Making Of A Teacher Teacher Knowledge And Teacher Education:

The Making of a Teacher Pamela Lynn Grossman,1990 The Making of a Teacher Pamela Lynn Grossman,1990 The training of teachers has increasingly been the focus of critical inquiry in the field of education What qualifications should be demanded of those entering the teaching profession This book examines this crucial issue with an in depth comparison of the classroom approaches and effectiveness of two groups of secondary school English teachers *Providing a Foundation for Teaching Mathematics in the Middle Grades* Judith T. Sowder,Bonnie P. Schappelle,1995-01-01 This book provides middle school teachers with a firm pedagogical foundation based on the manner in which students learn the mathematics being taught Examining Pedagogical Content Knowledge Julie Gess-Newsome,Norman G. Lederman,2006-04-11 Since its emergence over two decades ago the construct of pedagogical content knowledge PCK has significantly impacted preservice and inservice teacher education educational policy and educational research PCK has served to re focus educators attention on the important role of subject matter in educational practice and away from the more generic approach to teacher education that dominated the field prior to 1975 This ambitious text is the first of its kind to summarize the theory research and practice related to pedagogical content knowledge The audience is provided with a functional understanding of the basic tenets of the construct as well as its applications to research on science teacher education and the development of science teacher education programs The authors are prominent educators representing a variety of subject matter areas and K 12 grade levels Although the focus of the text is science education it should provide valuable reading for any individuals with interests in professional teacher education *The Handbook of Mathematics Teacher Education: Volume 1* ,2008-01-01 The Handbook of Mathematics Teacher Education the first of its kind addresses the learning of mathematics teachers at all levels of schooling to teach mathematics and the provision of activity and programmes in which this learning can take place It consists of four volumes VOLUME 1 Knowledge and Beliefs in Mathematics Teaching and Teaching Development addresses the what of mathematics teacher education meaning knowledge for mathematics teaching and teaching development and consideration of associated beliefs As well as synthesizing research and practice over various dimensions of these issues it offers advice on best practice for teacher educators university decision makers and those involved in systemic policy development on teacher education *Handbook of Research on Teacher Education* Marilyn Cochran-Smith,Sharon Feiman-Nemser,John McIntyre,Kelly E. Demers,2008-02-19 Co Published by Routledge Taylor Francis Group and the Association of Teacher Educators The Handbook of Research on Teacher Education was initiated to ferment change in education based on solid evidence The publication of the First Edition was a signal event in 1990 While the preparation of educators was then and continues to be the topic of substantial discussion there did not exist a codification of the best that was known at the time about teacher education Reflecting the needs of educators today the Third Edition takes a new approach to achieving the same purpose Beyond simply conceptualizing the broad landscape of teacher education and

providing comprehensive reviews of the latest research for major domains of practice this edition stimulates a broad conversation about foundational issues brings multiple perspectives to bear provides new specificity to topics that have been undifferentiated in the past includes diverse voices in the conversation The Editors with an Advisory Board identified nine foundational issues and translated them into a set of focal questions What's the Point The Purposes of Teacher Education What Should Teachers Know Teacher Capacities Knowledge Beliefs Skills and Commitments Where Should Teachers Be Taught Settings and Roles in Teacher Education Who Teaches Who Should Teach Teacher Recruitment Selection and Retention Does Difference Make a Difference Diversity and Teacher Education How Do People Learn to Teach Who's in Charge Authority in Teacher Education How Do We Know What We Know Research and Teacher Education What Good is Teacher Education The Place of Teacher Education in Teachers Education The Association of Teacher Educators ATE is an individual membership organization devoted solely to the improvement of teacher education both for school based and post secondary teacher educators For more information on our organization and publications please visit www.ate1.org

Subject Knowledge and Teacher Education Viv Ellis, 2007-04-05 Teachers knowledge of the subjects they teach has been of enduring interest to governments the profession and the wider society In this book Viv Ellis traces the development of three beginning teachers thinking about their subject knowledge in the context of Standards based teacher education and the practice of auditing student teachers subject knowledge Ellis puts forward a theory of subject knowledge development that moves on from the objectivist and individualistic epistemologies associated with Standards and the practices of auditing to more a contextualist and sociocultural understanding of teachers cognition and learning An important implication of this study is that if teacher education wishes to have greater impact on the development of beginning teachers teacher educators need to pay greater attention to the schools and subject department settings in which these beginning teachers learn
