Majorca Observed:

Majorca Observed Robert Graves, Paul Hogarth, 2003 *Majorca Observed* Robert Graves, 1954 *Mallorca* Richard Buswell, 2022-08-15 Professor Buswell describes the elements that together form Mallorca's contemporary landscape. Well illustrated with maps and photographs, this book should be read by all who are inquisitive about what they see around them when they visit the island. Majorca Observed, by R. Graves & P. Hogarth Robert Graves, 1965 British representations of the Spanish Civil War Brian Shelmerdine, 2024-07-30 This book looks at the reception of the Spanish Civil War in British popular culture and how supporters of both sides in Britain used the rhetoric and imagery of the conflict to bolster support for their respective causes in the arena of British public opinion. Brian Shelmerdine finds that traditional notions of Spain as a country of bullfighting, bandits, and flamenco were pervasive and were significant in shaping wider UK government policy towards Spain. He carefully assesses the different political perceptions of the 1930s Spanish scene, the role of the Catholic Church, the depiction of the two sides in terms of class, race, and ethnicity, humanitarian appeals, and the plight of the Basques. The book is fluently written and should make fascinating and entertaining reading for scholars of British society and culture in the twentieth century as well as those investigating the international impact of the Spanish Civil War. Majorca Ann Hoffmann, 1978 Balearic Islands David and Susie Baggaley, The twelfth edition of this renamed popular title covers Ibiza, Formentera, Mallorca, Cabrera, and Menorca. The only fully comprehensive pilot guide to the Spanish islands in English, Balearic Islands offers guidance and information to yacht charterers or cruising sailors looking to explore this popular cruising ground. It's been revised and updated for the Royal Cruising Club Pilotage Foundation by David and Susie Baggaley, whose Beneteau 42 Kookaburra was based in Addaya, Menorca, for several years. The authors share their knowledge enthusiastically and authoritatively, offering a taste of the culture of the Balearics with information about the islands as a destination alongside in-depth data on the marinas, ports, and delightful cala anchorages for which the islands are so popular. The introductory sections contain detail on regulations, marine reserves, and environmental concerns, climate, weather, and practical considerations for yachts, both mono and multi-hull. Imray chartlets have been updated throughout. There are also many attractive new photographs which are informative to the navigator. Ethnic Sephardic Jews in the Medical Literature Shelomo Alfassa, 2007 The Seduction of Modern Spain Aurora G. Morcillo, 2010 This book will be essential for scholars and students interested in Ibero-American cultural studies, gender, religion, and totalitarian politics. Book Jacket *Spiritual Franciscans* David Burr, 2010-11-01 When Saint Francis of Assisi died in 1226, he left behind an order already struggling to maintain its identity. As the Church called upon Franciscans to be bishops, professors, and inquisitors, their style of life began to change. Some in the order lamented this change and insisted on observing the strict poverty practiced by Francis himself. Others were more open to compromise. Over time, this division evolved into a genuine rift as those who argued for strict poverty were marginalized within the order. In this book, David Burr offers the first comprehensive history of the so-called

Spiritual Franciscans a protest movement within the Franciscan order Burr shows that the movement existed more or less as a loyal opposition in the late thirteenth century but by 1318 Pope John XXII and leaders of the order and combined to force it beyond the boundaries of legitimacy At that point the loyal opposition turned into a heretical movement and recalcitrant friars were sent to the stake

The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

Local Lives Brigitte Bönisch-Brednich, 2016-12-05 Local Lives contests dominant trends in migration theory demonstrating that many migrant identities have not become entirely diasporic or cosmopolitan but remain equally focused on emplaced belonging and the anxieties of being uprooted By addressing the question of how migrants legally and symbolically lay claim to owning and belonging to place it refocuses our attention on the micro politics and everyday rituals of place making that are central to the construction of migrant identities Exploring immigrants interactions with house spaces property rights environmental conservation landscape historical knowledge of place ideas of local community and place specific traditions this volume shows how in a fluid world of movement locality remains a deeply contested and symbolically rich place to situate identity and to constitute the self Thematically organised and presenting a diverse range of empirical studies dealing with migrant communities in Hawaii Britain France Spain Australia New Zealand the Dominican Republic and Albania Local Lives reorients research in migration and transnational studies around locality As such it will appeal to social scientists working on questions relating to landscape identity and belonging race and ethnicity and migration and transnationalism
