## **Making Democracy Work A Framework For Macroeconomic Policy In South Africa:**

**South Africa and the Logic of Regional Cooperation** James J. Hentz, 2005-07-19 In South Africa and the Logic of Regional Cooperation James J Hentz addresses changes in South Africa's strategies for regional cooperation and economic development since its transition from apartheid to democracy Hentz focuses on why the new South African government continues to make regional cooperation a priority and what methods this dominant state uses to pursue its neighborly goals While providing a synthetic overview of the history of regional cooperation in southern Africa Hentz considers the logic of cooperation more generally An extensive discussion of South African politics provides the context for Hentz's exploration of the more widely felt effects of domestic change Readers interested in the international organization of the politics and economy of southern Africa will find thought provoking material in this important book [Making Democracy Work](#)

Macroeconomic Research Group, 1993 MERG has become convinced that a sea change in economic policy is essential to generate growth in the next few years It can demonstrate that its proposed policy framework is both coherent and affordable The MERG proposals offer a radically different vision of the future of South Africa They have been designed to address the current imbalances through direct intervention in a way which would benefit all sections of the South African population within a short period of time MERG took the objectives of the democratic movement as its starting point The aim of the MERG framework is therefore to secure a rapid improvement in the quality of the daily lives of South Africa's poorest most oppressed and disadvantaged people The strategy stresses programmes to initiate job creation and training programmes for the unemployed improve the status of the poorest women in the rural areas improve the availability and quality of education health housing and electrification raise the level of wages of low income workers and dramatically improve the skills of employed workers

**Rural Wage Employment in Developing Countries** Carlos Oya, Nicola Pontara, 2015-05-22 There is a striking scarcity of work conducted on rural labour markets in the developing world particularly in Africa This book aims to fill this gap by bringing together a group of contributors who boast substantial field experience researching rural wage employment in various developing countries It provides critical perspectives on mainstream approaches to rural agrarian development and analysis of agrarian change and rural transformations from a long term perspective This book challenges the notion that rural areas in low and middle income countries are dominated by self employment It purports that this conventional view is largely due to the application of conceptual frameworks and statistical conventions that are ill equipped to capture labour market participation The contributions in this book offer a variety of methodological lessons for the study of rural labour markets focusing in particular on the use of mixed methods in micro level field research and more emphasis on capturing occupation multiplicity The emphasis on context history and specific configurations of power relations affecting rural labour market outcomes are key and reoccurring features of this book This analysis will help readers think about policy options to improve the quantity and quality of rural wage employment their impact on the poorest rural people and their

political feasibility in each context      **Post-Apartheid Southern Africa** Lennart Petersson,1998-01-29 This volume brings together some of the best known and highly regarded academics in the field to present a timely and comprehensive review of the prospects for economic integration and development in Southern Africa and to analyse alternative strategies and policies for the future It presents in depth country specific studies of Botswana Lesotho      **South Africa's Uneasy Alliance** Martin Plaut,2012-10-31 The communist party in South Africa began as a revolutionary movement In exile in the 1960s and 1970s it took on significance its numbers never warranted through its relationship with the Soviet Union and the weapons it brought to the armed struggle Today it worries that it has been absorbed into the ANC machinery of government without being able to retain its own identity The unions of Cosatu were born out of the fight against poverty level wages of the 1970s Their culture comes from the shop floor and the democracy of the shop steward movement They played a critical role in ending apartheid through their links with the United Democratic Front and the grassroots groups in the townships African Nationalism Marxism Leninism and popular democracy are never easy ideological partners Yet the Alliance has survived and flourished The cost of this relationship has been endless disputes While each element of the Alliance pledges its support for the greater good it fights for its own corner The history of post apartheid South Africa is littered with examples of how this has been played out The overthrow of President Thabo Mbeki by Jacob Zuma in 2007 would have been unthinkable without the complex web of relationships that were developed within the Alliance As the ANC moves towards its elective conference in Mangaung in December 2012 tensions within the Alliance are at breaking point once more In theory this is a purely internal ANC party issue But candidates for the top job are battling it out and the support of the unions and the Communist Party is a critical element in their campaigns These battles can only be understood in the context of the Alliance an extraordinary but poorly understood movement      **No More Tears** Richard Levin,Daniel Weiner,1997 This text demonstrates why incorporating extensive knowledge that exists in poor rural areas into development of land and reform policies is essential for truly democratic social and economic transformation      **The Experience of Economic Redistribution** Clarence Tshitereke,2006-10-09 This book provides an analysis of the country s political economy in transition It documents the history of the gold mining industry s involvement in shaping the political landscape of South Africa and shows the degree to which the political transition was induced to put in place a new mode of regulation for capital accumulation In the process the victims of apartheid have now become victims of democracy s neo liberalism as the government is constrained from being developmental interventionist and redistributive      **Politics and Government in South Africa** Mueni Wa Muiu,2023-06-20 Politics and Government in South Africa introduces readers to all aspects of government and politics in South Africa from local to provincial national and on to international considerations The perfect guide for students and general readers this textbook explains how South Africa s key institutions are governed and interact with each other and how important issues such as economics gender race and class shape relations between citizens and

