## **Making Of Tools:**

*Making Tools in the Wild* Devi Puri, 2015-12-15 Tools are an essential component of wilderness survival While campers and adventurers may bring tools with them as they venture into the wild it s important to know how to make tools from objects found in nature This text prepares readers to do just that Step by step instructions are provided for making a variety of tools from materials such as wood stone and plants Simple diagrams and detailed photographs help guide readers through making tools Safety practices and preparedness are emphasized throughout this age appropriate text which aims to get readers ready to face any wilderness situation that may arise

**Tools to Aid Environmental Decision Making** Virginia H. Dale, Mary R. English, 2012-11-26 Environmental decision making is like politics mostly local In fact making decisions about the environment at the subnational level in state regional and local jurisdictions is a lot like politics For resolving environmental issues demands but often resists a balance between deeply held feelings and stark confrontations among opposing views This volume describes tools that should make the decision maker s lot a bit more tolerable The authors would be the last to suggest that these decision aiding tools will somehow bring a benign order to issues that reach to people s fundamental values What they can help do is to keep the debate focused on the important issues to serve up useful options and to narrow the range of disagreement Even this is a challenging assignment Still why bother The chief reason is that the locus of environmental decision making has in the past decade or so shifted from the national to the subnational level a convenient if colorless term to denote the hurly burly of environmental controversy outside the Washington Beltway For example New England has taken a regional stand on tropospheric ozone control and California requires automotive pollution controls that some other jurisdictions have partially adopted This shift is a profound but not unexpected result of the way environmental policy has evolved since the modern environmental movement began around the late 1960s Back then the pendulum was swinging the other way

**Rethinking Decision-Making Strategies and Tools** Maria Palazzo, Alessandra Micozzi, 2024-02-16 Readers will be enabled to compare contrast and comprehend how the decision making strategies and tools from different lenses are delivered in different parts of the world The text includes an interesting mix of theory primary research findings and practice that will appeal to students academics and practitioners alike
