Memories from the Frontline Jerry Palmer, 2018-05-21 This book analyses soldiers' memoirs from the Great War of 1914-18 from Britain, France and Germany. It considers both the authors' composition of the memoirs and the public response to them. It provides contextual analysis through a survey of the different types of contemporary writing about the Great War through an analysis of changes in the language used to describe combat and through an analysis of those people whose accounts of the war were either excluded or marginalised. It also considers the international response to the most successful of the texts. The purpose of the analysis is to show how soldiers' memoirs contributed to the collective memory of the war and how they influenced public opinion about the war. These texts are both autobiographical and historical and their relationship to the fields of autobiography and historical writing is also considered as well as to the distinction between fact and fiction.

The Ultimate Experience Y. Harari, 2008-03-07 For millennia war was viewed as a supreme test. In the period 1750-1850 war became much more than a test; it became a secular revelation. This new understanding of war as revelation completely transformed Western war culture, revolutionizing politics, the personal experience of war, the status of common soldiers and the tenets of military theory. **Memoirs of a Nun** Denis Diderot, 2015-03-18 *Memoirs of a Nun*, which began as a joke and grew into a masterpiece, was one of the loudest salvos fired in the continuing battles between the clergy and the intelligentsia which defined so much of eighteenth-century French history. Diderot's story of a novice held in a convent against her will and forced to undergo curious spiritual and sexual trials displays all the brilliance, icy wit and worldliness of the Enlightenment at its best. [\(Re\)collecting the Past](#) Melissa A. Stewart, Nancy Vosburg, 2016-02-22 This collection explores the role of memoria historica in its broadest sense, bringing together studies of narrative, theatre, visual expressions, film, television and radio that provide a comprehensive overview of contemporary cultural production in Spain. In this regard, employing a wide range of critical approaches to works that examine, comment on and recreate events and epochs from the civil war to the present, the essays gathered here bring together research and intercultural memory to investigate half a century of cultural production ranging from high culture to more popular productions such as television series and graphic novels. A testament to the conflation of multiple silencings, be they of the defeated victims of trauma or women, this project is about hearing the voices of the unheard and recovering their muted past. [The Solitary War of a Sniper](#) Martin Pegler, 2025-07-30 The remarkable story of Harry Furness, a young British sniper who fought from D-Day to Germany.

Growing up in a working class family in Manchester Harry Furness joined the army in 1939 at the age of 16 Having always been captivated by the stories of First World War snipers he immediately volunteered for sniper training when the army began to recruit soldiers in 1941 He did exceptionally well qualifying as a marksman whilst a pre war army cadet and was quickly promoted to lance corporal Just prior to D Day he was promoted to corporal in the Green Howards Regiment and landed at Gold Beach on 6th June 1944 Together he and his comrades began a hard fight across North West Europe gradually moving through Northern France Belgium Holland and eventually into Germany as they pushed the Germans back towards the Rhine The manifold dangers and occasional humour of Harry Furness's experiences of war come across in a very matter of fact but compelling way in the dozens of previously unpublished letters personal interviews and images that make up Martin Pegler's fascinating moving biography of Furness and his extraordinary life

German Jews in Love Christian Bailey, 2022-11-01 This book explores the dynamic role of love in German Jewish lives from the birth of the German Empire in the 1870s to the 1970s a generation after the Shoah During a remarkably turbulent hundred year period when German Jews experienced five political regimes rapid urbanization transformations in gender relations and war and genocide the romantic ideals of falling in love and marrying for love helped German Jews to develop a new sense of self Appeals to romantic love were also significant in justifying relationships between Jews and non Jews even when those unions created conflict within and between communities By incorporating novel approaches from the history of emotions and life cycle history Christian Bailey moves beyond existing research into the sexual and racial politics of modern Germany and approaches a new frontier in the study of subjectivity and the self German Jews in Love draws on a rich array of sources from newspapers and love letters to state and other official records Calling on this evidence Bailey shows the ways German Jews romantic relationships reveal an aspect of acculturation that has been overlooked how deeply cultural scripts worked their way into emotions those most intimate and seemingly pre political aspects of German Jewish subjectivity

Zombie Army: Gotterdammerung Jonathan Green, 2013-02-24 The Nazis desperate for victory at all costs explored every avenue open to science including some long forgotten and some best left dead But what if they had succeeded In the obscure village of Totenstadt a team of the Reich's best minds under the terrible Colonel von Teufel are blending technology and the occult to create a new and terrible weapon to test the boundary between life and death itself Elite British snipers Joe Randall George Ginger Gibbs and Harry Atkins are sent deep into enemy lines to locate and destroy the facility The mission will test their courage and their sanity to the limits **Taking Sides in Peacekeeping** Emily Paddon Rhoads, 2016-04-29 United Nations peacekeeping has undergone radical transformation in the new millennium Where it once was limited in scope and based firmly on consent of all parties contemporary operations are now charged with penalizing spoilers of peace and protecting civilians from peril Despite its more aggressive posture practitioners and academics continue to affirm the vital importance of impartiality whilst stating that it no longer means what it once did Taking Sides in Peacekeeping explores this transformation and its implications in what is the first conceptual and empirical study of impartiality in UN peacekeeping The book challenges dominant scholarly approaches that conceive of norms as linear and static conceptualizing impartiality as a composite norm one that is not free standing but an aggregate of other principles each of which can change and is open to contestation Drawing on a large body of primary evidence it uses the composite norm to trace the evolution of impartiality and to illuminate the macro level politics surrounding its institutionalization at the UN as well as the micro level politics surrounding its implementation in the Democratic Republic of the Congo site of the largest and costliest peacekeeping mission in UN history Taking Sides in Peacekeeping reveals that despite a veneer of consensus impartiality is in fact highly contested As the collection of principles it refers to has expanded to include human rights and civilian protection deep disagreements have arisen over what keeping peace impartially actually means Beyond the semantics the book shows how this contestation together with the varying expectations and incentives created by the norm has resulted in perverse and

unintended consequences that have politicized peacekeeping and in some cases effectively converted UN forces into one warring party among many Taking Sides in Peacekeeping assesses the implications of this radical transformation for the future of peacekeeping and for the UN's role as guarantor of international peace and security **Finished Off** Rebecca Kent, 2009-04-07 More information to be announced soon on this forthcoming title from Penguin USA
