Adventures of Isabel and What's the Matter with Mary Jane has often said that death is too good for Lockwood Chiles who is in prison for killing her beloved partner Nathan and her close friend Pris and makes no secret that she hates the man who massacred her shot at happiness. So when Chiles ends up dead in his cell it's no wonder she becomes a prime suspect. Meanwhile an aggressive band of men in military adjacent garb turn a string of assaults against nameless's unhoused neighbors into full bore murder right behind the Epitome Apartments and she rashly promises to help bring them to law. As if that's not enough unscrupulous parties are scheming to strip her of her inheritance money she and Nathan had intended would address the city's lack of harm reduction services and low income housing. Now it is nameless's mission to clear her name and to hold her tattered community together all while she's coming apart herself. **Reload** Mary Flanagan, Austin Booth, 2002-05-03 An anthology of feminist cyberfiction and theoretical and critical writings on gender and technoculture. Most writing on cyberculture is dominated by two almost mutually exclusive visions: the heroic image of the male outlaw hacker and the utopian myth of a gender free cyberworld. Reload offers an alternative picture of cyberspace as a complex and contradictory place where there is oppression as well as liberation. It shows how cyberpunk's revolutionary claims conceal its ultimate conservatism on matters of class, gender, and race. The cyberfeminists writing here view cyberculture as a social experiment with an as yet unfulfilled potential to create new identities, relationships, and cultures. The book brings together women's cyberfiction fiction that explores the relationship between people and virtual technologies and feminist theoretical and critical investigations of gender and technoculture. From a variety of viewpoints the writers consider the effects of rapid and profound technological change on culture in particular both the revolutionary and reactionary effects of cyberculture on women's lives. They also explore the feminist implications of the cyborg, a human machine hybrid. The writers challenge the conceptual and institutional rifts between high and low culture which are embedded in the texts and artifacts of cyberculture.
