The book examines the globalization of local policing through an ethnographic study of the Danish Police Where many studies are looking into how larger inter or transnational policing bodies and policies are changing the world of policing few have gauged how local public police forces are also globalizing This book provides some unique insights into this under researched process Specifically it describes the daily practices and perceptions of two Danish detective task forces tasked with the investigation of organized property crimes committed by foreign nationals In the book readers get to see how the detectives think and work including the many efforts they make in attuning their daily work to a more global reality More so readers get to see how the detectives fail and the many frustrations and concerns that such changes include One the one hand Danish detectives very much understand the need to de localize and develop their work On the other hand they feel that many of these changes are in conflict with what they find to be real and rewarding police work For people interested in contemporary issues of policing the book thus points to a puzzling paradox Globalization might be making for more mobile and even mobilised local forces more technologically driven and collaborating with international partners However these very processes are also making local officers feel more disarmed than ever Ultimately the book describes why that is its consequences as well as how to imagine a form of global policing more in tune with its local actors *Forever Loved: Exposing the hidden Crisis of Missing and Murdered Indigenous Women and Girls in Canada* Lavell Memee.D Harvard, 2016-05-01 The hidden crisis of missing and murdered Indigenous women and girls in Canada is both a national

*International Prosecutors* Luc Reydam, Jan Wouters, Cedric Ryngaert, 2012-05-31 This volume examines the prosecution as an institution and a function in a dozen international and hybrid criminal tribunals from Nuremberg to the International Criminal Court It is the result of a sustained collaborative effort among some twenty scholars and former tribunal staffers The starting point is that the prosecution shapes a tribunal s practice and legacy more than any other organ and that a systematic examination of international prosecutors is therefore warranted The chapters are organized chronologically according to the successive phases of the life of the institution and the various stages of the trials The analysis includes each institution s establishment mandate and jurisdiction as well as the prosecutorial framework and strategy the prosecutor s external relations and the completion of the institution s work The book also considers the prosecutors independence and impartiality and their accountability for their decisions The volume thus provides a comprehensive picture of the mandate organization and operation of the prosecution in international criminal trials As the first comprehensive study of an international legal actor whose decisions have widespread political repercussions this book will be essential reading for all with an interest in international criminal justice
