Making Alternative Histories:

Making Alternative Histories Peter Ridgway Schmidt, Thomas Carl Patterson, 1995 But are there ways that archaeologists and historians from different intellectual traditions can achieve common ground on the meanings and uses of archaeology and history *Alternate History* Kathleen Singles, 2013-10-14 While strictly speaking Alternate Histories are not Future Narratives their analysis can shed a clear light on why Future Narratives are so different from past narratives Trying to have it both ways most Alternate Histories subscribe to a conflicting set of beliefs concerning determinism and freedom of choice contingency and necessity For the very first time Alternate Histories are here discussed against the backdrop of their Other Future Narratives The volume contains in depth analyses of the classics of the genre such as Philip K Dick's *The Man in the High Castle* and Philip Roth's *The Plot against America* as well as less widely discussed manifestations of the genre such as Dieter Kuhn's *N* Christian Kracht's *Ich werde hier sein im Sonnenschein und im Schatten* and Quentin Tarantino's film *Inglourious Basterds* **Making Ecuadorian Histories** O. Hugo Benavides, 2010-01-01 In Ecuador as in all countries archaeology and history play fundamental roles in defining national identity Connecting with the prehistoric and historic pasts gives the modern state legitimacy and power But the state is not the only actor that lays claim to the country's archaeological patrimony nor is its official history the only version of the story Indigenous peoples are increasingly drawing on the past to claim their rights and standing in the modern Ecuadorian state while the press tries to present a neutral version of history that will satisfy its various publics This pathfinding book investigates how archaeological knowledge is used for both maintaining and contesting nation building and state hegemony in Ecuador Specifically Hugo Benavides analyzes how the pre-Hispanic site of Cochasqui has become a source of competing narratives of Native American Spanish and Ecuadorian occupations which serve the differing needs of the nation state and different national populations at large He also analyzes the Indian movement itself and the recent controversy over the final resting place for the traditional monolith of San Biritute Offering a more nuanced view of the production of history than previous studies Benavides demonstrates how both official and resistance narratives are constantly reproduced and embodied within the nation state's dominant discourses

The Fiction Writer's Guide to Alternate History Jack Dann, 2023-07-13 A comprehensive guide to the speculative subgenre of alternate history fiction this book maps the unique terrain of this vibrant mode of storytelling and then explains how to write it First giving a concise conceptual overview and the critical tools to differentiate the different forms of counterfactual fiction Jack Dann lays out the tricks of the trade such as Heinleinizing how to create recognizable divergent points and how to employ paratextual elements and layering to overcome readers' unfamiliarity with invented counterfactual events and cultures Alongside this Dann takes you step by step through a complete short story to demonstrate line by line how alternative history fiction works As well as Dann's exacting methodology for writing professional quality alternate history stories this book also features a live on the page Q&A with some of the most esteemed alternate history writers working today

including Kim Stanley Robinson John Birmingham and Lisa Goldstein among many others who will detail their own particular hacks theories processes methods and strategies Combining extensive and deep knowledge of the field with accessible writing advice this is the ultimate guidebook to the broad and complex sub genre of counterfactual and alterative history fiction

Historical Archaeology in Africa Peter Ridgway Schmidt,2006 Historical Archaeology in Africa is an inquiry into historical questions that count proposing different ways of thinking about historical archaeology Peter Schmidt challenges readers to expand their horizons Confronting topics of oral traditions the role of cultural landscapes in social memory and historical misrepresentations of various cultures Schmidt calls for a new pathway to an enriched more nuanced and more inclusive historical archaeology Allowing Africa to speak for itself without colonial interpreters Historical Archaeology in Africa will be of interest not only to historians and archaeologists but to all concerned with Africa s past and present

The Alternate History Karen Hellekson,2001 What would the world be like is history had taken a different course Science fiction literature has long contemplated this question and this text analyzes alternate history science fiction through a variety of historical models It raises questions of narrative writers temporality and time

