Geoff Tibballs,2016-10-20 When we think of the world's great museums we tend to think of the Louvre the Guggenheim or the Victoria and Albert We do not immediately think of the Dog Collar Museum the Kansas Barbed Wire Museum the Museum of Broken Relationships or Barney Smith's Toilet Seat Art Museum Yet scattered across the globe are museums dedicated to every conceivable subject from bananas to Bigfoot lawnmowers to leprechauns teapots to tapeworms mustard to moist towelettes and pencils to penises Many are serious collections housed in grand buildings others are located in tiny premises and are open to visitors by appointment only often the result of one person's crazy lifetime obsession This book lists the world's 100 weirdest museums in order of quirkiness encompassing such delights as The Museum of Witchcraft in Cornwall a museum in Kentucky that houses 800 ventriloquists dolls the Museum of Bad Art in Massachusetts the Paris Sewer Museum the French Fry Museum in Bruges the Museum of Contraception and Abortion in Vienna the Salt and Pepper Shaker Museum in Tennessee Japan's Momofuku Ando Instant Ramen Museum quite possibly the world's only museum devoted to instant noodles and the Kunstkamera in St Petersburg home to Peter the Great's collection of oddities including deformed fetuses and the decapitated head of a love rival preserved in vinegar After all what holiday is complete until you have seen a 300 year old decapitated human head in a jar Each entry will include address contact and admission details so the next time you are in Berlin there is no excuse for missing out on a visit to the Currywurst Museum the world's leading museum dedicated to sausages in hot ketchup

### **Writing for Museums**

Margot Wallace,2014-10-06 Words are everywhere in the museum Amidst all the visual exhibits and in many non exhibition areas swarm a host of words talking to a vast swath of people in ways that visuals cannot Signage at the information desk brochures exhibition videos guided tours membership materials apps and store labels in a multi screen world where

information explodes in every corner of the field of vision clarity comes from the presence of words among the feast of visuals helping contemporary audiences feel at home Research bears out the need for a range of learning tools and it s not just visitors who benefit from verbal cues donors educators community partners and volunteers will all engage more effectively with the museum that explains its brand mission with good writing Whether written by administrators staffers freelancers or interns words are delivered by people in your museums with the knowledge that they will be interpreted by strangers Your story is told everywhere and with each narration it reinforces your brand hopefully every single word reflects your brand Each chapter tells how to put into words the stories you need to tell including Blogs Brochures Exhibition videos Guided tour scripts Collateral programming talks Marketing plans Proposals to community partners Public Relations releases Social Media Solicitation letters Surveys Volunteer communications Website If you ever wished for a good writer right on staff ready to take on project major or routine here s the help you re looking for     *The Routledge Handbook of Museum and Heritage Education* Margaret McColl,Pete Brown,Michelle Delaney,Karl Borromäus Murr,Henrik Zipsane,2025-06-24 The Routledge Handbook of Museum and Heritage Education is a practical reference guide that shows how museums galleries and heritage sites can offer opportunities for successful visitor engagement Defining museums as all cultural sites that interpret collections and spaces for public education understanding and enjoyment this volume argues that museum education has a central role in the development of policies practices and research for engagement Including contributions from experts across the globe the volume shows how these sites can continue to offer unique opportunities for social physical emotional and academic engagement that are much needed to inform and empower museum visitors internationally It also demonstrates how museums galleries and heritage sites can be utilised for the betterment and sustainability of our world and the societies we live in Combining rich theory with innovative practice this book provides a comprehensive analysis of museum and heritage education today The Routledge Handbook of Museum and Heritage Education will be of interest to academics students and professionals who are based in the fields of museum education heritage adult and community education cultural studies social studies psychology and tourism     On a Silver Platter Greg M. Smith,1999 When the new medium of CD ROMs emerged industry figures and critics alike proclaimed their virtually unlimited potential Adapting material from well established media like television and film CD ROMs have quickly transformed genres such as science fiction and horror At the same time the realities of actual CD ROMs often fall short of their utopian visions On a Silver Platter marks a coming of age for CD ROMs as a commercially and aesthetically significant medium demanding critical attention Greg Smith brings together media scholars such as Lisa Cartwright Henry Jenkins Janet Murray and Scott Bukatman to analyze how CD ROMs offer alternatives to familiar places to museums to cities and especially to classrooms Examining specific CD ROM titles including Sim City Civilization and Phantasmagoria the contributors argue that CD ROMs are complex texts worthy of close consideration both for how they have changed our understanding of space and genre and for how they

will impact the development of future media By examining particular CD ROM texts and contexts On a Silver Platter probes this new medium for insight and understanding into the current state of multimedia and into the future of technology
