exercises and course assignments over the past 15 years **Make Up Your Life** Victoria Jackson, 2000 Every woman's guide to the power of makeup **Read for Your Life** Gladys Hunt, Barbara Hampton, 1992 Most teens already know what wealth and just plain fun books contain What is sometimes missing is the encouragement to make time for reading in the middle of a busy life Getting excited about books is contagious and so is the reading habit The whole family needs all the encouragement it can get especially teenagers Read for Your Life is more than inspiration to read Gladys Hunt discusses how to read a book what makes a good book what questions to ask and how to discern between good better and best She has a way of making you want to read while helping you to make the most of the opportunity To help you choose what to read Barbara Hampton has reviewed more than 300 books Her recommendations run the gamut from classics like A Tale of Two Cities to contemporary fiction like A Ring of Endless Light from literary greats like Sir Arthur Conan Doyle and Alan Paton to moderns like Katherine Paterson and Chaim Potok The book contains Pointers on becoming a more perceptive reader Tips on how to enjoy poetry fantasy and fiction An annotated list of over 300 book recommendations Hundreds of plot synopses A complete index to authors and titles **It's Your Life It's Your Choice - Create Tomorrow's Successes Today** Chris Demetriou, 2012-02 The choices you make today frame your tomorrows The ability to make the right choices is one of the most important skills you can learn It is a critical factor that enables you to take command of every situation and use it to your benefit The good news is you can learn to make the right choices You can be taught how to set a course and direction in life that moves you toward success and happiness Choices are building blocks for every future accomplishment Every advance you make begins with a single idea a single thought It is the fresh ideas you generate daily that will help you to solve problems overcome obstacles and achieve your goals Ideas are keys to what lies ahead so expect your mind to be flooded with new ideas as you read this inspirational book Empower Your Life Michael Hardiman, 2012-12-05 I decided to write this book because I have come to the conclusion that for the most part people do not know how to construct and pursue what makes for what philosophers call the good life Psychology and philosophy have both provided enormous insights into the challenge that is required to evolve into an emotional healthy and spiritually mature human being Unfortunately much of that rich tapestry of wisdom and knowledge is left in the hallowed halls of academia Instead much of the current self help industry holds out promises that are grounded in shallow optimism and a pseudo spiritual ideology Fulfilment happiness and personal peace are given the fast food approach in much of modern self help literature Spiritual nutrition is doled out in colourful packaging tasty morsels that are inexpensive and go down easily Yet they have little real nutritional value and soon after you are hungry again This book addresses some of the more common but misleading information in the mind body spirit section of the popular psychology world It combines the reflections of the great philosophers with the research findings of psychology and presents what I believe is a deeper and more spiritually satisfying approach It describes the kind of thinking and analysis that is necessary if you are to become reflective and insightful in approaching the bigger questions in your life

And as a result may equip you to lead a more meaningful richer and fulfilling life The challenge to living such a life involves a vibrant combination of the following five elements Developing healthy self worth good decision making a strong life purpose nourishing relationships and reflective living The following pages explicate these topics in what I hope is an accessible and readable manner
