The Regime of the Brother Juliet Flower MacCannell, 2002-01-22 The Regime of the Brother is one of the first attempts to challenge modernity on its own terms Using the work of Lacan Kristeva and Freud Juliet MacCannell confronts the failure of modernity to bring about the social equality promised by the Enlightenment On the verge of its destruction the Patriarchy has reshaped itself into a new and often more oppressive regime that of the Brother Examining a range of literary and social texts from Rousseau s Confessions to Richardson s Clarissa and from Stendhal s De L Amour to James s What Maisie Knew and Jean Rhys s Wide Sargasso Sea MacCannell illustrates a history of the suppression of women revealing the potential for a specifically feminine alternative

Taking Back Desire: A Psychoanalytic Approach to Queerness and Neoliberalism on Screen James Lawrence Slattery, 2025-05-13 Taking Back Desire studies film television and video art texts through a Lacanian prism to restore a sense of queer as troubling identity and resistance to neoliberal forms of inclusion James Lawrence Slattery illuminates how the framing of desire identity enjoyment resistance and knowledge contribute to the investment in neoliberal formations of being and success despite the corrosive effects neoliberalism has had for much of society The book does not read queerness on screen as a discernible group of characters or narrative formulas but as a point that meaning fails in the visual and temporal field Examining the interrelation of the real the imaginary and the symbolic in contemporary politics and contemporary media Slattery investigates how a diverse selection of moving image texts forge queerness as a relationship to the lack while crucially resisting the creation of a new or definitive canon Taking Back Desire will be essential reading for academics and scholars of Freudian and Lacanian psychoanalysis queer theory late capitalism film television and media studies sexuality studies critical race theory cultural studies and feminist theory

### **Colonial Modernity in Korea**

Gi-Wook Shin, Michael Robinson, 2020-03-23 The twelve chapters in this volume seek to overcome the nationalist paradigm of Japanese repression and exploitation versus Korean resistance that has dominated the study of Korea's colonial period 1910-1945 by adopting a more inclusive pluralistic approach that stresses the complex relations among colonialism, modernity, and nationalism. By addressing such diverse subjects as the colonial legal system, radio, telecommunications, the rural economy, and industrialization, and the formation of industrial labor, one group of essays analyzes how various aspects of modernity emerged in the colonial context and how they were mobilized by the Japanese for colonial domination, with often unexpected results. A second group examines the development of various forms of identity, from nation to gender to class, particularly how aspects of colonial modernity facilitated their formation through negotiation, contestation, and redefinition.

Up Against Foucault Caroline Ramazanoglu, 2002-11-01 Up Against Foucault introduces key aspects of Foucault's work to feminists in ways which are less abstracted than much of the existing literature in this area. It includes an introduction to Foucault's terms and fills a gap in the literature by clarifying the links between the everyday realities of women's lives and Foucault's work on sexuality and power. The contributors explore the implications of analysing power relations, sexuality, or the body without also thinking about gender and other social divisions. They bring their expertise from social theory and philosophy to bear on the same core issues: the ways in which Foucault provokes feminists into questioning their grasp of power relations and the implications of the absence of gender in his own work. Up Against Foucault shows that in spite of his lack of interest in gender, Foucault does have much to offer feminism, proposing new ways of understanding the control of women and especially the control of sexuality and bodies. This book offers new ground in relating Foucault's challenge to feminism to feminism's challenge to Foucault. Feminists are up against Foucault because he questions the key conclusions which feminists have come to about the nature of gender relations and men's possession of power. It is an appraisal of how seriously we need to take this challenge.

**The Spoils of Freedom** Renata Salecl, 2002-01-31 The rise of nationalist racist and anti feminist ideologies is one of the most frightening repercussions of the collapse of socialism Using psychoanalytic theories of fantasy to investigate why such extremist ideologies have taken hold Renata Salecl argues that the major social and political changes in post communist Eastern Europe require a radical re evaluation of notions of liberal theories of democracy In doing so she offers a new approach to human rights and feminism grounded in her own active participation in the struggles first against communism and now against nationalism and anti feminism

*Desiring Whiteness* Kalpana Seshadri-Crooks, 2002-11-01 *Desiring Whiteness* provides a compelling new interpretation of how we understand race Race is often seen to be a social construction Nevertheless we continue to deploy race thinking in our everyday life as a way of telling people apart visually How do subjects become raced Is it common sense to read bodies as racially marked Employing Lacan's theories of the subject and sexual difference Seshadri Crooks explores how the discourse of race parallels that of sexual difference in making racial identity a fundamental component of our thinking Through close readings of literary and film texts Seshadri Crooks also investigates whether race is a system of difference equally determined by Whiteness She argues that it is in relation to Whiteness that systems of racial classification are organized endowing it with a power to shape human difference

**Responsible Selves** Kevat Nousiainen, Asa Gunnarsson, Johanna Niemi-Kiesilinen, Karin Lundström, 2018-12-20 This title was first published in 2001 In the Nordic countries women are considered equal to men Advanced social and economic rights are often given as the explanation for the equality In this volume Nordic feminist legal scholars give a more

contradictory image of gender equality The gendered construction of the legal subject and the legal understanding of gender have a two pronged potential both to change and to reproduce gender relations Nordic women have been considered responsible for upholding the gendered social system as responsible selves rather than as individuals engaged in rights discourse The authors claim with examples that the belief in equality has made certain discriminative practices difficult to recognize and conceptualize Also a transformation of the social welfare system puts the collective equality policies to the test
