Painters of the Bauhaus Marlborough fine art (Londra), 1962 *Painters of the Bauhaus, March-April 1962* Marlborough Fine Art Ltd, 1962 Women's Work Sigrid Weltge-Wortmann, 1993 Resurrecting the work of gifted craftswomen too long denied their place as pioneers in their field *Women's Work Textile Art from the Bauhaus* unearths a missing chapter in the story of the most important institution in the history of modern design The Bauhaus defined modern design in the twentieth century As the preeminent design phenomenon of the era almost every aspect of it has been minutely examined Yet the Weaving Workshop the longest standing and most successful of all Bauhaus workshops has been neglected for one simple reason when the first wave of brilliantly talented women arrived at the school they soon discovered that Bauhaus founder Walter Gropius could not sustain his ringing declaration of equality between the beautiful and the strong gender Textiles in the hierarchy of art and design were to be women's work Their results however were remarkable both in the early days of artistic expression in Weimar and in later developments in the textile industry The craftswomen responded to the demands of advanced technology with fabrics that incorporated new or unusual materials such as Cellophane leather and early synthetics which had acoustic and light reflecting properties They produced multi layered fabrics cloths with double and triple weaves and later made extensive use of the jacquard loom The result was a rebirth of hand weaving and new professionalism in designing textiles for mass production In this model study superlatively documented with rare or little seen photographs of the textiles and their makers Sigrid Wortmann Weltge captures the heady atmosphere of creative excitement at the Bauhaus Original archival research and interviews both with survivors and their students and with leading contemporary designers detail the workshop's history and its enduring legacy When the Nazis closed the institution in 1933 its members dispersed to Switzerland Holland England France Russia Mexico and throughout the United States their ideals and influence live on in marvelous fabrics still being produced today BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The New Vision* László Moholy-Nagy, 2012-03-14 This book a valuable introduction to the Bauhaus movement is generously illustrated with examples of students experiments and typical contemporary achievements The text also contains an autobiographical sketch Bauhaus Effects in Art, Architecture, and Design Kathleen James-Chakraborty, Sabine T. Kriebel, 2022-04-21 Bringing together an international team of scholars this book offers new perspectives on the impact that the Bauhaus and its teaching had on a wide range of artistic practices Three of the fields in which the Bauhaus generated immediately transformative effects were housing typography and photography Contributors go further to chart the surprising relation of the school to contemporary developments in hairstyling and shop window display in unprecedented detail New scholarship has detailed the degree to which Bauhaus faculty and students set off around the

world but it has seldom paid attention to its impact in communist East Germany or in countries like Ireland where no Bauhausler settled. This wide ranging collection makes clear that a century after its founding many new stories remain to be told about the influence of the twentieth century's most innovative arts institution. The book will be of interest to scholars working in art history, design history, photography and architectural history.

Painters of the Bauhaus, 1962 *Bauhaus Women* Elizabeth Otto, Patrick Rössler, 2019-03-21. Forty five key women of the Bauhaus movement. Bauhaus Women: A Global Perspective reclaims the other half of Bauhaus history yielding a new understanding of the radical experiments in art and life undertaken at the Bauhaus and the innovations that continue to resonate with viewers around the world today. The story of the Bauhaus has usually been kept narrow, localised to its original time and place and associated with only a few famous men such as Walter Gropius, Marcel Breuer, Paul Klee, Wassily Kandinsky and László Moholy-Nagy. Bauhaus Women: A Global Perspective bursts the bounds of this slim history by revealing fresh Bauhaus faces. Forty five Bauhaus women unjustifiably forgotten by most history books. This book also widens the lens to reveal how the Bauhaus drew women from many parts of Europe and beyond and how through these cosmopolitan female designers, artists and architects it sent the Bauhaus message out into the world and to a global audience.

Albers and Moholy-Nagy Achim Borchardt-Hume, 2006-01-01. Catalog of an exhibition held at the Tate Modern, London, Mar 9 - June 4, 2006; the Kunsthalle Bielefeld, June 25 - Oct 1, 2006; and the Whitney Museum of American Art, New York, Nov 2, 2006 - Jan 21, 2007.

