United States. Congress. House. Committee on Science and Technology. Subcommittee on Space Science and Applications, 1986      **Junior Maker** DK, 2018-07-03 Arts and crafts experiments to try at home Learn play and craft with

this fantastic activity packed book that will test and expand your creativity This kids arts and crafts book will teach and engage your little creator in 20 interactive activities crafts and experiments carefully designed to complement what children are learning at school There is so much to do and even more to learn with Junior Maker This interactive book encourages hands on play through carefully designed experiments that complement what children are taught in school Prepare to get down messy and have heaps of fun while learning perfect for kids aged 6 8 Specific step by step instructions and visuals help young readers and makers explore subjects such as space nature history animals and science Crafting ideas appear next to excellent illustrations and photographs and fun fact informative text that is easy to read What looks like inspirational material helps to teach children these important topics and make it exciting for them Every fun educational experiment is based around basic household items and inexpensive and easy to find art supplies to keep things simple Little creators can expect to use familiar things like buttons and marshmallows to map our solar system make a bottle jetpack while learning about gravity design a rain gauge to measure rainfall and much more Make Do Learn And Impress Your Friends With Fun Experiments Have fun while learning by embarking on a journey through history nature and science Make a Roman soldier s shield experiment with a chemical reaction that blows up a balloon or look at the stars and explore the solar system This book combines fun and learning together to create a full educational experience With Junior Maker any child can improve their understanding of things to help them inside and out of the classroom Whether your child is an aspiring scientist astronaut or is merely curious about our great big world Junior Maker will get them thinking learning and making Through fun and interactive activities your little creator will learn about Space History Nature Animals Science This science book for kids will teach your child about a given subject through interactive activities crafts and experiments Further your knowledge and add to your experiments at home by advancing to our Makers Lab book series which will keep the crafting party in your lab going with more exciting science experiments and activities

#### **Outer Space and Popular Culture** Annette

Froehlich,2019-08-01 This book provides detailed insights into how space and popular culture intersect across a broad spectrum of examples including cinema music art arcade games cartoons comics and advertisements This is a pertinent topic since the use of space themes differs in different cultural contexts and these themes can be used to explore various aspects of the human condition and provide a context for social commentary on politically sensitive issues With the use of space imagery evolving over the past sixty years of the space age this is a topic ripe for in depth exploration The book also discusses the contrasting visions of space from the late 19th and early 20th centuries and the reality of today and analyzes space vehicles and habitats in popular depictions of space from an engineering perspective exploring how many of those ideas have actually been implemented in practice and why or why not a case of life imitating art and vice versa As such it covers a wide array of relevant and timely topics examining intersections between space and popular culture and offering accounts of space and its effect on culture language and storytelling from the southern regions of the world 22nd
