The Making of an Atlantic ruling class [Kees van der Pijl, 2004] **The Making of an Atlantic Ruling Class** Kees van der Pijl, 1984 **Historical Materialism and Globalisation** Mark Rupert, Hazel Smith, 2016-04-29 Now that Soviet style socialism has collapsed upon itself and liberal capitalism offers itself as the natural necessary and absolute condition of human social life on a worldwide scale this book insists that the potentially emancipatory resources of a renewed and perhaps reconstructed historical materialism are more relevant in today's world than ever before Rather than viewing global capitalism as an eluctable natural force these essays seek to show how a dialectic of power and resistance is at work in the contemporary global political economy producing and contesting new realities and creating conditions in which new forms of collective self determination become thinkable and materially possible It will be vital topical reading for anyone interested in international relations international political economy sociology and political theory *Historical Materialism and Globalization* Mark Rupert, Hazel Smith, 2002 13 The politics of regulated liberalism a historical materialist approach to European integration 14 Historical materialism ideology and the politics of globalizing capitalism Index *Rooted Globalism* Kevin Funk, 2022-10-18 Does the concept of nationality apply to the economic elite or have they shed national identities to form a global capitalist class In *Rooted Globalism* Kevin Funk unpacks dozens of ethnographic interviews he conducted with Latin America's urban based Arab descendant elite class some of whom also occupy positions of political power in countries such as Argentina Brazil and Chile Based on extensive fieldwork Funk illuminates how these elites navigate their Arab ancestry Latin American host cultures and roles as protagonists of globalization With the term rooted globalism Funk captures the emergence of classed intersectional identities that are simultaneously local national transnational and global Focusing on an oft ignored axis of South South relations between Latin America and the Arab world *Rooted Globalism* provides detailed analysis of the identities worldviews and motivations of this group and ultimately reveals that rather than obliterating national identities global capitalism relies on them **Innovation and Transformation in International Studies** Stephen Gill, James H. Mittelman, 1997-05-15 This book explores the nature of and conditions for theoretical innovation in international studies Transnational European Union Wolfram Kaiser, Peter Starke, 2005-11-16 At the beginning of the twenty first century the European Union is an increasingly dense transnational social and political space More and more non governmental organisations develop transnational links which are usually more intensive within the EU even if they often extend beyond its borders to the wider world This multi disciplinary volume explores the importance of these structures actors and relations for EU and European governance in the context of the theoretical debate about European integration in the social sciences This book delivers theoretical chapters examining and discussing the main conceptual perspectives to studying the transnational EU to provide a current overview empirical case studies of transnationalism in practice on transnational party trade union and police cooperation to transnational education policy

Nebula Walter Baeyens, Wayne Madsen, 2017-06-21 Providing deep insights into the unseen but real forces that shape the course of history this investigation exposes a cabal which controls most of the money transfers worldwide as well as the highest political authorities The spider in the web according to the investigators was Felix Przedborski a selfmade millionaire of Polish Jewish descent who held both Belgian and Costa Rican nationalities By 1990 Don Felix was Grand Master of the Lodge B Nai B Rith called US presidents by their first names and had excellent contacts with the Holy See Mossad CIA and various heads of state In order to understand this cabal one must to abandon the conventional logic of economics and politics **Restructuring Hegemony in the Global Political Economy** Henk W Overbeek, 1993-05-06

Since the late 1970s the spread of Neo liberalism and the failure of socialist economies and systems in Eastern Europe have resulted in a practically unchallenged hegemony of international capital across the globe Neo liberalism is now the dominant ideology legitimizing the privatisation of state controlled economies and the substitution of the **Sweden and the 'Third Way'** Philip Whyman, 2018-02-06 This title was first published in 2003 The creation of a Third Way between unfettered capitalism and old style Keynesian corporatist forms of social democracy has become the driving force behind the policy programmes of many left of centre political parties in the industrialised nations of the world today Sweden and the Third Way critically evaluates this new social democracy by examining the profound shift in Swedish political economy from being the prototype old style social democracy towards the Third Way synthesis of neo liberalism and elements of traditional social democracy Philip Whyman evaluates internal and external challenges to Swedish macroeconomic policy including

globalisation European integration post Fordist technological change and the relative empowerment of capital to discover the extent to which national economic autonomy is constrained Furthermore he considers the plausibility of revising the core elements of the traditional Swedish Model as an alternative to the prevailing macroeconomic platform American Hegemony and World Oil Simon Bromley,1991 This volume provides a new theoretical framework for understanding both the development of the international oil industry and the role played by oil in the emergence of US postwar hegemony As such it directly addresses contemporary developments in international relations theory and the recent debates over the character and longevity of United States hegemony While providing a narrative account of the oil industry from its origins in the nineteenth century through to the present the main focus of American Hegemony and World Oil is an analytic treatment of the postwar period Drawing widely on political economy international relations and the recent literature on the state the book offers a comprehensive study of the connections between United States hegemony and the international oil industry The book begins with a critical discussion of theoretical approaches in political economy international relations and state theory which have informed discussions of the oil industry Bromley goes on to survey the early emergence of the industry and its interwar consolidation the ordering of the postwar industry under United States leadership and the crisis of the 1970s The book ends with an examination of the post OPEC restructuring and the current strategies of the US Japan Europe OPEC and the USSR This book will be of interest to students of political economy international relations and political sociology

