unique to New York socialist American Labor and Liberal Later he describes their attraction to various factions of the traditional Democratic and Republican parties He spotlights the willingness of large numbers of Jewish voters to cast ballots for third party candidates on the basis of their shared philosophical commitments and political priorities McNickle then examines mayoral campaigns between 1945 the end of the LaGuardia era and 1989 during which the Irish receded and Jews and later African Americans emerged as the most important ethnic groups in local politics To Be Mayor of New York offers the most complete study of the development of Jewish political participation in New York Placing a rise of the New York City Reform Movement in historical perspective the author explains the election of New York's first Jewish mayor Abe Beame and the first African American mayor David Dinkins as part of the political evolution of both these groups The Politics of Citizenship in Immigrant Democracies Geoffrey Brahm Levey, Ayelet Shachar, 2017-10-02 This book brings together scholars from various disciplines to explore current issues and trends in the rethinking of migration and citizenship from the perspective of three major immigrant democracies Australia Canada and the United States These countries share a history of pronounced immigration and emigration extensive experience with diasporic and mobile communities and with integrating culturally diverse populations They also share an approach to automatic citizenship based on the principle of jus soli as opposed to the traditionally common jus sanguinis of continental Europe and a comparatively open attitude towards naturalization Some of these characteristics are now under pressure due to the restrictive turn in citizenship and migration worldwide This volume explores the significance of political structures political agents and political culture in shaping processes of inclusion and exclusion in these diverse societies This book was originally published as a special issue of Citizenship Studies **Urban America Examined** Dale Casper, 2017-10-30 Originally published in 1985 Urban America Examined is a comprehensive bibliography examining the urban environment of the United States The book is split into sections corresponding to the four main geographic regions of the country looking respectively at research conducted in the East South Midwest and West The book provides a broad cross section of sources from books to periodicals and covers a range of interdisciplinary issues such as social theory urbanization the growth of the city ethnicity socialism and US politics

exploring why charter schools are reshaping America's education system and democracy for the worse Drawing on interviews with elected officials policy entrepreneurs parents and activists in Albany NY Straus argues that charter schools are a poor alternative to failing public schools ultimately worsening racial segregation under the guise of providing underprivileged students with access to better education Taking a wide ranging view the author explores why parents elected officials and community activists may or may not choose to leave the public education system by enrolling their children in charter schools Straus finds that when families of color leave public schools in favor of charter schools this removes their democratic voice and participation diminishing their political power in a high stakes area of public policy Divided by Choice highlights the fundamental flaws of one solution to public education inequalities at a time when racial tensions are at an all time high *Mayor Erastus Corning* Paul Grondahl, 2007-09-07 Grondahl's classic biography of Albany's mayor for life now available in paperback **The Annals of the American Academy of Political and Social Science**, 1978 *People & Politics in Urban America* Robert W.
