E. H. Hull, 1997 American legal history is traditionally viewed as a succession of discrete schools of thought or landmark court decisions not as the work of individuals Such an approach however hardly does justice to the lives of two of the foremost teachers and theorists of American jurisprudence In Roscoe Pound and Karl Llewellyn Searching for an American Jurisprudence N E H Hull reconstructs the historical cultural and intellectual context of the work of Pound and Llewellyn bringing to light their private and public relationship as well as the diverse sources from psychology to plant ecology to Icelandic sagas they separately drew upon in making their contributions to the American legal tradition Uneasy Careers and Intimate Lives Pnina G. Abir-Am, Dorinda Outram, 1987 These pioneering studies of women in science pay special attention to the mutual impact of family life and scientific career The contributors address five key themes historical changes in such concepts as scientific career profession patronage and family differences in gender image associated with various branches of science consequences of national differences and emigration opportunities for scientific work opened or closed by marriage and

levels of women's awareness about the role of gender in science. An international group of historians of science discuss a wide range of European and American women scientists from early nineteenth century English botanists to Marie Curie to the twentieth century theoretical biologist Dorothy Wrinch. **"A Region of Astonishing Beauty"** Roger Lawrence Williams, 2003. As we approach the bicentennial of the Lewis and Clark Expedition in 2004, attention will inevitably turn to the nineteenth century explorers who risked life and limb to interpret the natural history of the American West. Guide to Historical Research at the National Agriculture Library Susan Chapman, 1994. National Library of Medicine Catalog National Library of Medicine (U.S.), 1966. **Dictionary Of British And Irish Botanists And Horticulturalists Including plant collectors, flower painters and garden designers** Ray Desmond, 2020-12-23. Over the past four centuries botanists and gardeners in the British Isles have gathered, maintained and propagated many varying species of plants. Their work has been documented in innumerable books and articles which are often difficult to trace. The Dictionary of British and Irish Botanists and Horticulturalists represents a time saving reference source for those who wish to discover more about the lives and achievements of the horticulturalists listed. The dictionary's utility comes not only from indicating the major publications of the named authors but also the location of their herbaria and manuscripts. The previous 1977 edition of the Dictionary has for many years been a much used source of information for botanists, botanic artists and archivists. In this revised edition the scope has been expanded to include among its 13 000 entries flower painters in addition to botanical artists over 1400 entries and for the first time garden designers. Finally the Dictionary should have international appeal since so many botanists and gardeners worked on collective plants overseas in particular in North America and the British Commonwealth. Each entry gives wherever possible details of dates and places of birth and death, educational qualifications, professional posts, honours and awards, publications, location of plant collections, manuscripts, drawings and portraits. Its main function however is to provide further biographical references to books and periodicals. Comprehensive classified indices facilitate access by professions and activities, countries and plant interests. The Cleveland Herbal, Botanical, and Horticultural Collections Holden Arboretum, Cleveland Medical Library Association, Garden Center of Greater Cleveland, 1992. More than 970 rare books dating from 1479 to 1830 and covering such categories as gardening, herbals, botanical books and landscape architecture are catalogued in this bibliography. **Indiana Dunes National Lakeshore, West Beach Unit, Proposed Comprehensive Design**, 1975. **Special Reference Briefs**, 1983. *Pioneers of American Landscape Design* Charles A.
