The Photoshop Elements 3 Book for Digital Photographers Scott Kelby, 2004-10-11 If you re ready for an Elements 3 book that breaks all the rules this is it because it does something for digital photographers that s never been done before it cuts through the bull and shows you exactly how to do it It tells you flat out which settings to use when to use them and why This book is not a bunch of theory it doesn t challenge you to come up with your own settings or figure things out on your own It gives you the same settings used by some of the top digital pros settings you can use today to get professional results

you've always dreamed of. Plus since this book is designed for photographers it doesn't waste your time talking about how to frame a shot, setting your exposure, etc. and there's no talk of which camera or printer to buy. It's all Elements, step by step, covered to cover in the only book of its kind, and you're gonna love it. Besides learning the inside tips and the tricks of the trade for correcting, editing, sharpening, retouching, and presenting your photos like a pro, you'll learn how to unlock the power of all the new Elements 3 features, including how to manage your photos using the new Organizer, how to use the new pro tools like the Healing Brush and the Shadow/Highlight controls, and how to master the new Creation section to take your photos to an entirely new level. Plus you'll see it all step by step in plain English, and you'll be absolutely amazed at how easy and effective these techniques are once you know the secrets. You'll learn the secrets of how the pros retouch portraits, how to incorporate the amazing new features of Elements 3 into your work today, how to color correct any photo without breaking a sweat, you'll be amazed at how they do it, how to repair and restore damaged photos, the sharpening techniques the pros really use, there's an entire chapter just on this: Dealing with common digital camera image problems, including removing noise and avoiding halos, when to use Quick Fix and when to do it yourself using our step by step methods, the most requested photographic special effects, and much more. But besides all that, this book has a secret weapon that makes it the most important, most useful Elements book yet. The reason is this: although Elements 3 offers some digital photography features, Photoshop CS doesn't offer them; there are plenty of features that Photoshop CS has that Elements 3 still doesn't have, things like Layer Masking, Channel Mixer, etc. But in this book you'll learn some slick workarounds, cheats, and some fairly ingenious ways to replicate many of those Photoshop features from right within Elements. There's never been a book like it, and if you're a digital photographer using Photoshop Elements 3, this is the book you've been waiting for.

Mac Design Magazine, 2005 Mac OS X Tiger Killer Tips Scott Kelby, 2005-08-08

Tips rule. Have you ever noticed that in just about every Mac book, the author will include a couple of tips in each chapter? You'll usually find them in the sidebar or at the bottom of the page in a tinted box. Sometimes it's a shortcut, a faster way to do something, or a clever workaround that just makes your life easier. People really love those tips, but there's only one problem: there's never enough of them. That's why Scott Kelby, bestselling author and Editor in Chief of Mac Design magazine, came up with the idea to create a book that's nothing but sidebar tips. That's right: this entire book, cover to cover, is packed with nothing but those cool inside secrets, slick workarounds, undocumented shortcuts, and sneaky little tricks that will make you faster, better, and have more fun using Mac OS 10.4 Tiger. Nothing but the tips. You're not going to find complicated descriptions on how to configure a network, how to partition a hard drive, or lines and lines of scary-looking UNIX code. Instead, this book is nothing but cool tips, and it's all written in Scott's casual, plain English style, so you can start using these tips today. Plus, this book does the standard sidebar tip one better by including a clear screen capture with nearly every tip, so you can see exactly how it's all done. Not just tips, Killer tips. To be in this book, every tip has got to be a Killer Tip, the kind of tip that makes you nod and smile, then call all your Mac buddies to tune them

up with your new found power Scott s a total hip hound in fact it was Scott who created the entire smash bestselling Killer Tips book series and he doesn t hold anything back it s all here from the man who literally wrote the book on cool productivity tips If you like doing things the easy way if you like getting twice the work done in half the time and if you get a kick out of knowing all the inside secrets and undocumented shortcuts that will wow your friends and coworkers you re absolutely going to love this book

The Mac OS X Conversion Kit Scott Kelby,2011-09-30 If you ve been using Mac OS 8 or OS 9 and you want to start using Mac OS X Panther today and we literally mean today there is no easier way than this ingenious new book from Mac Design magazine s Editor in Chief Scott Kelby Here s how the book works on the left page it shows how you did a particular task back in Mac OS 9 and on the right page it shows you exactly how it s now done in Mac OS X Panther It couldn t be easier The whole book every page is in crisp full color with clear concise plain English descriptions that let you start using Mac OS X today immediately without having to learn the whole operating system first It s like having a friend nearby with all the answers when you get stuck and wonder how to I do that in Mac OS X just turn to that task and there it is the left page shows the old way the right page shows the new way If you re one of those people who believe like we do that the best ideas are the simple ones you ll absolutely love this book If you want to start using Mac OS X today if you want to unlock its power stability features and fun today this is the book that will do it There are no in depth explanations about networking no UNIX commands or how to hack the system and no detailed descriptions of how it all works and why In short it s not a tell me all about it book it s a here s how to do it book and that s why it works so amazingly well Plus if you look up how to do a particular task and Mac OS X offers new features new shortcuts or new options that weren t available in Mac OS 8 9 and there are plenty in Panther Scott includes those too using the same right to the point conversational writing style that made his Mac OS X Killer Tips book a smash bestseller We can t imagine an easier faster or more fun way to convert to Mac OS X and really start using it today