Turning Points—Actual and Alternate Histories Rodney P. Carlisle,J. Geoffrey Golson,2007-09-01 Offering a unique approach to studying one of the most eventful eras in American history this volume looks at a dozen key events of the 1960s and 1970s and considers the possible paths history might have taken if the outcomes had been different This volume in the Turning Points Actual and Alternative Histories series looks at a tumultuous recent era in American history a time when pivotal often tragic world changing events seemed to be happening at an alarming rate America in Revolt during the 1960s and 1970s looks at 12 significant events from the assassination of John F Kennedy to the passage of the Civil Rights Act from the student killings at Kent State to Richard Nixon s resignation Drawing on the concepts of alternative history the book portrays each event as it happened then considers some plausible alternative scenarios of how history would have been different if these events had not occurred It is a uniquely thought provoking way of exploring an explosive era whose aftershocks continue to shape the American experience today

Controlling the Past, Owning the Future Ran Boytner,Lynn Swartz Dodd,Bradley J. Parker,2010-12-15 What are the political uses and misuses of archaeology in the Middle East In answering this question the contributors to this volume lend their regional expertise to a variety of case studies including the Taliban s destruction of Buddhas in Afghanistan the commercialization of archaeology in Israel the training of Egyptian archaeology inspectors and the debate over Turkish identity sparked by the film Troy among other provocative subjects Other chapters question the ethical justifications of archaeology in places that have alternative engagements with the material past In the process they form various views of the role of the archaeologist from steward of the historical record to agent of social change The diverse contributions to this volume share a common framework in which the political use of the past is viewed as a process of social discourse According to this model political appropriations are seen as acts of social communication designed to accrue

benefits to particular groups Thus the contributors pay special attention to competing social visions and the filters these impose on archaeological data But they are also attentive to the potential consequences of their own work Indeed as the editors remind us people s lives may be affected sometimes dramatically because of the material remains that surround them Rounding out this important volume are critiques by two top scholars who summarize and synthesize the preceding chapters

Relativism, Alternate History, and the Forgetful Reader Derek Thiess,2014-11-25 The writer of alternate history asks what if What if one historical event were different what would the world look like today In a similar way the postmodern philosopher of history suggests that history is literature or that if we read certain historical details differently we would get a distinctly different interpretation of past events While the science fiction alternate history means to illuminate the past to increase our understanding of past events however the postmodern approach to history typically suggests that such understanding is impossible To the postmodern philosopher history is like literature in that it does not offer the reader access to the past but only an interesting story Building on criticism that suggests personal psychological reasons for this obscuring the past and using a literary theory of readership this book challenges the postmodern approach to history It channels the speculative power of science fiction to read the works of postmodern philosophy of history as alternate histories themselves and to map the limits and pathology of their forgetful reading of the past

Envisioning Landscape Dan Hicks,Laura McAtackney,Graham Fairclough,2016-06-03 The contributors to this volume take advantage of the diversity of landscape archaeology to examine the link to heritage the impact on our understanding of temporality and the situated theory that arises out of landscape studies using examples from New York to Northern Ireland Africa to the Argolid

From Distant Tales Dominik Bonatz,John Miksic,J. David Neidel,2009-03-26 This is the most comprehensive book devoted to Sumatra in more than half a century It summarizes earlier studies and provides a huge amount of new knowledge for the first time in readily accessible form Sumatra is one of the world s largest islands rich in flora and fauna minerals and timber and located at the midpoint of the maritime route between China and India These are ideal conditions for the creation of a fascinating history Sumatra has played a major role in world trade for 2 000 years but its culture and archaeology have been surprisingly neglected This volume sets out to remedy this defect With chapters on history archaeology anthropology folklore and religion the authors focus particular attention on the relations between the coastal peoples who are best known to outsiders and the hinterlands where most of the important resources lie The list of authors includes most of the principal living authorities on Sumatra Their cumulative experience consists of many years on all parts of the island The book is copiously illustrated and includes a comprehensive bibliography for those who wish to pursue further study of the wide range of topics covered