government Grounded in history and leading theories and debates the book also brings in alternative perspectives from artists writers and popular culture to demonstrate the diverse ways in which issues of politics and social justice are engaged with within South Africa Written with the needs of students at the forefront each chapter includes Review and discussion questions Key terms and further resources Fun facts in a Did you know section Supplementary sources and quotations in a The Past as Present section Interactive and engaging Politics and Government in South Africa invites readers to consider what they would do in tackling issues such as land distribution peacekeeping South Africa s role in the African Union and military engagement abroad It is an essential read for undergraduate students studying Political Science International Relations and African Studies and for anyone looking to develop a deeper understanding of South Africa

*In the Balance* Hein Marais,2022-07 This timeous book presents a compelling analysis of the need conditions and possibilities for a universal basic income UBI in South Africa and globally It explores the vexing questions a UBI raises about the relationship of paid work to social rights and about the role of the state in contemporary capitalism As jobs disappear and wages flatline paid work is an increasingly fragile basis for dignified life This predicament deepened by the COVID 19 pandemic is sparking urgent debates about alternatives such as a universal basic income UBI In this incisive new book Hein Marais casts the debate about a UBI in the wider context of the dispossessing pressures of capitalism and the turmoil of global warming pandemics and social upheaval Marais surveys the meaning history and appeal of a UBI before even handedly weighing the case for and against it The book explores the vexing questions a UBI raises about the relationship of paid work to social rights about prevailing notions of entitlement and dependency and about the role of the state in contemporary capitalism Along with cost estimates for different versions of a basic income in South Africa it discusses financing options and lays out the social economic and political implications Highly topical and distinctive in its approach In the Balance The Case for a Universal Basic Income in South Africa and Beyond is the most rounded and up to date examination yet of the need and prospects for a UBI in a global South setting such as South Africa

*The Politics of Solidarity* Carmen Ludwig,2020-04-08 Politische Transformation und dann 25 Jahre nach dem Ende der Apartheid sieht sich die s dafrikanische Gesellschaft nach wie vor mit drastischen Ungleichheiten konfrontiert Carmen Ludwig nimmt den Wandel ffentlicher Dienstleistungen im Post Apartheid S dafrika und die Auswirkungen der kommunalen Privatisierungen in den Blick Sie zeigt anhand dreier Gro st dte politische Konfliktlinien und lokale Gewerkschaftsstrategien im Spannungsfeld von in und exklusiver Solidarit t auf Zudem stellt sie die Frage wie es Gewerkschaften gelingen kann Solidarit t in fragmentierten Belegschaften herzustellen

Ownership and Governance of Companies Jonathan Michie,Vishnu Padayachee,2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift

wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC's mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics

**Public Policymaking in a Globalized World** Robin J. Lewis, 2018-01-19 The inexorable advent of globalization has transformed the public policymaking process into a multi faceted challenge that transcends traditional policymaking boundaries and forces scholars experts and practitioners to redefine their field in terms of both theory and practice While every policy dilemma has a specific location in time and space most significant policy issues climate change food and water economic development global pandemics terrorism and violence and migration to name just a few now require a collective framing of the problem and a collaborative effort to take effective action The essays in Public Policymaking in a Globalized World offer valuable insights into how policymaking is evolving from a circumscribed field of inquiry into a truly global dialogue that can help stakeholders to focus on key issues that threaten the survival of our planet

**Regions and Development** Sheila Page, 2020-12-15 At the 1996 EADI Conference the papers presented in the World Trade and Trade Policy workshop looked at the new trends in regionalism from a variety of points of view for different institutions They considered the effects of regions their implications for policy and performance in the developing countries and for international economic institutions and tried to interpret them in terms of economic and political theory

**End of Millennium** Manuel Castells, 2010-01-26 This final volume in Manuel Castells trilogy with a substantial new preface is devoted to processes of global social change induced by the transition from the old industrial society to the emerging global network society Explains why China rather than Japan is the economic and political actor that is revolutionizing the global system Reflects on the contradictions of European unification proposing the concept of the network state Substantial new preface assesses the validity of the theoretical construction presented in the conclusion of the trilogy proposing some conceptual modifications in light of the observed experience

