Schneider,2015-04-10 An argument that the system of boards that license human subject research is so fundamentally misconceived that it inevitably does more harm than good Medical and social progress depend on research with human subjects When that research is done in institutions getting federal money it is regulated often minutely by federally required and supervised bureaucracies called institutional review boards IRBs Do can these IRBs do more harm than good In *The Censor s Hand* Schneider addresses this crucial but long unasked question Schneider answers the question by consulting a critical but ignored experience the law s learning about regulation and by amassing empirical evidence that is scattered around many literatures He concludes that IRBs were

fundamentally misconceived Their usefulness to human subjects is doubtful but they clearly delay distort and deter research that can save people s lives soothe their suffering and enhance their welfare IRBs demonstrably make decisions poorly They cannot be expected to make decisions well for they lack the expertise ethical principles legal rules effective procedures and accountability essential to good regulation And IRBs are censors in the place censorship is most damaging universities In sum Schneider argues that IRBs are bad regulation that inescapably do more harm than good They were an irreparable mistake that should be abandoned so that research can be conducted properly and regulated sensibly

Modernity and Technology
Søren Riis, 2024-12-13 The late Bruno Latour has come a long way since he claimed that we have never been modern and analyzed the hole in the ozone layer from an armchair From his initial analysis of modernity Latour evolved to confront the detrimental impact of modern civilization on the Earth This book contends that Latour s early and later works can be connected to the philosophy of Martin Heidegger so as to render a profound understanding of the intricate relationship between modernity and technology in our era Reconsidered in tandem these thinkers can become essential guides to help us circumvent some of the fundamental human and environmental tragedies of our time While both Latour and

Heidegger illuminate the perils of our epoch they also offer a beacon of hope Through their alternative examination of human existence technology and the world around us they inspire us to envision paths toward overcoming the challenges of modernity In their interconnected philosophies lies the potential for rediscovering hope despite the pressing dangers of our age This book calls for theoretical fieldwork and a parallel reassessment of these intellectual giants and urges us to draw upon their insights in order to confront and transcend the dilemmas of our modern world
