Newgrange Machu Picchu Chartres Cathedral and the pyramids of both Egypt and Mexico He reveals how human writing in its original hieroglyphic form was a direct response to the divine sound patterns of sacred sites showing how for example recognizable hieroglyphs appear in sand patterns when the sacred frequencies of the Great Pyramid are activated Looking at ancient hero legends those about the bringers of important knowledge or language Elkington explains how these myths form the source of ancient religion and have a unique mythological resonance as do the sites associated with them The author then reveals how religion including Christianity is an ancient language of acoustic science given expression by the world s sacred sites and shows that power places played a profound role in the development of human civilization *The Magical Circle*
