Makers Of Science:

Makers of Science IVOR B. HART, 2017-07-25 Excerpt from Makers of Science Mathematics Physics Astronomy Space has demanded a rigid limitation in the matter treated No attempt has been made to include either the biological or the chemical sciences For the same reason much of the history of physics and mathematics has necessarily been omitted and the characters chosen for biographical treatment have been so chosen rather from the point of view of their suitability as pegs from which to hang the scientific history of their times than from any superiority over their contemporaries About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
