## **Making Of A Slum:**

**The Making of a Slum** Michael Dorman, 1972 This book presents a smoothly written journalistic account of the decline of an urban neighborhood Hunt s Point in the Bronx New York City The author contrasts the stability and sense of community in Hunt s Point before World War II with the decayed heroin scarred slum of the late 1960s and early 1970s Includes worthwhile interviews and has a good reporter s feel for letting people express themselves but the standard prescriptions for change which have been repeated for two decades offer nothing new *Making the Modern Slum* Sheetal

Chhabria, 2019-12-06 In the late nineteenth and early twentieth centuries Bombay was beset by crises such as famine and plague Yet rather than halting the flow of capital these crises served to secure it In colonial Bombay capitalists and governors Indian and British alike used moments of crisis to justify interventions that delimited the city as a distinct object and progressively excluded laborers and migrants from it Town planners financiers and property developers joined forces to secure the city as a space for commerce and encoded shelter types as legitimate or illegitimate By the early twentieth century the slum emerged as a particularly useful category of stigmatization that would animate city making projects in subsequent decades Sheetal Chhabria locates the origins of Bombay s now infamous slum problem in the broader histories of colonialism and capitalism She not only challenges assumptions about colonial urbanization and cities in the global south but also provides a new analytical approach to urban history Making the Modern Slum shows how the wellbeing of the city rather than of its people became an increasingly urgent goal of government positioning agrarian distress famished migrants and the laboring poor as threats to be contained or excluded **Making Cities Resilient** Vishwa Raj

Sharma, Chandrakanta, 2019-02-08 As the world has transformed so have cities Today cities are home to 54 percent of the world s population and by the middle of this century that figure will likely rise to 66 percent According to the United Nations UN Habitat I 1972 Habitat II 1996 and Habitat III 2016 summits cities are facing many serious challenges including growing inequality security concerns and the worsening impacts of climate change Uncontrolled urbanization has led to many problems haphazard growth of areas emergence of slums inadequate water and power supply poor sanitation shortage of transport and other civic amenities shrinking green spaces pollution crime and urban disaster risks such as fire flood road and industrial accidents etc Worldwide communities at the international national and local level are continuously working to improve human habitats In order to make our planet more sustainable the UN has moved from the Millennium Development Goals MDG to the Sustainable Development Goals SDG Among the latter the aim of SDG 11 is to make cities and human settlements inclusive safe resilient and sustainable In light of these challenges various terms have emerged to help understand urban issues Visualizing the problem the United Nations program Making Cities Resilient is focused on mitigating the disaster risk in urban areas This book analyzes terms such as sustainable resilient livable inclusive smart and world class city which have emerged in the process of combating urban challenges in today s world The book addresses

emerging concepts for cities challenges and potentials urban environments health and planning policies Covering 14 large cities in India as well as case studies from Japan Singapore Thailand Malaysia Poland and Sweden it provides a regional dimension to and micro level perspective on urban issues *Slum Development in India* Sulochana Shekhar,2021-04-01 This book is an earnest effort in understanding the slums and their needs by taking a case study of Kalaburagi India This study aims to contribute sustainable methodologies to advance the living conditions of slum dwellers and for better execution of slum policies The core objectives are 1 mapping the existing slums of Kalaburagi formerly Gulbarga city using slum ontology from very high resolution data and validating the slum map through ground survey and using reliable data 2 developing a model to understand the factors which are responsible for the present growth as well as to predict the future growth of slums 3 estimating the housing demand of urban poor and suggesting a suitable site for the rehabilitation program and 4 suggestions for the better intervention of government policies with special reference to in situ program Urban is the future and slums are its reality Sustainable development goals are directly and indirectly concerned about the increasing urbanization and the slums Housing the urban poor and affordable housing to all are the national missions Practically making these plans successful depends on a deep understanding of urban issues and proper methodology and technology to handle it The participatory slum mapping cellular automata slum model housing demand analysis and the spatial decision support system demonstrated in the book help in monitoring and managing the slums and thus lead towards a slum free India

**The Making of an American** Jacob August Riis,1901 *Urban and Regional Planning and Development* Rajiv R. Thakur,Ashok K. Dutt,Sudhir K. Thakur,George M. Pomeroy,2020-02-10 This book discusses urban planning and regional development practices in the twentieth century and ways in which they are currently being transformed It addresses questions such as What are the factors affecting planning dynamics at local regional national and global scales With the push to adopt a market paradigm in land development and infrastructure the relationship between resource management sustainable development and the role of governance has been transformed Centralized planning is giving way to privatization not only in the traditional regions but also in newly emerging regions of Asia Africa and Latin America Further attempts are being made to bring planning related decision making closer to the people who are most affected by it Presenting a collection of studies from scholars around the world and highlighting recent advances in the field the book is a valuable reference guide for those engaged in urban transformations whether as graduate students researchers practitioners or policymakers
