parties in the space of twenty years Had it been possible for one man to arrest Britain's slackening growth then that man Balfour contends was not the erstwhile Radical Joe

Modernity Britain David Kynaston, 2013-06-20 The late 1950s was an action-packed often dramatic time in which the contours of modern Britain began to take shape These were the never had it so good years when the Carry On film

series and the TV soap Emergency Ward 10 got going and films like Room at the Top and plays like A Taste of Honey brought the working class to the centre of the national frame when the urban skyline began irresistibly to go high rise when CND galvanised the progressive middle class when youth emerged as a cultural force when the Notting Hill riots made race and immigration an inescapable reality and when meritocracy became the buzz word of the day The consequences of this modernity zeitgeist David Kynaston argues still affect us today

Churchill and Company David Dilks, 2012-12-18 Winston Churchill the great wartime leader and peacetime Prime Minister is one of the dominating figures of the 20th century In this stimulating and original book David Dilks the eminent historian of modern Britain and a leading Churchill scholar provides a fascinating source of new discoveries and insights He shows Churchill not only as a war leader and international statesman but also as a private person with a rich variety of interests enthusiasms friendships and rivalries Churchill s relations with other leading politicians and statesmen of the age both within Britain and internationally illuminate his handling of friends and enemies Sometimes these categories were not easily separated for a long while Churchill thought of Stalin as a friend or at least a comrade in arms and only with extreme reluctance did he come to look upon him ultimately as an enemy He regarded Roosevelt with admiration and gratitude yet the balance of evidence suggests that the President felt less warmly towards him especially after 1943 Dilks casts new and penetrating light on Churchill during World War II including his dramatic and troubled relationship with Charles de Gaulle where political problems were softened by Churchill s love of France The aftermath of World War II relations with Stalin the Soviet Union and the Cold War all dominated Churchill s subsequent career The last chapter draws attention to the influence of history on statesmen and others not least because no public man of the last century with the possible exception of de Gaulle has influenced on Churchill s scale or with his effectiveness the writing and the making of history Whether in or out of office Churchill s influence has been felt in all areas of British politics and national life David Dilks brings Churchill to life for all those interested modern British and international history whether student specialist or general reader
