The Making of South African Legal Culture 1902-1936 Martin L. Chanock, 2001 *The Making of South African Legal Culture 1902-1936* Martin Chanock, 2001-03-05 Martin Chanock's illuminating and definitive perspective on that development examines all areas of the law including criminal law and criminology the Roman Dutch law the State's African law and land labour and rule of law questions *Insights into Policies and Practices on the Right to Development* Carol Chi Ngang, Serges Djoyou Kamga, 2020-10-06 As the world continues to grapple with a range of practical development challenges that are directly linked to livelihood concerns about human well being and declining living standards often overlooked is the human right to development which remains largely unfulfilled In the face of successive global initiatives seeking to remedy these challenges it has become urgent to ask what the universal recognition of the right to development implies if it cannot be translated into improved well being for impoverished peoples around the world The contributors in this timely volume argue that setbacks to development are deeply rooted in the failure to implement the right to development which by nature guarantees equality of opportunities and equitable redistribution of the resources that contribute to better living standards Assessing policy and practical measures or the lack thereof they offer practical suggestions for implementation that will make the right to development a reality for everyone

Migration and National Identity in South Africa, 1860-2010 Audie Klotz, 2013-09-16 An extraordinary outbreak of xenophobic violence in May 2008 shocked South Africa but hostility toward newcomers has a long history Democratization has channeled such discontent into a non racial nationalism that specifically targets foreign Africans as a threat to prosperity Finding suitable governmental and societal responses requires a better understanding of the complex legacies of segregation that underpin current immigration policies and practices Unfortunately conventional wisdoms of path dependency promote excessive fatalism and ignore how much South Africa is a typical settler state A century ago its policy makers shared innovative ideas with Australia and Canada and these peers which now openly wrestle with their own racist past merit renewed attention As unpalatable as the comparison might be to contemporary advocates of multiculturalism rethinking restrictions in South Africa can also offer lessons for reconciling competing claims of indigeneity through multiple levels of representation and rights

much as by the police as a whole to recover a position from which to act and to judge these vernaculars reveal the compromised ways in which human rights are and are not implemented Tracing how in South Africa human rights have given rise to new forms of popular justice informal private policing and provisional security arrangements Policing and Human Rights delivers an important analysis of how the dissemination and implementation of human rights intersects with the post colonial and post transformation circumstances that characterise many countries in the South **Survival in the**

Hilary Sapire,2024-10-31 Exploring the entwined histories of British royal visits to Southern Africa in the twentieth century this book analyses the clashing voices of dissent and cheering crowds that accompanied royal tours providing insight into the shifting nature of Black loyalism Originating in the Indigenous empire loyalism of eighteenth century Canada Black loyalism encompassed loyalty to the British crown and a shared ideology of rights and entitlements which positioned the crown as a source of protection against white settler rapacity colonial violence and racial oppression However expressions of monarchical devotion were often double edged and addressed the fundamental contradiction of a crown that was both the source of rights and complicit in colonial conquest appropriation and misrule It was on royal occasions such as jubilees coronation celebrations and especially royal visits when the sovereign was literally amongst their more distant subjects that loyalist sentiment was rekindled reinvented and made directly relevant to the concerns of the day By analysing change and continuity in Black perspectives towards both the British and Indigenous African monarchy during these visits this book

offers a fruitful way into examining an array of Black Southern African discourses on governance political values and cultural identities across the region It argues that the refashioning of British imperial monarchy in the twentieth century was profoundly shaped by African initiatives and re imaginings and provides valuable reading for those researching imperialism popular attitudes to the British monarchy in the twentieth century and the diverse politics and identities of southern Africa

Can We Unlearn Racism? Jacob R. Boersema, 2021-08-17 In contemporary South Africa power no longer maps neatly onto race While white South Africans continue to enjoy considerable power at the top levels of industry they have become a demographic minority politically subordinate to the black South African population To be white today means having to adjust to a new racial paradigm In this book Jacob Boersema argues that this adaptation

requires nothing less than unlearning racism confronting the shame of a racist past acknowledging privilege and to varying degrees rethinking notions of nationalism Drawing on more than 150 interviews with a cross section of white South Africans representationally diverse in age class and gender Boersema details how they understand their whiteness and depicts the limits and possibilities of individual and collective transformation He reveals that the process of unlearning racism entails dismantling psychological and institutional structures alike all of which are inflected by emotion and shaped by ideas of culture and power Can We Unlearn Racism pursues a question that should be at the forefront of every society's collective consciousness Theoretically rich and ethnographically empathetic this book offers valuable insights into the broader sociological process of unlearning relevant today to communities all around the world [Access to Justice and Human Security](#) Sindiso Mnisi Weeks, 2017-11-22 For most people in rural South Africa traditional justice mechanisms provide the only feasible means of accessing any form of justice These mechanisms are popularly associated with restorative justice reconciliation and harmony in rural communities Yet this ethnographic study grounded in the political economy of rural South Africa reveals how historical conditions and contemporary pressures have strained these mechanisms ability to deliver the high normative ideals with which they are notionally linked In places such as Msinga access to justice is made especially precarious by the reality that human insecurity a composite of physical social and material insecurity is high for both ordinary people and the authorities who staff local justice forums cooperation is low between traditional justice mechanisms and the criminal and social justice mechanisms the state is meant to provide and competition from purportedly more effective twilight institutions like vigilante associations is rife Further contradictions are presented by profoundly gendered social relations premised on delicate social trust that is closely monitored by one's community and enforced through self help measures like witchcraft accusations in a context in which violence is culturally and practically a highly plausible strategy for dispute management These contextual considerations compel us to ask what justice we can reasonably speak of access to in such an insecure context and what solutions are viable under such volatile human conditions The book concludes with a vision for access to justice in rural South Africa that takes seriously ordinary people's circumstances and traditional authorities lived experiences as documented in this detailed study The author proposes a cooperative governance model that would maximise the resources and capacity of both traditional and state justice apparatus for delivering the legal and social justice namely peace and protection from violence as well as mitigation of poverty and destitution that rural people genuinely need **Rethinking South Africa's Past** Christopher J. Lee, Andrew Offenburger, 2025-03-18 This book presents key historical scholarship published in *Safundi* from 1999 to 2024 tracing South Africa's past through approaches of comparative history transnational history and visual history in addition to addressing the importance of topics like gender labor and class dynamics as well as regional historiographies The first section of the book focuses on comparative history as a founding method for *Safundi* given the journal's origins in American and South African studies while also recalibrating this approach

through a variety of topics cities biographies and practices of violence rather than nation states writ large Drawing upon innovative sources of evidence the second section moves beyond the comparative method to address transnational histories as a new narrative technique for storytelling and analysis Whether issues of education immigration or visiting musicians to South Africa these chapters demonstrate the importance of a post national approach for understanding the past The sections that follow fan out into other subject areas including the uses of visual history gender roles class cultures and environmental history all of which illuminate connections between South African history and other parts of the world This book will be an indispensable resource for scholars students activists and policymakers as well as those readers who are generally interested in understanding South Africa s complex history over the past several centuries
