growth political turmoil following a decade of austerity politics Brexit and the rise of Asian influence the EU is seen as a declining power on the world stage Columbia Law professor Anu Bradford argues the opposite in her important new book *The Brussels Effect* the EU remains an influential superpower that shapes the world in its image By promulgating regulations that shape the international business environment elevating standards worldwide and leading to a notable Europeanization of many important aspects of global commerce the EU has managed to shape policy in areas such as data privacy consumer health and safety environmental protection antitrust and online hate speech And in contrast to how superpowers wield their global influence the Brussels Effect a phrase first coined by Bradford in 2012 absolves the EU from playing a direct role in imposing standards as market forces alone are often sufficient as multinational companies voluntarily extend the EU rule to govern their global operations The Brussels Effect shows how the EU has acquired such power why multinational companies use EU standards as global standards and why the EU's role as the world's regulator is likely to outlive its gradual economic decline extending the EU's influence long into the future

National Brands and Global Markets Nikolas Glover, David M. Higgins, 2023-02-02 Between Brexit efforts to Make America great again and ongoing appeals for patriotic consumption to boost economies the intersection between national identity marketing campaigns and consumer choices has been brought to the fore This book maps out this terrain and provides a framework for how research on Made in

campaigns and programmes in individual countries can be placed into a broader historical context The book argues that the history of Made in can be used to shed light on society at large the actors that have promoted it the institutions that have regulated it and the cultural environments that have attributed it meaning At times Made in has been a basic descriptive trade mark while in other periods it has been a key component of carefully developed commercial brands and in yet other instances it has been used in attempts to forge and redefine national identities The book opens with an introduction to the three key factors which have featured prominently in Made in campaigns commercial logic national economic policy and its use as an instrument in political discourse and it provides an overview of the evolution of Made in from a marketing perspective This is followed by country specific discussions of Made in with case studies including countries in Western Europe the US Japan and the antipodes This book will be of significant interest to students and scholars of economic history business history and marketing Chapter 7 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Lobbying in the European Parliament Maja Kluger Dionigi, 2016-12-01 This book explains when and how interest groups are influential in the European Parliament which has become one of the most important lobbying venues in the EU Yet we know little about the many ways in which interest groups and lobbyists influence parliamentary politics The author offers insights on four key cases of lobbying based on the analysis of EU documents

lobbying letters and 150 interviews She argues that lobbying success depends on a number of factors most notably the degree of counter lobbying issue salience and committee receptiveness These factors are brought together in the framework of Triple I interests issues and institutions to determine the success or failure of lobbying This book will be of use to students and scholars interested in EU politics and governance EU decision making and interest group politics along with policy makers and practitioners *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* ,2002 **On Niccolò Machiavelli** Gabriele Pedullà,2023-10-17 Five hundred years after his death Niccol Machiavelli still draws an astonishing range of contradictory characterizations Was he a friend of tyrants An ardent republican loyal to Florence s free institutions The father of political realism A revolutionary populist A calculating rationalist A Renaissance humanist A prophet of Italian unification A theorist of mixed government A forerunner to authoritarianism The master of the dark arts of intrigue This book provides a vivid and engaging introduction to Machiavelli s life and works that sheds new light on his originality and relevance Gabriele Pedull a leading Italian expert and acclaimed writer offers fresh readings of the Florentine thinker s most famous writings The Prince and the Discourses on Livy as well as lesser known texts A new and often surprising Machiavelli emerges one closer to his time but also better suited to inform our own Pedull s portrait of Machiavelli highlights his close attention to social and emotional bonds staunch opposition to oligarchy keen awareness of the economic side of power dynamics and strong preference for history over philosophy as a guide for leaders This book recovers the excitement Machiavelli roused in his first readers for a twenty first century audience capturing his capacity to provoke both then and now with unconventional ideas and startling insights

methodological offers a wealth of knowledge concerning the effect of lobbying on political decision making and will appeal to academics across the social sciences practitioners and policy makers
