

Thilo OFFERGELD, *Reges pueri. Das Königtum Minderjähriger im frühen Mittelalter* (Monumenta Germaniae Historica Schriften, Bd. 50), Hannover 2001. ISBN 3-7752-5450-1.

Die Hochseeflotte der deutschen Mediävistik – die Schriftenreihe der MGH – hat mit dieser in Bonn bei Theo Kölzer entstandenen Dissertation ein neues Schlachtschiff erhalten. Und ein Schlachtschiff ist das Werk von Thilo Offergeld mit seinen 834 Seiten Text und seinem mehr als 80seitigem Quellen- und Literaturverzeichnis allein schon vom Umfang her.

Nun sind es aber auch nicht gerade Spatzen auf die hier mit großkalibrigen Kanonen geschossen wird. Immerhin nimmt Offergeld die Kindkönige von der ausgehenden Antike bis zum sogenannten Interregnum in den Blick, also einen Zeitraum von mehr als tausend Jahren. Eine an sich schon stupende Leistung.

Ausgehend von einer These Theo Kölzers¹, dass Kindkönige – wie sie bei Offergeld heißen (S. 15) – im Verständnis der Zeitgenossen als mündig und selbstregierend zu betrachten seien, will diese Arbeit sowohl die bisher fehlende „historisch-diachrone Perspektive“ als auch die „konkrete politische Situierung der einzelnen Kindkönigsherrschaften“ untersuchen (S. 4). Drei Fragenkomplexe strukturieren dabei Offergelds Analyse: Zum ersten will er untersuchen, unter welchen verfassungsmäßigen Umständen und konkreten historischen Bedingungen es überhaupt zu dem Königtum eines Minderjährigen kommen konnte. Dann sollen die inneren Strukturen ebendieser Königsherrschaft näher beleuchtet werden, um schließlich die Wahrnehmung dieses Phänomens durch die Zeitgenossen zu betrachten.

Die Forschung zum mittelalterlichen Königtum, die sich bisher mit der Königsherrschaft Minderjähriger nicht umfassend und nur im Zusammenhang mit juristischen Fragestellungen beschäftigt hat, wird damit um einen wesentlichen Beitrag ergänzt. Mehr noch: Diese Arbeit setzt den Maßstab, an dem sich zukünftige weiterführende Untersuchungen, vielleicht für das spätere Mittelalter oder andere europäische Gesellschaften, messen lassen müssen.

Bevor Offergeld jedoch mit der chronologischen Darstellung der einzelnen Kindkönigsherrschaften beginnt, werden in der gebotenen Kürze und mit beeindruckender Kenntnis der einschlägigen Literatur die allgemeinen Fragen nach Volljährigkeitsalter, rechtlicher Stellung Minderjähriger im allgemeinen, und dem Rechtsstatus von minderjährigen Königen im besonderen angeschnitten.

Reges Pueri Das Konigtum Minderjahriger Im Fruhen Mittelalter:

Reges pueri Thilo Offergeld, 2001 Roman Barbarians Y. Hen, 2007-11-09 This study investigates the place of the royal court and the operation of patronage in several European kingdoms in the early Middle Ages It seeks to identify the roots of later medieval developments and especially of the Carolingian Renaissance in the centuries immediately succeeding the period of Roman rule **Patterns of Episcopal Power** Ludger Körntgen, Dominik Waßenhoven, 2011-08-29 In medieval Europe the death of a king could not only cause a dispute about the succession but also a severe crisis In times of a vacant throne particular responsibility fell to the bishops whose general importance for the time around the first millennium has been revealed by recent scholarship as royal counsellors and policy makers This volume therefore concentrates on the bishops room for manoeuvre and the patterns of episcopal power focusing on the Eastern Frankish Reich and Anglo Saxon England in a comparative approach which is not least based upon the research of a renowned medievalist Timothy Reuter His article about A Europe of Bishops Ein Europa der Bisch fe is presented in English translation for the first time *Virtue, Liberty, and Toleration* Jacqueline Broad, Karen Green, 2007-07-23 This volume serves as an introduction to a rich and as yet under explored period in the history of women s ideas The volume provides a partial insight into the richness and complexity of women s political ideas in the centuries prior to the French Revolution The essays in this collection examine women s political writings with particular reference to the themes of virtue especially the virtue of phronesis or prudence liberty and toleration **The Oxford Handbook of the Merovingian World** Bonnie Effros, Isabel Moreira, 2020 The Merovingian world has become more visible in Anglophone historical studies in the past two decades as attention to the social and economic networks of empires and modes of communication has begun to change older frameworks that viewed these centuries in terms of decline and characterized them as the Dark Ages The Merovingian epoch witnessed something which we understand from the perspective of hindsight a tilt to the middle ages The forty six essays included in this volume thus highlight the vitality and importance of the Merovingian kingdoms in the fifth through eighth centuries Rather than suggest that this was a chaotic and obscure interlude between the Fall of the Roman Empire and the Rise of the Carolingians and named for a dynasty with a reputation for few accomplishments and even fewer memorable kings the essays demonstrate that the Merovingian era is an important field in its own right The Handbook s contributors highlight recent research that moves beyond the political developments that were until recently the bread and butter of most historians and include many contributions based on material culture that shed new light on subjects that previously were inaccessible They demonstrate that the Merovingian world was at the center of a wide ranging Merovingian empire of elites peasants economies and cultures and its story must be told through archaeology bio archaeology architecture hagiographic literature manuscripts liturgy visionary literature and eschatology patristics numismatics and material culture In addition to mainland France the essays encompass the geographic conduits of power culture and trade that connected the Merovingian world with Anglo

