Contemporary Majority Nationalism Alain Gagnon, Geneviève Nootens, André Lecours, 2011 For many years nationalism has been associated with political demands by minority nations that challenge the rights of the central state However over the last two decades many works have challenged this perspective arguing that nationalism as a political phenomenon is likely to emerge among both majority and minority nations In light of a renewed interest in the study of national Contemporary Majority Nationalism brings together a group of major scholars committed to making sense of this widespread phenomenon To better illustrate the reality of majority nationalism and the way it has been expressed authors combine analytical and comparative perspectives In the first section contributors highlight the paradox of majority nationalism and the ways in which collective identities become national identities The second section offers in depth case study analyses of France the United Kingdom Spain Canada and the United States This book is an international project led by three members of the Research Group on Plurinational Societies based at Université du Québec Montréal *Nationalism and Social Policy* Daniel Béland, André Lecours, 2010-08-12 Despite the recent proliferation of literature on nationalism and on social policy relatively little has been written to analyse the possible interaction between the two Scholars interested in social citizenship have indirectly dealt with the interaction between national identity and social programs such as the British NHS but they have seldom examined this connection in reference to nationalism Specialists of nationalism rarely mention social policy focusing instead on language culture ethnicity and religion The main objective of this book is to explore the nature of the connection between nationalism and social policy from a comparative and historical perspective At the theoretical level this analysis will shed new light on a more general issue the relationships between identity formation territorial politics and social policy Although this book refers to the experience of many different countries the main cases are three multinational states that is states featuring strong nationalist movements Canada Québec the United Kingdom Scotland and Belgium Flanders The book looks at the interplay between nationalism and social policy at both the state and sub state levels through a detailed comparison between these three cases In its concluding chapter the book brings in cases of mono national states i e France Germany Sweden and the United States to provide broader comparative insight on the meshing of nationalism and social policy The original theoretical framework for this research is built using insight from selected scholarship on nationalism and on the welfare state