**Growth or Stagnation?** Mats Lundahl, 2019-04-02 First published in 1999 the essays collected in the present volume derive from an interest in South Africa and its economy which goes back to the early 1970s and were written between 1994 and 1999 The intention is to follow how the debate on the South African economy has evolved since the fall of the apartheid regime Issues discussed include the South African economy after apartheid and whether the new South African economy is ultimately

experienced growth or stagnation      **Electric Capitalism** David A. McDonald, 2012-05-16 Although Africa is the most under supplied region of the world for electricity its economies are utterly dependent on it There are enormous inequalities in electricity access with industry receiving abundant supplies of cheap power while more than 80 per cent of the continent's population remain off the power grid Africa is not unique in this respect but levels of inequality are particularly pronounced here due to the inherent unevenness of electric capitalism on the continent This book provides an innovative theoretical framework for understanding electricity and capitalism in Africa followed by a series of case studies that examine different aspects of electricity supply and consumption The chapters focus primarily on South Africa due to its dominance in the electricity market but there are important lessons to be learned for the continent as a whole not least because of the aggressive expansion of South African capital into other parts of Africa to develop and control electricity Africa is experiencing a renewed scramble for its electricity resources conjuring up images of a recolonisation of the continent along the power grid Written by leading academics and activists Electric Capitalism offers a cutting edge yet accessible overview of one of the most important developments in Africa today with direct implications for health gender equity environmental sustainability and socio economic justice From nuclear power through prepaid electricity meters to the massive dam projects taking place in central Africa an understanding of electricity reforms on the continent helps shape our insights into development debates in Africa in particular and the expansion of neoliberal capitalism more generally      **Corrupted** Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions      **Making Democracy Work** Macroeconomic Research Group, 1993 MERG has become convinced that a sea change in economic policy is essential to generate growth in the next few years It can demonstrate that its proposed policy framework is both coherent and affordable The MERG proposals offer a radically different vision of the future of South Africa They have been designed to address the current imbalances through direct intervention in a way which would benefit all sections of the South African population within a short period of time MERG took the objectives of the democratic movement as its starting point The aim of the MERG framework is therefore to secure a rapid improvement in the quality of the daily lives of South Africa's poorest most oppressed and disadvantaged people The strategy stresses programmes to initiate job creation and training programmes for the unemployed improve the status of the poorest women in the rural areas improve the availability and quality of education health housing and electrification raise the level of wages of low income workers and dramatically improve the skills of employed workers      **Season of Hope** Alan Hirsch, 2005 Offers an insight into the circumstances under which the policies were developed implemented and reviewed as well as a study of the outcomes This book addresses questions such as How could an organisation with no previous experience of governing accomplish a peaceful transition to

democracy How did they do it and where are they going      **Key Thinkers on Development** David Simon, 2019-04-02 Since its publication in 2006 as *Fifty Key Thinkers on Development* this invaluable reference has established itself as the leading biographical handbook in its field providing a concise and accessible introduction to the lives and key contributions of development thinkers from across the ideological and disciplinary spectrum This substantially expanded and fully updated second edition in the relaunched series without the numerical constraint includes an additional 24 essays filling in many gaps in the original selection greatly improving the gender balance and diversifying coverage to reflect the evolving landscape of development in theory policy and practice It presents a unique guide to the lives ideas and practices of leading contributors to the contested terrain of development studies and development policy and practice Its thoughtful essays reflect the diversity of development in theory policy and practice across time space disciplines and communities of practice Accordingly it challenges Western centrism Orientalism and the like while also demonstrating the enduring appeal of development in different guises David Simon has assembled a highly authoritative team of contributors from different backgrounds regional settings and disciplines to reflect on the lives and contributions of leading authorities on development from around the world These include Modernisers like Kindleberger Perroux and Rostow Dependencistas such as Frank Furtado Cardoso and Amin Progressives and critical modernists like Hirschman Prebisch Helleiner Sen Streeten and Wang Political leaders enunciating radical alternative visions of development such as Mao Nkrumah and Nyerere Progenitors of religiously or spiritually inspired development such as Gandhi Ariyaratne and Vivekananda Development environment thinkers like Agarwal Blaikie Brookfield Ostrom and Sachs International institution builders like Singer Hammarskjöld Kaul and Ul Haq Anti and post development thinkers and activists like Escobar Ghosh Quijano and Roy *Key Thinkers on Development* is therefore the essential handbook on the world's most influential development thinkers and an invaluable guide for students of development and sustainability policy makers and practitioners seeking an accessible overview of this diverse field and its leading voices