Saxon England Ireland Frisia Spain Italy North Africa and the Byzantine Empire This network empire of intersecting and often conflicting identities political interests religions economies patronage and cultures were intrinsically connected to contemporary developments not just among the Burgundians and Visigoths but among the Byzantines Avars Anglo Saxons Frisians and the Irish fields that were once viewed like the Merovingians themselves in isolation These important developments reveal why the Merovingian period has attracted new audiences and why it will never be viewed as a backwater again Nordic Elites in Transformation, c. 1050–1250, Volume II Kim Esmark, Lars Hermanson, Hans Jacob Orning, 2020-01-24 Nordic Elites in Transformation c 1050 1250 Volume II explores the structures and workings of social networks within the elites of medieval Scandinavia to reveal the intricate relationship between power and status Section one of this volume categorizes basic types of personal bonds both vertical and horizontal while section two charts patterns of local regional and transnational elite networks from wide scope longitudinal perspectives Finally the third section turns to case studies of networks in action analyzing strategies and transactions implied by uses of social resources in specific micro political settings A concluding chapter discusses how social power in the North compared to wider European experiences A wide range of sources and methodologies is applied to reveal how networks were established maintained and put to use and how they transformed in processes of centralizing power and formalizing hierarchies The engagement with and analysis of intriguing primary source material has produced a key teaching tool for instructors and essential reading for students interested in the workings of medieval Scandinavia elite class structures and Social and Political History more generally

Imperial Ladies of the Ottonian Dynasty Phyllis G. Jestice, 2018-04-12 In tenth century Europe and particularly in Germany imperial women were able to wield power in ways that were scarcely imaginable in earlier centuries Theophanu and Adelheid were two of the most influential figures in the Ottonian reich along with their husbands who relied heavily on their support Phyllis G Jestice examines an array of factors that produced their power and prestige including societal attitudes toward women their wealth their unction as queens and their carefully constructed image of piety Due to their influential positions Theophanu and Adelheid reclaimed control of the young Otto III despite fierce opposition from Henry the Quarrelsome during the throne struggle of 984 In examining how they successfully secured the regency this book confronts the outmoded notion of exceptionalism and illuminates the lives of powerful Ottonian women **Paths to Kingship in**

Medieval Latin Europe, c. 950–1200 Björn Weiler, 2021-10-14 Medieval Europe was a world of kings but what did this mean to those who did not themselves wear a crown How could they prevent corrupt and evil men from seizing the throne How could they ensure that rulers would not turn into tyrants Drawing on a rich array of remarkable sources this engaging study explores how the fears and hopes of a ruler s subjects shaped both the idea and the practice of power It traces the inherent uncertainty of royal rule from the creation of kingship and the recurring crises of royal successions through the education of heirs and the intrigue of medieval elections to the splendour of a king s coronation and the pivotal early years of

his reign Monks crusaders knights kings and those who wanted to be kings are among a rich cast of characters who sought to make sense of and benefit from an institution that was an object of both desire and fear

Inventing the Public Sphere (2 Vols.) Leidulf Melve, 2007-10-30 This book deals with public debate during the Investiture Contest ca 1040 1122 During this revolutionary struggle between the secular and the religious powers polemical writers contributed to the arguably first public debate in medieval Europe A close reading of a selection of these polemics offers new views on the functioning of the medieval public sphere as well as how the public framework circumscribing the writers led to argumentative innovations These include an increasing concern with interpretation and contextualisation resulting in a more critical and probing intellectual community Public debate during the Contest taught intellectuals how to argue in public and in that respect transferred a lasting legacy to the later Middle Ages and beyond

Making and Unmaking the Carolingians Stuart Airlie, 2020-12-24 How does power manifest itself in individuals Why do people obey authority And how does a family if they are the source of such dominance convey their superiority and maintain

