What Your Animals Tell Me Dr. Monica Diedrich, 2001-10-01 You do what people exclaim in amazement when I tell them I am an animal communicator And how exactly do you do that they ask Well I reply I get pictures in my mind like clips of a movie These pictures tell me whether an animal is happy or sad if it's longing for something or satisfied with its life They show me their wants desires needs and their hurts The images I receive do not refer to time so it may be hard to place the content of the picture in the past present or future Also the meaning depends greatly on the circumstances surrounding the event or the context of the situation The images are often accompanied by impressions feelings tastes sounds and smells I use all my senses when I am receiving the picture clips so when I see a scene I also know how the animal feels about what I'm seeing Occasionally I call myself an

animal behaviorist which is tongue in cheek because most of the time any behavioral change called for is on the part of the human and not the pet. People often assume that because I communicate with animals I grew up close to them observing them and sharing their lives. In fact I grew up in Buenos Aires Argentina a busy metropolitan city surrounded by apartment buildings. The downtown area where skyscrapers competed for the sky and for how many apartments or offices they could contain was no place for pets. To see the slightest hint of green I had to walk to a park the lungs of the city a couple of miles away. When I was eight my family bought a summer home about two hours away from the city. It was a large Spanish style home surrounded by lush green and lots of fruit trees. It was a little piece of heaven away from the noise of taxi horns and exhaust fumes. All of my three month long school vacations were spent there and on one such vacation I realized that I could hear animals thoughts. On the corner next to us were neighbors who had emigrated from Europe. They had a farm and everyone within 30 miles knew the family and sought them out for fresh produce. They also raised chickens for eggs cows for milk a few work horses a couple of dogs and some barn cats. We felt lucky to have them nearby as it meant that we would not starve even during bad summer floods. I would often go next door to buy milk and eggs. On one occasion I was given a tour of the farm and saw a new mother pig with about 20 piglets beside her. I was surprised to hear her complain about how incredibly tired she found nursing her young. As I heard this she was looking right at me and it was clear to me that I was not imagining it. I was paralyzed by this phenomenon and couldn't move for a long while. From then on I volunteered to go for supplies all the time so that I could talk to the animals. Once a dog tied to a tree told me how hot he was and laughed about the beating he received the previous day for breaking his chain. He said it didn't hurt that much and besides it was worth it. I got to inspect the whole ranch and marked everything. Now even if I'm tied down most of the day everyone will know it's all mine. I also heard a cow that warmly offered me some freshly squeezed milk and the chickens complained about the new arrogant young cock. At such a young age I took these things for granted never realizing that not everyone had this gift. I simply replied to the animals and went on playing. It was not always pleasant however. One day a dog was about to be beaten and I really heard his desperate cry for help. The man undid his belt and called the dog to his side. The faithful animal well aware of what was going to happen obediently trotted over to him shoulders sloughing down head looking at the ground and tail curled low between his legs. He looked at me and screamed. Tell him to stop tell him not to do it. Please don't hurt him. I begged the owner but to no avail. He needs to be taught a lesson the man said gruffly. Filled with anger and disbelief I turned and walked away the dog's cries ringing in my head. His pain was my pain. I ran home and vowed to never experience this again. It wasn't until my eighteenth birthday that I realized I was different and began asking why I got extrasensory information from people and animals but others didn't. Why was vivid déjà vu an everyday occurrence. Why could I foretell events. For example in conversations I routinely knew what someone would say next. This was a matter of mild curiosity for me until the day my world stopped. I had just married and we went to a furniture store to buy furnishings for our new

apartment The moment I set foot in the store I started to see a movie that showed me what the two level store looked like and I noted that the sweeping main staircase reminded me of the one in Gone with the Wind I saw how every piece of furniture that we would buy was already in our new apartment And I suddenly discovered why I was there and why this was happening The picture inside my head showed me a little girl playing on the staircase accidentally fall and break several bones My mind raced What am I supposed to do I wondered Has this already happened Or is it about to happen And if so what am I supposed to do Stop the little girl Tell her mother WILL SOMEONE TELL ME WHAT TO DO I screamed internally The movie played for several minutes during which time I actually saw a little girl begin to play on the staircase She was jumping to the first step then turning around and jumping to the ground The next time she jumped two steps and turned to jump back to the ground level She did this several times each time jumping up one more step before turning and jumping down I was motionless watching and reliving my premonition I counted six steps and as I saw her begin to turn I screamed This startled her and she shifted her weight so that unlike the premonition she was only bruised with no broken bones She still cried and screamed for her mother but I felt so good when I saw her stand up and run to her family Somehow my scream had changed the outcome Shaken and confused I wondered to whom I could speak about this Who would understand Would I be judged weird or worse insane I decided to say nothing to anybody except God the Universe or whoever out there was in charge and hopefully listening If I am never shown any bad things then I will accept this gift and put it to work in helping people and animals I will honor this promise as long as you never ever show me scary things again Getting over the furniture store incident took many years By then however I knew what the word psychic meant I had read all the books by Jane Roberts in which she channels an entity named Seth and was glad to learn that I wasn't the only one who was strange Jane Roberts had the same doubts that I had and as she recounted that she was in fact her own worst skeptic and critic I began to feel more at ease Then came other authors And so my path began How will I use my gift in a positive way to help animals I wondered I reasoned that when you meet new people you begin by asking them about themselves So why not just do the same with the animals I will ask them questions and they will answer I decided As I would come to find animals are usually happy to describe their personality so that I can get to know them quickly For example they may describe themselves as a little lady an old grouch an adventurer or a couch potato Sometimes they explain their interaction with family members They might tell me for instance that they are very close to Mom or Dad Most animals hold a parental like image of their humans so Mom or Dad often comes to mind Members of a multi pet household talk about who is top dog A few talk about friends when describing the humans with whom they share a home Amazingly even those who are beaten and cursed talk lovingly about their families Some give me deep spiritual messages while others talk about their favorite food or activity They all talk about love about patience and about having a job to do Their jobs vary and are the most important part of their lives Dogs for instance might take care of the house watch for strangers keep an eye on the kids prohibit the cat from entering the room or watch the baby Outside

