Stanley Kubrick Elisa Pezzotta, 2013-07-25 Although Stanley Kubrick adapted novels and short stories

his films deviate in notable ways from the source material. In particular, since 2001 *A Space Odyssey* (1968), his films seem to definitively exploit all cinematic techniques embodying a compelling visual and aural experience. But as author Elisa Pezzotta contends, it is for these reasons that his cinema becomes the supreme embodiment of the sublime: fruitful encounter between the two arts and simultaneously of their independence. Stanley Kubrick's last six adaptations, 2001 *A Space Odyssey*, *A Clockwork Orange* (1971), *Barry Lyndon* (1975), *The Shining* (1980), *Full Metal Jacket* (1987), and *Eyes Wide Shut* (1999), are characterized by certain structural and stylistic patterns. These features help to draw conclusions about the role of Kubrick in the history of cinema, about his role as an adapter, and more generally about the art of cinematic adaptations. The structural and stylistic patterns that characterize Kubrick adaptations seem to criticize scientific reasoning, causality, and traditional

semantics In the history of cinema Kubrick can be considered a modernist auteur In particular he can be regarded as an heir of the modernist avant garde of the 1920s However author Elisa Pezzotta concludes that unlike his predecessors Kubrick creates a cinema not only centered on the ontology of the medium but on the staging of sublime new experiences **Space**

The Mansion of Happiness Jill Lepore,2013-03-26 Renowned Harvard scholar and New Yorker staff writer Jill Lepore has written a strikingly original ingeniously conceived and beautifully crafted history of American ideas about life and death from before the cradle to beyond the grave How does life begin What does it mean What happens when we die All anyone can do is ask Lepore writes That s why any history of ideas about life and death has to be like this book a history of curiosity Lepore

starts that history with the story of a seventeenth century Englishman who had the idea that all life begins with an egg and ends it with an American who in the 1970s began freezing the dead In between life got longer the stages of life multiplied and matters of life and death moved from the library to the laboratory from the humanities to the sciences Lately debates about life and death have determined the course of American politics Each of these debates has a history Investigating the surprising origins of the stuff of everyday life from board games to breast pumps Lepore argues that the age of discovery Darwin and the Space Age turned ideas about life on earth topsy turvy New worlds were found she writes and old paradises were lost As much a meditation on the present as an excavation of the past The Mansion of Happiness is delightful learned and altogether beguiling

On Kubrick James Naremore, 2019-07-25 On Kubrick provides an illuminating critical account of the films of Stanley Kubrick from his earliest feature Fear and Desire 1953 to the posthumously produced A I Artificial Intelligence Steven Spielberg 2001 The book offers provocative analysis of each of Kubrick s films together with new information about their production histories and cultural contexts Its ultimate aim is to provide a concise yet thorough discussion that will be useful as both an academic text and a trade publication James Naremore argues that in several respects Kubrick was one of the cinema s last modernists his taste and sensibility were shaped by the artistic culture of New York in the 1950s he became a celebrated auteur who forged a distinctive style he used art cinema conventions in commercial productions he challenged censorship regulations and throughout his career he was preoccupied with one of the central themes of modernist art the conflict between rationality and its ever present shadow the unconscious War and science are key concerns in Kubrick s oeuvre and his work has a hyper masculine quality Yet no director has more relentlessly emphasized the absurdity of combat as in Paths of Glory 1957 and Full Metal Jacket 1987 the failure of scientific reasoning as in 2001 1968 and the fascistic impulses in masculine sexuality as in Dr Strangelove 1964 and Eyes Wide Shut 1999 The book also argues that while Kubrick was a voracious intellectual and a

life long autodidact the fascination of his work has less to do with the ideas it espouses than with the emotions it evokes Often described as cool or cold Kubrick is best understood as a skillful practitioner of what might be called the aesthetics of the grotesque he employs extreme forms of caricature and black comedy to create disgusting frightening yet also laughable images of the human body creating a sense of unease that leaves viewers unsure of how to react Stanley Kubrick Produces James Fenwick,2020-12-18 Stanley Kubrick Produces examines Kubrick s role as a producer With the use of neglected archival sources the book makes the case for how Kubrick s centralizing of power in his role as a producer became a self defeating strategy by the 1980s and 1990s one that led him to struggle to move projects out of development and into active production **The Making of Kubrick's 2001** Jerome Agel,1970 A comprehensive study of the genesis and evolution of the film presented in the words of those involved with its production includes a profile of Kubrick numerous interviews reviews and a 96 page photo insert *New Wave, New Hollywood* Gregory Frame,Nathan Abrams,2021-09-23 As a period of film history The American New Wave ordinarily understood as beginning in 1967 and ending in 1980 remains a preoccupation for scholars and audiences alike In traditional accounts it is considered to be bookended by two periods of conservatism and viewed as a brief period of explosive creativity within the Hollywood system From Bonnie and Clyde to Heaven s Gate it produced films that continue to be watched discussed analysed and poured over It has however also become rigidly defined as a cinema of director auteurs who made a number of aesthetically and politically significant films This has led to marginalization and exclusion of many important artists and filmmakers as well as a temporal rigidity about what and who is considered part of the New Wave proper This collection seeks to reinvigorate debate around this area of film history It also looks in part to demonstrate the legacy of aesthetic experimentation and political radicalism after 1980 as part of the legacy of the New Wave Thanks to important new work that questions received scholarly wisdom reveals previously marginalised filmmakers and the films they made considers new genres personnel and films under the banner of New Wave New Hollywood and reevaluates the traditional approaches and perspectives on the films that have enjoyed most critical attention New Wave New Hollywood Reassessment Recovery Legacy looks to begin a new discussion about Hollywood cinema after 1967 **Focus On: 100 Most Popular American Science Fiction Films** Wikipedia contributors, **Cult Film as a Guide to Life** I.Q. bonds of caring are structured over time The book s emergent theme is cult film as lived experience With reference mostly to American cinema Hunter explores how cultists with their powerful emotional investment in films care for them over time and across numerous intertexts in relationships of memory nostalgia and anticipation **Film as an Expression of Spirituality**