Inventing Indigenous Knowledge Lynn Swartley,2018-10-24 This volume provides a multi sited and multivocalic investigation of the dynamic social political and economic processes in the creation and implementation of an agricultural development project The raised field rehabilitation project attempted to introduce a pre Columbian agricultural method into

the contemporary Lake Titicaca Basin **History Is in the Land** T. J. Ferguson, Chip Colwell, 2015-09-01 Arizona s San Pedro Valley is a natural corridor through which generations of native peoples have traveled for more than 12 000 years and today many tribes consider it to be part of their ancestral homeland This book explores the multiple cultural meanings historical interpretations and cosmological values of this extraordinary region by combining archaeological and historical sources with the ethnographic perspectives of four contemporary tribes Tohono O odham Hopi Zuni and San Carlos Apache Previous research in the San Pedro Valley has focused on scientific archaeology and documentary history with a conspicuous absence of indigenous voices yet Native Americans maintain oral traditions that provide an anthropological context for interpreting the history and archaeology of the valley The San Pedro Ethnohistory Project was designed to redress this situation by visiting archaeological sites studying museum collections and interviewing tribal members to collect traditional histories The information it gathered is arrayed in this book along with archaeological and documentary data to interpret the histories of Native American occupation of the San Pedro Valley This work provides an example of the kind of interdisciplinary and politically conscious work made possible when Native Americans and archaeologists collaborate to study the past As a methodological case study it clearly articulates how scholars can work with Native American stakeholders to move beyond confrontations over who owns the past yielding a more nuanced multilayered and relevant archaeology **A Social History of Anthropology in the United States** Thomas C. Patterson, 2020-05-12 In part due to the recent Yanomami controversy which has rocked anthropology to its very core there is renewed interest in the discipline s history and intellectual roots especially amongst anthropologists themselves The cutting edge of anthropological research today is a product of earlier questions and answers previous ambitions preoccupations and adventures stretching back one hundred years or more This book is the first comprehensive history of American anthropology Crucially Patterson relates the development of anthropology in the United States to wider historical currents in society American anthropologists over the years have worked through shifting social and economic conditions changes in institutional organization developing class structures world politics and conflicts both at home and abroad How has anthropology been linked to colonial commercial and territorial expansion in the States How have the changing forms of race power ethnic identity and politics shaped the questions anthropologists ask both past and present Anthropology as a discipline has always developed in a close relationship with other social sciences but this relationship has rarely been scrutinized This book details and explains the complex interplay of forces and conditions that have made anthropology in America what it is today Furthermore it explores how anthropologists themselves have contributed and propagated powerful images and ideas about the different cultures and societies that make up our world This book will be essential reading for anyone interested in understanding the roots and reasons behind American anthropology at the turn of the twenty first century Intellectual historians social scientists and anyone intrigued by the growth and development of institutional politics and practices should read this book **The Novel:**

An Alternative History, 1600-1800 Steven Moore, 2013-08-29 Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world's earliest novels in his previous book literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800 from Don Quixote to America's first big novel an homage to Cervantes entitled *Modern Chivalry* This is the period of such classic novels as *Tom Jones* *Candide* and *Dangerous Liaisons* but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then known only to specialists Spanish picaresques French heroic romances massive Chinese novels Japanese graphic novels eccentric English novels and the earliest American novels These minor novels are not only interesting in their own right but also provide the context needed to appreciate why the major novels were major breakthroughs The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres epistolary novels romances Gothic thrillers novels in verse parodies science fiction episodic road trips and family sagas along with quirky unclassifiable experiments in fiction that resemble contemporary avant garde works As in his previous volume Moore privileges the innovators and outriders those who kept the novel novel In the most comprehensive history of this period ever written Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative Though written for a general audience *The Novel An Alternative History* also provides the scholarly apparatus required by the serious student of the period This sequel like its predecessor is a zestfully encyclopedic avidly opinionated and dazzlingly fresh history of the most elastic of literary forms

