**The Linguistic Past in Twelfth-Century Britain** Sara Harris, 2017-10-12 How was the complex history of Britain's languages understood by twelfth century authors This book argues that the social political and linguistic upheavals that occurred in the wake of the Norman Conquest intensified later interest in the historicity of languages An atmosphere of enquiry fostered vernacular literature's prestige and led to a newfound sense of how ancient languages could be used to convey historical claims The vernacular hence became an important site for the construction and memorialisation of dynastic institutional and ethnic identities This study demonstrates the breadth of interest in the linguistic past across different social groups and the striking variety of genre used to depict it including romance legal translation history poetry and hagiography Through a series of detailed case studies Sara Harris shows how specific works represent key aspects of the period's imaginative engagement with English Brittonic Latin and French language development

*Illuminated History Books in the Anglo-Norman World, 1066-1272* Laura Cleaver, 2018-06-06 During the twelfth and thirteenth centuries texts about the recent and more distant past were produced in remarkable numbers in the lands controlled by the kings of England This may be seen in part as a response to changing social and political circumstances in the wake of the Norman conquest of England in 1066 The names of many of the twelfth and thirteenth century historians are well known and they include Orderic Vitalis William of Malmesbury John of Worcester Henry of Huntingdon Gerald of Wales and Matthew Paris Yet the manuscripts in which these works survive are also evidence for the involvement of many other people in the production of history as patrons scribes and artists *Illuminated History Books in the Anglo Norman World* focuses on history books of the twelfth and thirteenth centuries to examine what they reveal about the creation circulation and reception of history in this period In particular this research concentrates on illuminated manuscripts These volumes represent an additional investment of time labour and resources and combinations of text and

imagery shed light on engagements with the past as manuscripts were copied at specific times and places Imagery could be used to reproduce the features of older sources but it was also used to call attention to particular elements of a text and to impose frameworks onto the past As a result Illuminated History Books in the Anglo Norman World has the potential to change the way in which we see the medieval past and its historians *The Sea and Englishness in the Middle Ages*

Higgs,2011-10-06 Personal identification is very much a live political issue in Britain and this book looks at why this is the case and why paradoxically the theft of identity has become ever more common as the means of identification have multiplied Identifying the English looks not only at how criminals have been identified branding fingerprinting DNA but also at the identification of the individual with seals and signatures of the citizen by means of passports and ID cards and of the corpse Beginning his history in the medieval period Edward Higgs reveals how it was not the Industrial Revolution that brought the most radical changes in identification techniques as many have assumed but rather the changing nature of the State and commerce and their relationship with citizens and customers In the twentieth century the very different historical techniques have converged on the holding of information on databases and increasingly on biometrics and the multiplication of these external databases outside the control of individuals has continued to undermine personal identity security **The**

**Renaissance Reform of the Book and Britain** David Rundle,2019-05-02 Reform of the script was central to the humanist agenda this book suggests a new explanation of its international success **Reimagining Christendom** Joel D.

Anderson,2023-01-03 With its expanding legal system and its burgeoning throngs of lawyers legates and documents the papacy of the thirteenth and fourteenth centuries has often been credited with spearheading a governmental revolution that molded the high medieval church into an increasingly disciplined uniform and machine like institution Reimagining Christendom offers a fresh appraisal of these developments from a surprising and distinctive vantage point Tracing the web of textual ties that connected the northern fringes of Europe to the Roman see Joel D Anderson explores the ways in which Norse writers recruited refashioned and repurposed the legal principles and official documents of the Roman church for their own ends Drawing on little known vernacular sagas Reimagining Christendom is populated with tales of married bishops fictitious and forged papal bulls and imagined canon law proceedings These narratives Anderson argues demonstrate how Norse writers adapted and reconfigured the institutional power of the church in order to legitimize some of the thoroughly abnormal practices of their native bishops In the process Icelandic clerics constructed their own visions of ecclesiastical order visions that underscore the thoroughly malleable character of the Roman church s text based government and that

articulate diverse ways of belonging to the far flung imagined community of high medieval Christendom      **England's Insular Imagining** Lorna Hutson,2023-11-09 How have the English conceived of Scotland Lorna Hutson's book is an essential intervention in the contested narrative of British nationhood It argues that England deployed a mythical British History in pursuing dominion over its northern neighbour initially through waging war and then striving to make the very idea of Scotland vanish in new figurations of sea sovereignty The author explores English attempts at conquest in the 1540s revealing how justifications of overlordship mutated into literary legal and cartographic ploys to erase Scotland as kingdom Maps treatises and military propaganda are no less imaginative in their eradication strategies than river poetry chorography allegory epic tragedies history plays and masques Hutson shows how Spenser's Faerie Queene Shakespeare's Henry V and King Lear Plowden's theory of the King's Two Bodies Camden's Britannia and the race making in Jonson's Masque of Blackness are all implicated in England's jurisdictional claim and refusal to acknowledge Scotland as sovereign nation