Ukraine and the Empire of Capital Yuliya Yurchenko,2017-12-20 Since 1991 nominally independent Ukraine has been in turmoil with the Orange Revolution and the Maidan protests marking its most critical moments Now its borders are threatened and the civil unrest and armed conflict continue to destabilise the country In order to understand these dramatic events Yuliya Yurchenko looks to the country s post Soviet past in this ambitious analysis of contemporary Ukrainian political economy Providing distinctive and unexplored reflections on the origins of the conflict Yurchenko unpacks the four central myths that underlie Ukraine s post Soviet reality the myth of transition the myth of democracy the myth of two Ukraines and the myth of the other In doing so she sheds light on the current intensification of class rivalries in Ukraine the kleptocracy resource wars and analyses existing and potential dangers of the rightwing shift in Ukraine s polity stressing a historic opportunity for change Critiquing the concept of Ukraine as transition space she provides a sweeping analysis which includes the wider neoliberal restructuring of global political economy since the 1970s with particular focus on Ukraine s relations with the US the EU and Russia This is a book for those wanting to understand the current conflict as a dangerous product of neoliberalism of the empire of capital **The Political Economy of European Employment** Henk Overbeek,2004-11-23 This edited collection examines unemployment in Europe in the context of globalisation the implementation of European Monetary Union and the Eastern enlargement of the EU It combines theoretical chapters with detailed case studies of Britain The Netherlands Italy Spain and Central Europe **Imaginary Futures** Richard Barbrook,2007-04-20 This book is a history

of the future It shows how our contemporary understanding of the Internet is shaped by visions of the future that were put together in the 1950s and 1960s At the height of the Cold War the Americans invented the only working model of communism in human history the Internet Yet for all of its libertarian potential the goal of this hi tech project was geopolitical dominance the ownership of time was control over the destiny of humanity The potentially subversive theory of cybernetics was transformed into the military friendly project of artificial intelligence Capitalist growth became the fastest route to the information society The rest of the world was expected to follow America s path into the networked future Today we re still being told that the Internet is creating the information society and that America today is everywhere else tomorrow Thankfully at the beginning of the twenty first century the DIY ethic of the Internet shows that people can resist these authoritarian prophecies by shaping information technologies in their own interest Ultimately if we don t want the future to be what it used to be we must invent our own improved and truly revolutionary future

The Nation in the Global Era Jerry Harris, 2009-05-15 The Nation in the Global Era Conflict and Transformation offers unique perspectives into a range of important current topics for both activists and scholars concerned with globalization The articles combine the study of globalization as an integrated world system with the specifics of how individual nations and groups are inserted into the larger economic social cultural and political patterns This essential approach seeks out those forces that create a shared world system yet understands the multiple levels and variances under which that system develops Chapters explore the relationship between class and state under the impact of globalization how nations particularly in the South are affected by globalization and the development of national identity and consciousness within the context of global relationships Contributors include JoAnn Chirico Ryan D Griffiths Magda von der Heydt Coca Ismael Hossein zadeh Kwangkun Lee Patrick Loy Cori Madrid Georgina Murray Greg Nowell Rubin Patterson Isa as R Rivera Lorena Garcia Ruiz Ivan Savi David Schweickart Sandeep Sen Jason Struna John W Sutherlin Kumru Toktamis Joshua W Walker Veda Ward William Tabb Originally published as Volume 8 2 3 2009 of Brill s journal Perspectives on Global Development and Technology *Global Restructuring, State, Capital and Labour* A. Bieler, W. Bonefeld, P. Burnham, A. Morton, 2006-04-26 This book provides a critical engagement between contending historical materialist approaches that have played a crucial role in shaping post positivist International Relations theory It analyzes globalization as a process of state formation and argues that its fate depends on the neo liberal recomposition of labour relations *A Ruined Fortress?* Alan W. Cafruny, Magnus Ryner, 2003-06-28 This challenging book argues convincingly that research on European integration has lagged behind important theoretical developments in the fields of international relations international political economy and international organization The contributors contend that prevailing theories of integration despite their considerable differences all suffer from an excessive focus on institutions and ideas while overlooking the ways in which these institutions and ideas have promoted a neoliberal agenda during the last decade To overcome these weaknesses this volume draws on one of the key

strands of theoretical innovation critical political economy or transnational historical materialism to develop a more comprehensive and consistent analysis of processes of European integration Although not claiming that states have ceded their role as masters of the treaties the contributors develop innovative case studies of national and transnational processes to illustrate the salience of trans European business networks and the primacy of neoliberalism as central organizing concepts of the post Maastricht European project Contributions by Baastian van Apeldoorn Hans J rgen Bieling Alan W Cafruny Ben Clift Stephen Gill Colin Hay Otto Holman Henk Overbeek Kees van der Pijl Magnus Ryner Thorsten Schulten Giles Scott Smith Leila Simona Talani and Matthew Watson Images of Gramsci Andreas Bieler,Adam Morton,2014-06-03 A comprehensive reassessment of the relevance of Gramsci s theory and practice at the beginning of the twenty first century Whilst commentaries on Antonio Gramsci and arguments surrounding his political and intellectual legacy have proliferated little attention has been hitherto directed to linking the connections and contentions between Political Theory and International Political Economy This volume brings together leading authorities engaged in common debates to produce for the first time a major collection that clarifies addresses and lays bare the manifest connections and contentions within political and international theory surrounding the legacy of Antonio Gramsci In Part I scholars examine various approaches to Gramsci s thought including his methodological principles the specific conception of civil society he offers his writings on war and cultural struggle the spatial dimension of his thinking and his philosophy of history Part II focuses on very new developments in Gramsci scholarship concerning the questioning of contemporary world order This includes reflections on his relevancy to issues of globalising capitalism transformations in the state revolutionary praxis orientalism and empire as well as European regionalism This book was previously published as a special issue of the leading Critical Review of International Social and Political Philosophy CRISPP **The Oxford Handbook of Global Studies** Mark Juergensmeyer,Saskia Sassen,Manfred B.