dogs can go hunting fishing hiking or herding No matter what the job is they always enjoy doing it well They want to please their human companions and see them happy Cats on the other hand are more independent Although some of them have a job their main desire is to sleep sunbathe and do exactly what they want as opposed to what you want Still they balance their wants and desires so that the relationship can be give and take Granted some of you give more than you take or do you At times it seems as if our animals give us a lot more than we offer them Their unconditional love is always there for us regardless of how we treat them and that far outweighs any payment or sacrifice that we can make Many of the stories in this book reveal that often our animals main purpose is to teach us something about ourselves and if they don t achieve that purpose in one lifetime they will reincarnate back with us to continue their work This may involve an animal getting the same sickness as its human guardian With one of my clients the animal died while she made a complete recovery Understanding the role of our animals and what they do is sometimes far beyond our comprehension By their actions they mirror your feelings showing you whether you re having a good day or a bad one By being stressed themselves they show you how stressed you are Even when you show no outward signs of stress they sense it because they can see your aura the energy field surrounding your physical body and become sponges absorbing your stress for themselves This helps you feel more relaxed And what do you do then You pet them and tell them you love them They in turn show you their tummy look at you with adoring eyes or simply purrrrrrrr Purring signifies a magnificent feeling of contentment To make your kitty purr with delight means that you must be a wonderful person She needs you to show love and you do In return she shows you just how special you are After all she doesn t purr for just anyone When our animals speak to us they say things they need us to hear They seldom complain but do want us to see their perspective It s not enough for us just to understand what they re saying though often we must also take some action If during a consultation I tell you that the reason your cat refuses to use her litter box is because it s dirty I get concerned if you give me excuses such as I work long hours and get home tired I can t change the location of his box or He always liked that brand of litter before I can t change your animal s mind I can only tell you what they tell me It s up to you to act on it and do the changing Some people scoff when pet lovers ascribe human like feelings to their animals As an emotional empath I disagree every day animals share their feelings with me They can also rationalize what they want and what they prefer and events and circumstances to do with home and family It is my hope that this book will open a door in your mind Even if you question my gift please strive to be receptive to the insights it offers And know that I have been as truthful and honest in every detail as I possibly can Some of these consultations are on audio cassette for my reference and others have been verified with the animal s owner The stories are all true Hopefully this book will reveal the rich and deep inner world of our pets so that owners may appreciate them more Animals know far more about what is happening in their lives and yours than we give them credit for And as you will see they have souls that survive physical death as do we and often watch over us from the other side For clarification in the following accounts I have put the

animals communications to me in quotation marks as if they are speaking Sometimes I do in fact hear actual words when it is important I get the whole sentence and other times I get a few words with the movie clip I hope this conveys the to and fro nature of our telepathic conversations So please relax and enjoy each chapter filled with the animals insights and perceptions and walk alongside their families to experience how animals affect enrich and enlighten our lives every day Dr Monica Diedrich Anaheim California

I'M a Reluctant Psychic Larson Rose,2013-10-04 When I was three years old I told my mother I had spoken to my grandfather in Heaven When I was five I experienced my first premonition of death When I was ten I saw the ghosts of my grandparents in my room And with every incident that happened to me I usually had two reactions This is really cool and this creeps me out beyond belief This book was created for all those people out there who like myself are reluctant to identify as Psychics Indigo Children or Earth Angels etc It is for all of us skeptics who roll our eyes and say Fairies Merpeople Really But deep down inside it makes sense to us because we feel we really are Fairies or Merpeople or Indigo Children So we ask ourselves How do I accept this type of spirituality into my life when it goes against so much of what Ive been taught
