Macarthur As Military Commander:

MacArthur, as Military Commander Gavin Long,1986 **Macarthur As Military Commander** , *Great Military Commanders - Douglas MacArthur* ,2018-09-24 Douglas MacArthur was an American five star general and Field Marshal of the Philippine Army He was Chief of Staff of the United States Army during the 1930s and played a prominent role in the Pacific theater during World War II He received the Medal of Honor for his service in the Philippines Campaign which made him and his father Arthur MacArthur Jr the first father and son to be awarded the medal He was one of only five men ever to rise to the rank of General of the Army in the US Army and the only man ever to become a field marshal in the Philippine Army A biography that every student of military history should read This book gives out the life military career and military leadership of this great Military Commander This book is a compilation of high quality articles from the Internet

MacArthur Gavin Long,1998-04-01 But his self confidence the breadth and depth of his thinking and his eloquence and commanding presence ensured that he filled with distinction the senior appointments into which he was swiftly elevated between the wars When Douglas MacArthur returned to the U S after being relieved of command in Korea in 1951 he was setting foot on American soil for the first time since 1935 During his long sojourn in the Pacific he had fought against America s enemies in concert with a wide array of often contentious European allies and emerging Asian forces In MacArthur Gavin Long examined one of the most complex personalities thrust into some of the most complex situations to be found in the Military Commanders series It is scarcely surprising that he sometimes gave his subject mixed reviews Long was editor of the Australian Official History of World War II and offers an interesting account of MacArthur s relationship with his Australian allies Examples of MacArthur s initiative and leadership ability in Mexico and World War I ignored in some studies are given due attention here Of particular interest due to rapid changes of government throughout the world in recent years is Long s insightful account of MacArthur s administration of post war Japan MacArthur himself later recalled that Japan had become the world s greatest laboratory for an experiment in the liberation of a people from totalitarian rule and for the liberalization of government from within **MacArthur as Military Commander** Gavin Merrick Long,1979

Macarthur's War Bevin Alexander,2013-05-07 General Douglas MacArthur was highly skilled and world famous as a military commander Under his leadership after World War II Japan was rebuilt into a democratic ally But during the Korean War in defiance of President Harry S Truman and the Joint Chiefs of Staff he pushed for an aggressive confrontation with Communist China a position intended to provoke a wider war regardless of the consequences While MacArthur aspired to stamp out Communism across the globe Truman was much more concerned with containing the Soviet Union The infamous clash between them was not only an epic turning point in history but the ultimate struggle between civil and military power in the United States While other U S generals have challenged presidential authority no other military leader has ever so brazenly attempted to dictate national policy In MacArthur s War Bevin Alexander details MacArthur s battles from the

alliances he made with Republican leaders to the threatening ultimatum he delivered to China against orders the action that led directly to his downfall INCLUDES PHOTOGRAPHS *The Legal Status of General MacArthur as Military Commander in Korea* Paul S. MacArthur Reconsidered James Ellman,2023-07-01 James Ellman digs deep connects the dots and concludes that General Douglas MacArthur was decidedly not a military genius One of America s most controversial generals Douglas MacArthur s rise through the U S Army s ranks was meteoric However he did not lead large formations of men in combat until he assumed command of forces in the Philippines in 1941 When war commenced with the bombing of Pearl Harbor MacArthur s performance on the battlefield was a failure he underestimated the Japanese and his poorly trained forces were outmaneuvered and outfought by a much smaller invading force However in what became a repeating hallmark of his career he successfully portrayed his actions to much of the American people as brilliant and heroic regardless of victory or defeat After fleeing to Australia MacArthur famously announced I will return and followed through on a quest to retake Manila regardless of its impact on Allied global strategy or its cost in American Australian and Filipino blood In his subsequent role as America s shogun in Tokyo MacArthur was again surprised by an enemy he underestimated The Korean War yielded his greatest victory at Inchon but also his greatest defeat along the Yalu River Unwilling to accept anything but complete victory he openly defied President Truman MacArthur fatally undermined chances for an early peace planned to seed a great swath of enemy territory with radioactive cobalt and attempted to widen a conflict which threatened to become a third world war Raging against his subsequent firing he only truly faded away after he was publicly criticized by a panoply of America s greatest WWII generals Today MacArthur still polarizes Many biographies agree he was a great and patriotic leader marred by a few failures Ellman argues the opposite MacArthur was a lackluster battlefield commander who suffered stunning defeats while undermining the command structure of our military **The Role of the Operational Artist** U S

Military,Department of Defense (Dod),Brandon Pasko,2019-10-30 This study applies the theory of the operational artist to evaluate General Douglas MacArthur s command in the Korean War to illuminate considerations in regards to a senior military commander s authority to discuss policy and negotiate military strategy with policymakers and their responsibility to operate within the constraints imposed by policy to achieve the political aim through the military aim Victory emerged through the restoration of the 38th Parallel where discourse and negotiation between policymakers and the operational artist resolved the tension between policy and military strategy while tragedy and failure emerged in the remainder of General MacArthur s command when the discourse failed and the operational artist disregarded policy constraints in pursuit of his own aims The analysis implicates considerations for senior military commanders in their role as operational artists in the context of large scale combat operations within wars of limited aims constrained by competing interests This compilation also includes a reproduction of the 2019 Worldwide Threat Assessment of the U S Intelligence Community Publishing Field