Photoshop Elements 3 Book for Digital Photographers, Special Barnes and Noble Edition DVD Bundle Scott Kelby,2004-10 When you bought your digital camera you were so excited to start using it that you didn t give much thought to the quality of the images you were capturing or what you d do with them as they began amassing But now with those images and your memories slipping toward chaos it s time to Photoshop Elements provides the key This special edition book DVD combo shows you how to use Photoshop Elements 3 to regain control of your images and start editing them like the pros In the book portion of the package veteran author Scott Kelby offers full color graphically rich tutorial and project based examples of every key step in the digital photography process From experimenting with camera settings to capturing editing and outputting images Scott divulges the tips and best practices that make the transition from traditional to digital photography a painless one On the DVD portion of the package Photoshop master Scott Kelby demonstrates all of Photoshop Elements 3 s tool options and walks you through the program s most important features

The iPod Book Scott Kelby,2005 There are basically two kinds of iPod books 1 The tell me all

about it kind which include in depth discussions on compression algorithms debates about analog vs digital equalizers and how to export your playlist in Unicode format And 2 there s this book It s not a tell me all about it it s a show me how to do it book Award winning author Scott Kelby shows you step by step how it s all done using the same casual plain English style that made him one of the world s bestselling technology authors You ll learn how to do only the most important most requested and just plain cool things you re going to want to do with your iPod so you can start having fun with it today Right now Each page covers just one topic complete with full color photos making it easy to find just what you re looking for fast Plus it shows you how to get the most from the iTunes Music Store how to integrate your iPod into your car which iPod accessories are hot and there s even entire chapters on using Apple iPod photo and the new iPod shuffle It s all here in the only book of its kind and you re gonna love it

InDesign CS Killer Tips Scott Kelby,Terry White,2004-04-20 If you ve wondered how the InDesign pros get twice the work done in half the time here s why They know every inside tip every hidden keyboard shortcut and every little trick that gives them the edge They know the fastest smartest and most efficient way to do just about everything In short they know all the tricks of the trade But you can too That s because you re holding a book that is nothing but tips It s packed cover to cover wall to wall with nothing but those cool little inside tips that can make you faster better and have more fun using Adobe inDesign CS There s no detailed descriptions on working with hyphenation dictionaries or long boring discussions on color workflow it s just tips short sweet and to the point So why just tips When we you me etc look at books if we see the word Tip we re all immediately drawn to it That s because we know we re about to learn something really cool Maybe it s an undocumented keyboard shortcut a hidden inside secret or just a faster better way to do something we do every day The only problem with the tips in these books is there s never enough of em That is until now We wanted to create a book that is nothing but these tips hundreds of tips but with added bonus that each tip would have a full color graphic along with it showing you exactly how it s done Most importantly to get in this book they ve got to be Killer Tips The kind of tip that makes you smile nod and then call all your friends and tune them up with your new status as InDesign guru This book is your ticket to working faster and smarter in Adobe InDesign CS than you ever thought you could and best of all you ll have a blast doing it

InDesign CS / CS2 Killer Tips Scott Kelby,Terry White,2011-12-20 If you ve wondered how the InDesign pros get twice the work done in half the time here s the answer They know every inside tip every hidden keyboard shortcut and every little trick that gives them the edge They know the fastest smartest and most efficient way to do just about everything In short they know all the tricks of the trade And now you can too This book is packed cover to cover wall to wall with nothing but those cool little inside tips that can make you faster better and have more fun using Adobe InDesign CS2 There are no detailed descriptions on working with hyphenation dictionaries or long boring discussions on color workflow it s just tips short sweet and to the point So why just tips When we you me etc look at books if we see the word Tip we re all immediately drawn to it That s because we know we re about to learn something really cool

Maybe it's an undocumented keyboard shortcut, a hidden inside secret, or just a faster, better way to do something we do every day. The only problem with the tips in these books is there's never enough of 'em. That is, until now. We wanted to create a book that is nothing but these tips, hundreds of tips, but with the added bonus that each tip would have a full color graphic along with it showing you exactly how it's done. Most importantly, to get in this book, they've got to be Killer Tips. The kind of tip that makes you smile, nod, and then call all your friends and tune them up with your new status as InDesign guru. This book is your ticket to working faster and smarter in Adobe InDesign CS2 than you ever thought you could, and best of all, you'll have a blast doing it.