Booklist *The Ancient World in Alternative History and Counterfactual Fictions* Alberto J. Quiroga Puertas, Leire Olabarria, 2024-08-22 Focusing in turn on history powerful individuals underrepresented voices and the arts the essays in this collection cover a wide variety of modern and contemporary narrative fiction from Jo Walton and L Sprague De Camp to T S Chaudhry and Catherynne M Valente Chapters look into the question of chance versus determinism in the unfolding of historical events the role individuals play in shaping a society or occasion and the way art and literature symbolise important messages in counterfactual histories They also show how uchronic narratives can take advantage of modern literary techniques to reveal new and relevant aspects of the past giving voices to marginalised minorities and suppressed individuals of the ancient world Counterfactual fiction and uchronic narratives have been largely up until now the domain of literary critics However these modes of literature are here analysed by scholars of Ancient History Egyptology and Classics shedding important new light on how cultures of the ancient world have been and still are perceived and to what extent our conceptions of the past are used to explore alternate presents and futures Alternate history entices the imagination of the public by suggesting hypothetical scenarios that never occurred underlining a latent tension between reality and imagination and between determinism and contingency This interest has resulted in a growing number of publications that gauge the impact of what if narratives and this one is the first to give scholars of the ancient world centre stage *Maya Cultural*

Heritage Patricia A. McAnany, 2016-09-15 Situated at the intersection of cultural heritage and local community this book enlarges our understanding of the Indigenous peoples of southern Mexico and northern Central America who became detached from the ancient Maya through colonialism government actions and early twentieth century anthropological and archaeological research Through grass roots heritage programs local communities are reconnecting with a much valorized but distant past Maya Cultural Heritage explores how community programs conceived and implemented in a collaborative style are changing the relationship among archaeological practice the objects of archaeological study and contemporary ethnolinguistic Mayan communities Rather than simply describing Maya sites McAnany concentrates on the dialogue nurtured by these participatory heritage programs the new heritage landscapes they foster and how the diverse Maya communities of today relate to those of the past

African Historical Archaeologies Andrew M. Reid, Paul J. Lane, 2014-10-28 This volume explores the range of interactions between the historical sources and archaeology that are available on the African continent The contributions written by a range of experts on different aspects of African archaeology present the underlying issues such as The conflict and collaboration in the foundation of modern Africa African trading communities maintaining their independence from Europe The impacts of the Atlantic slave trade This represents the first consideration of historical archaeology over the African continent as a whole and therefore provides an important review for African archaeologists and historians This seminal volume also explores Africa's place in global systems of thought and economic development for historical archaeologists and historians alike

Early Medieval Munster Michael A. Monk, John Sheehan, 1998 A major contribution to the study and understanding of Early Medieval Ireland which offers radical interpretations of new evidence

Community Archaeology and Heritage in Africa Peter R. Schmidt, Innocent Pikirayi, 2016-06-17 This volume provides new insights into the distinctive contributions that community archaeology and heritage make to the decolonization of archaeological practice Using innovative approaches the contributors explore important initiatives which have protected and revitalized local heritage initiatives that involved archaeologists as co producers rather than leaders These case studies underline the need completely reshape archaeological practice engaging local and indigenous communities in regular dialogue and recognizing their distinctive needs in order to break away from the top down power relationships that have previously characterized archaeology in Africa Community Archaeology and Heritage in Africa reflects a determined effort to change how archaeology is taught to future generations Through community based participatory approaches archaeologists and heritage professionals can benefit from shared resources and local knowledge and by sharing decision making with members of local communities archaeological inquiry can enhance their way of life ameliorate their human rights concerns and meet their daily needs to build better futures Exchanging traditional power structures for research design and implementation the examples outlined in this volume demonstrate the discipline's exciting capacity to move forward to achieve its potential as a broader more accessible and more inclusive field