their command in a pre modern world lacking speedy communications standing armies and formalised political jurisdiction Here Stuart Airlie expertly uses this idea of authority as a lens through which to explore one of the most famous dynasties in medieval Europe the Carolingians Ruling the Frankish realm from 751 to 888 the family of Charlemagne had to be ruthless in asserting their status and adept at creating a discourse of Carolingian legitimacy in order to sustain their supremacy Through its nuanced analysis of authority politics and family Making and Unmaking the Carolingians 751 888 outlines the system which placed the Carolingian dynasty at the centre of the Frankish world In doing so Airlie sheds important new light on both the rise and fall of the Carolingian empire and the nature of power in medieval Europe more generally *Kingship and Consent in Anglo-Saxon England, 871-978* Levi Roach, 2013-10-17 This engaging study focuses on the role of assemblies in later Anglo Saxon politics challenging and nuancing existing models of the late Anglo Saxon state Its ten chapters investigate both traditional constitutional aspects of assemblies who attended these events where and when they met and what business they conducted and the symbolic and representational nature of these gatherings Levi Roach takes into account important recent work on continental rulership and argues that assemblies were not a check on kingship in these years but rather an essential feature of it In particular the author highlights the role of symbolic communication at assemblies arguing that ritual and demonstration were as important in English politics as they were elsewhere in Europe Far from being exceptional the methods of rulership employed by English kings look very much like those witnessed elsewhere on the continent where assemblies and ritual formed an essential part of the political order *Das frühmittelalterliche Königtum* Franz-Reiner Erkens, 2012-02-14 After the Second World War the question of the religious character of Germanic kingship was no longer prominent not least because previously excessively hybrid views had been developed on the existence of a Germanic religious kingship Now that in the meantime important insights have been gained into the practical exercise of power in the early kingdoms it is time to enquire again into their ideological and religious foundations The multiple perspectives developed in these papers lead to new insights which differ distinctly from earlier understandings of the early kingdoms Above all weight is added to the doubts about the existence of Germanic religious kingship *Transactions of the Royal Historical Society* Ian W. Archer, 2014-01-16 A collection of major articles representing some of the best historical research by some of the world s most distinguished historians *Die Königin im frühen Mittelalter* Martina Hartmann, 2009-03-12 ber die K nigin im fr hen Mittelalter wird hier erstmals eine zusammenh ngende Darstellung vorgelegt Der erste Teil des Buches behandelt die politische Geschichte der einzelnen Reiche der V lkerwanderungszeit bis zum Ende des Karolingerreiches unter besonderer Ber cksichtigung der K niginen und ihres politischen Einflusses Bedeutende K niginen wie die Ostgotin Amalaswintha die Westgotin Goiswinth die Langobardinnen Theudelinde und Ansa aber auch die Merowingerinnen Radegunde Brunichild sowie Balthild und nicht zuletzt die Karolingerinnen Bertrada Judith Angilberga und Richgard erhalten ein deutlicheres Profil Im zweiten Teil werden in vergleichender Betrachtung ausgew hlte Aspekte

untersucht wie die Herkunft der Königinen auswärtige Heiraten und Ehetrennungen ihre Ausstattung und der Hofstaat aber auch Regentschaften politische Intervention Tod und Begräbnis sowie das Nachleben und nicht zuletzt die Rolle der Königinster. *The Making of Medieval Central Europe* Martin Wihoda, 2024-08-26 Although the distant origins of medieval Central Europe have enjoyed constant interest among historians only marginal attention has been paid to the power and political prerequisites for the first Westernization i.e. the gradual adoption of the values norms and patterns of behavior of the Latin West by the communities gentes around the eastern edge of the Carolingian and subsequently Holy Roman Empires. Such a gap in knowledge long overlooked is now being filled by *The Making of Medieval Central Europe Power and Political Prerequisites for the First Westernization 791-1122*. While respecting the state of research and based on an original analysis of the sources this book offers an informed reflection of a complex dialogue that was initiated after the collapse of the Avar Khaganate at the end of the 8th century and that by the beginning of the 12th century gave rise to a Central Europe that was Westernized i.e. turned toward the West yet in many ways distinctive. Another and no less important added value of this book is the author's conscious effort to overcome the narrow interpretive matrices defined by the national interests of the time.

Streit am Hof im frühen Mittelalter Matthias Becher, 2011 English summary In the early middle ages the court was a centre for meetings of secular and clerical princes. At the court of emperors kings and popes the princes of different lordships met and the court was therefore at the centre of conflict. The court as centre of rule is especially important at the moment when the cooperation at the court is questioned by escalating quarrels. In the situation of conflict the notions of the princes emerge more clearly the implicit demands the princes were subordinated to as well as the political mode of functioning at the court. In situations of conflict the mechanism of culture of debate in the early middle ages can be observed. Different aspects of conflict at court in the early middle ages were discussed at this international congress. German description Im frühen Mittelalter war der Hof ein zentraler Ort der Begegnung geistlicher und weltlicher Fürsten Kaiser Königs und Papsthofe vereinten die Fürsten der verschiedenen Reiche und wurden daher auch zu Kristallisationspunkten des Streits. Der Hof als Zentrum der Herrschaft tritt für uns vor allem dann als Phänomen hervor wenn das Mit und Zueinander am Hof durch eskalierende Auseinandersetzungen in Frage gestellt wird. An der Streitsituation lassen sich die Vorstellungen der Beteiligten die impliziten Ansprüche die an König und Grosse herangetragen werden sowie die Wirkungsweise des Hofes besonders deutlich machen. Zudem können Mechanismen frühmittelalterlicher Streitkultur an dem besonders exponierten Ort des Hofes sichtbar werden. Die verschiedenen Aspekte des Streits am frühmittelalterlichen Hof werden in diesem Band betrachtet und analysiert.