Manual FM 3-0 Operations in October 2017 the U.S. Army shifted the priority from focusing on counterinsurgency to large scale combat operations LSCO making LSCO against a peer threat represent the most significant readiness requirement This realignment responds to a perceived threat from the military advancement and recent aggressive activity by competitor nations such as Russia China North Korea and Iran Russia's annexation of Crimea in 2014 and China's activity in the South China Sea serve as examples of the intent to contest the world order In addition the overlapping interests between the nations heighten concern Within this context the potential exists for miscalculation leading to escalation as well as simultaneous conflict in multiple regions This strategic environment challenges the National Command Authority NCA supported by military professionals in establishing political aims and allocation of resources across competing global interests Thus arises the question with consideration to the dynamics of the political environment and potential for LSCO with limited aims what is the role of senior military commanders with relation to the NCA in the development and implementation of policy and military strategy to further U.S. interests Carl von Clausewitz's theory On War explains the nature of war which remains relevant in understanding warfare in the twenty first century He derived the nature of real or limited war as a political endeavor in pursuit of limited aims establishing the necessity for the civil military relationship Clausewitz deduced that war is an instrument of policy emerging from the realm of politics consisting of the interrelationship between the enmity of the people the chance of military victory deduced by commanders and the purpose or reason narrative and legitimacy given by the government for the use of force Because of political origins the degree of force employed depends on the political aim with consideration to the conditions and capacities of the belligerents Thus war does not reach the logical extremes of uncontrolled violence because political interests moderate the effort The greater the political motivation for war the greater the belligerent contributes to the war effort

MacArthur Gavin Long,1969 **Military Commanders** Nigel Cawthorne,2004 From ancient Greece to Desert Storm Military Commanders presents a chronological history of great battles and the men who won them Beginning with Leonidas of Sparta who died at Thermopylae and ending with Colin Powell this book includes such world famous leaders as Alexander the Great Napoleon Grant and Lee Patton and Rommel In addition it includes the military theorist Sun Tzu who wrote The Art of War as well as lesser known but important figures such as Red Cloud Shaka Zulu and General Giap Military Commanders containing pertinent quotations anecdotes and detailed facts is a highly readable combination of history and biography

MacArthur's Airman Thomas E. Griffith,1998 Thomas Griffith offers a critical assessment of George C Kenney's numerous contributions to MacArthur's war efforts He depicts Kenney as a staunch proponent of airpower's ability to shape the outcome of military engagement and a commander who shared MacArthur's strategic vision

No Substitute for Victory Theodore Kinni,Donna Kinni,2008-05 General MacArthur defined principles of leadership that were decades ahead of their time In this book the authors reveal what MacArthur knew about setting the right goals building sleek fast response organizations inspiring subordinates to

unprecedented performance focusing relentlessly on results and winning Military Commanders of WW2 Jack J Kanski, 2018-09-18 Jack J Kanski presents concise illustrated books exploring the roles of the key personalities during the Second World War and their contributions in the conflict Following on from the first five books in his A Concise Outline series Kanski now offers readers information pertaining to the influential individuals from Great Britain the USA and the Soviet Union amongst others In Military Commanders of WW2 readers will learn about their background and the role that they played on the battlefield These books are designed as companion texts and when read together will give readers a good understanding of the important people and their contributions Written in a reader friendly bullet point format accompanied by many colour images Kanski's latest book will act as a stepping stone for the general reader interested in World War Two

MacArthur's Coalition Peter J. Dean, 2018-04-03 From 1942 1945 the Allies war in the Southwest Pacific was effectively a bilateral coalition between the United States and Australia under the command of General Douglas MacArthur By charting the evolution of the military effectiveness of the US Australian alliance MacArthur's Coalition puts the relationship between the United States and Australia at the center of the war against Japan Drawing on new primary source material Peter J Dean has written the first substantial book length treatment of the coalition as a combined military force This expansive and ambitious book provides a fresh perspective on the Pacific War by providing a close up in depth account of operations in the Southwest Pacific from the Kokoda Trail campaign to the reconquest of the Philippines and Borneo Dean's work takes the reader deep into the key military headquarters in the Southwest Pacific and reveals the discussions debates and arguments between key commanders and staff officers during the course of planning and waging a monumental conflict Drawing upon archival records across three continents Dean brings the qualities of these senior officers to life by exploring the critical importance of personalities and leadership in overcoming cultural doctrinal and organizational divides in the largely unequal alliance Set against the practicalities of fighting a fanatical enemy in some of the most inhospitable terrain in the war his book shows how despite these divides and MacArthur's difficult personality the US Australian coalition was able to forge a highly effective and ultimately triumphant fighting machine With its unprecedented view of the joint nature of operations in the Southwest Pacific and its focus on frontline commanders and units in forging a successful fighting force MacArthur's Coalition illuminates a critical aspect of the Allied victory in World War II Command Crisis D.
