northern Scotland While the cultural and linguistic roots of the Maori are distinctly Polynesian the author shows how the cosmology in New Zealand was sheltered from outside influences and likely reflects ancient sources better than other Polynesian cultures In addition to shared creation concepts he details a multitude of strikingly similar word pronunciations and meanings shared by Maori language and the Dogon and Egyptian languages as well as likely connections to various Biblical terms and traditions He discusses the Maori use of standing stones to denote spiritual spaces and sanctuaries and how their esoteric mystery schools are housed in structures architecturally similar to those commonly found in Ireland He discusses the symbolism of the Seven Mythic Canoes of the Maori and uncovers symbolic aspects of the elephant headed Hindu god Ganesha in Maori cosmology The author also explores the outwardly similar pygmy traditions of Ireland and New Zealand characterized by matching fairy mound constructions and mythic references in both regions He reveals how the trail of a group of Little People who vanished from Orkney Island in ancient times might be traced first to Scotland Ireland and England and then on to New Zealand accompanied by signature elements of the global cosmology first seen at Gobekli Tepe