Joseph Albers: To Open Eyes Frederick A. Horowitz, Brenda Danilowitz, 2006-11-07. This volume provides a fascinating study of the revolutionary painter and teacher Josef Albers. In 1888, Albers began his teaching career in 1923 when Walter Gropius invited him to join the faculty of the Bauhaus in Germany where he quickly replaced the school's standard course curriculum with his own innovative methods. After moving to the United States, he taught at Black Mountain College in North Carolina and then at Yale University in New Haven, Connecticut until he retired in 1954. Overall, Albers's passionate commitment to teaching was matched only by his devotion to his own artistic development. While he is widely perceived as a strong minded theoretician, he was in fact, as this volume reveals, against rigid dogma and he encouraged his students to develop lively and original solutions to his many and varied design exercises. On their first day in his classroom, Albers's students were informed that his goal was to educate their eyes and that he was going to teach them how to think and to see, an agenda belied by the somewhat prosaic course names: Basic Drawing and Basic Design. Overall, as a thinker, writer, Albers's important volume *The Interaction of Color* was published in 1963 by Yale and educator he has directly and indirectly influenced generations of established artists including Robert Rauschenberg, Robert Mangold, Robert Rauschenberg and Donald Judd among many others. This book provides not only a compelling study of a key figure of 20th century art but also ponders what constitutes art and how it is made.

century's most influential schools of art and design **The Bauhaus and America** Margret Kentgens-Craig, 2001 After the Bauhaus's closing in 1933 many of its protagonists moved to the United States where their acceptance had to be cultivated In this book Margret Kentgens-Craig shows that the fame of the Bauhaus in America was the result not only of the inherent qualities of its concepts and products but also of a unique congruence of cultural supply and demand of a consistent flow of information and of fine-tuned marketing Thus the history of the American reception of the Bauhaus in the 1920s and 1930s foreshadows the patterns of fame-making that became typical of the post-World War II art world **BOOK JACKET** *Bauhaus* Catherine Ince, Juliette Desorgues, Lydia Yee, 2012 From expressionist beginnings to a pioneering model uniting art and technology this catalogue explores the Bauhaus's utopian vision to change society in the aftermath of the First World War *Bauhaus Art as Life* presents the diverse artistic production that made up its turbulent fourteen-year history and delves into the subjects at the heart of the school art culture life politics and society and the changing technology of the age *Bauhaus Art as Life* reproduces a rich array of painting sculpture design architecture film photography textiles ceramics theatre and installation Exemplar works from such Bauhaus Masters as Josef and Anni Albers Marianne Brandt Marcel Breuer Walter Gropius Johannes Itten Wassily Kandinsky Paul Klee Hannes Meyer László Moholy-Nagy Oskar Schlemmer Ludwig Mies van der Rohe and Gunta Stölzl are illustrated alongside works by lesser-known Bauhaus artists and students *Design and Visual Culture from the Bauhaus to Contemporary Art* Edit Tóth, 2018-05-16 This book complements the more textually based Bauhaus scholarship with a practice-oriented and creative interpretive method which makes it possible to consider Bauhaus-related works in an unconventional light Edit Tóth argues that focusing on the functionalist approach of the Bauhaus has hindered scholars from properly understanding its design work With a global scope and under-studied topics the book advances current scholarly discussions concerning the relationship between image technologies and the body by calling attention to the materiality of image production and strategies of re-channeling image culture into material processes and physical body space the space of dimensionality and everyday activity *Swiss Graphic Design* Richard Hollis, 2006-01-01 Originally published London Laurence King Pub 2006 *Art of the 20th Century* Karl Ruhrberg, Klaus Honnef, Manfred Schneckenburger, Christiane Fricke, 2000 The original edition of this ambitious reference was published in hardcover in 1998 in two oversize volumes 10x13 This edition combines the two volumes into one it's paperbound flexi cover the paper has a plastic coating smaller 8x10 and affordable for art book buyers with shallower pockets none of whom should pass it by The scope is encyclopedic half the work originally the first volume is devoted to painting the other half to sculpture new media and photography Chapters are arranged thematically and each page displays several examples in color of work under discussion The final section a lexicon of artists includes a small bandw photo of each artist as well as biographical information and details of work writings and exhibitions Ruhrberg and the three other authors are veteran art historians curators and writers as is editor Walther c Book News Inc *The Weimar Republic Sourcebook* Anton Kaes, Martin
