Make The Team The Art Of Self Recruiting:

Make the Team Avi Rafael Stopper,2004 **Mastering the Art of Recruiting** Michael Travis,2015-01-16 A priceless resource for seasoned as well as first time executives this is the playbook that explains how to recruit better people and build stronger more effective teams Executives are highly motivated to get better at hiring because they know the ability to consistently identify and recruit the right people is critical to the success of their businesses and their personal advancement But hiring people isn't taught in business schools or executive development programs This book provides the sorely needed and essential practical instruction that executives are not receiving elsewhere supplying a step by step guide for those who want to excel at attracting and identifying talent Covering everything from the basics of defining a job to the intricacies of managing internal politics this no nonsense book provides a clear roadmap through the often daunting and pitfall laden recruiting process In addition to explaining how to get it right the book provides the information and guidance readers need to identify and fix the most common problems that doom hiring efforts to failure Debunking the idea that some people are just great recruiters and some aren't the author clearly identifies the steps that anyone can take in order to master the art and science of recruiting *Recruiting News* ,1935 *Recruiter Journal* ,2011 *The Entrepreneur's Guide to Hiring and Building the Team* Ken Tanner,2008-01-30 There are few absolutes in business but here is one Thriving businesses employ a superior team No matter how great the idea how strong the entrepreneur's finances how excellent the location or how magnetic the advertising the success or failure of the business rides on the quality of the workforce And here's another absolute Long term financial success depends on keeping effective employees from jumping ship In this book business veteran Ken Tanner guides entrepreneurs through the three critical components of staffing a business recruiting teambuilding and retention As he shows time and again through advice anecdote and example solving these challenges is like adding rocket fuel to the entrepreneurial business Yet new business owners tend to take a lax view of personnel issues They hire the first person who walks through the door or interview using a canned sheet of questions snagged from the Internet Teambuilding consists of showing the new employee where to sit and who to go to for answers And retention What's that The Entrepreneur's Guide to Hiring and Building the Team begins by helping entrepreneurs understand why staffing is so important Then it guides them through the entire process of recruiting to attract top notch talent to the budding organization But that's only the start Tanner maintains It's critical to get these talented people to work together to drive the business and it's equally critical to keep each employee challenged motivated and satisfied the keys to retention **U.S. Army Recruiting News** United States.