**Timothy** Bruce J. Malina,2008 While most Christians might accurately identify Timothy as an associate of the apostle Paul they probably conjure up images of Timothy and his relationship with Paul in twenty first century terms In Timothy Paul's Closest Associate Bruce J Malina ventures off the path of modern biography toward a more likely description of Timothy providing readers with fresh and plausible insights that lead to a greater appreciation not only for Timothy but more important for the gospel of God that Paul enjoined on him to proclaim the God of Israel raised Jesus from the dead making him Lord and Messiah      **Post-Empire Imaginaries?** Barbara Buchenau,Virginia Richter,2015-07-28 Empires as political entities may be a thing of the past but as a concept empire is alive and kicking From heritage tourism and costume dramas to theories of the imperial idea l empire sells Post Empire Imaginaries Anglophone Literature History and the Demise of Empires presents innovative scholarship on the lives and legacies of empires in diverse media such as literature film advertising and the visual arts Though rooted in real space and history the post empire and its twin the post imperial emerge as ungraspable ideational constructs The volume convincingly establishes empire as welcoming resistance and affirmation introducing post empire imaginaries as figurations that connect the archives and repertoires of colonial nostalgia postcolonial critique post imperial dreaming

**The Anglo-Scottish Border and the Shaping of Identity, 1300-1600** K. Terrell,M. Bruce,2012-09-03 The Anglo Scottish Border and the Shaping of Identity 1350 1600 explores the roles that Scotland and England play in one another's imaginations This collection of essays brings together eminent scholars and emerging voices from the frequently divergent fields of English and Scottish medieval studies      Anachronic Renaissance Alexander Nagel,Christopher S. Wood,2020-04-14 A reconsideration of the problem of time in the Renaissance examining the complex and layered temporalities of Renaissance images and artifacts In this widely anticipated book two leading contemporary art historians offer a subtle and profound reconsideration of the problem of time in the Renaissance Alexander Nagel and Christopher Wood examine the meanings uses and effects of chronologies models of temporality and notions of

originality and repetition in Renaissance images and artifacts Anachronic Renaissance reveals a web of paths traveled by works and artists a landscape obscured by art history's disciplinary compulsion to anchor its data securely in time The buildings paintings drawings prints sculptures and medals discussed were shaped by concerns about authenticity about reference to prestigious origins and precedents and about the implications of transposition from one medium to another Byzantine icons taken to be Early Christian antiquities the acheiropoieton or image made without hands the activities of spoliation and citation differing approaches to art restoration legends about movable buildings and forgeries and pastiches all of these emerge as basic conceptual structures of Renaissance art Although a work of art does bear witness to the moment of its fabrication Nagel and Wood argue that it is equally important to understand its temporal instability how it points away from that moment backward to a remote ancestral origin to a prior artifact or image even to an origin outside of time in divinity This book is not the story about the Renaissance nor is it just a story It imagines the infrastructure of many possible stories

**The Remaking of Archival Values** Victoria Hoyle, 2022-10-07 The Remaking of Archival Values posits that archival theory and practice are fields in flux and that recent critical archival discourse that addresses neoliberalism racism and the legacies of colonialism and patriarchy represents a disruption not only to established principles but also to the values that underpin them Using critical discourse analysis and comparing theory and practice from the UK and the Anglophone world Hoyle explores the challenges faced by scholars institutions organisations and practitioners in embedding new values She demonstrates how persistent underlying discursive structures about archives have manifested from the late nineteenth century to the present day Qualitative and participatory research in the UK shows how conceptions of archival value arise are expressed and become authorised in practice at international national and local levels Considering what might be learnt from similar debates in public history and cultural heritage studies the book asks if and how dominant epistemologies of the archive can be dismantled amidst systems of power that resist change The Remaking of Archival Values is relevant to researchers and students in the field of archival and information studies as well as practitioners who work with archives around the world It will also speak to the interests of those working in the fields of cultural heritage archaeology museum studies public history and gender and race studies
