The Arab world's strategic location and its considerable material and human potential should allow it to play a major role in world affairs. However, in addition to sharing language, culture, and history, Arab states also face common challenges: authoritarian regimes, ethnic and social cleavages, economic underdevelopment, and the need for security from the West. Hassan Hamdan al Alkim examines the dynamics of Arab foreign policy making in the twenty-first century, taking account of the current political developments in the Arab world since January 2011. Through an insightful analysis of pivotal issues such as the Middle East Peace Process, the food and water crisis, and Saudi Arabia's foreign policy, Alkim brings us closer to a nuanced understanding of contemporary Arab politics and its role in world affairs. This balanced and discerning study is essential reading for policy makers, academics, and students of Middle Eastern politics.

New Constitutionalism and World Order Stephen Gill, A. Claire Cutler, 2014. This path-breaking collection analyzes the dialectic between legal and constitutional innovations intended to inscribe corporate power and market disciplines in world order and the potential for challenges and alternative frameworks of governance to emerge. It provides a comprehensive approach to neoliberal constitutionalism and regulation and limits to policy autonomy of states and how this disciplines populations according to the intensifying demands of corporations and market forces in global market civilization. Contributors examine global and local public policy challenges and consider if the ongoing crises of capitalism and world order offer states and societies opportunities to challenge this loss of policy autonomy and potentially to refashion world order. Integrating approaches to governance and world order from both leading and emerging scholars, this is an innovative, indispensable source for policymakers, civil society organizations, professionals, and students in law, politics, economics, sociology, philosophy, and international relations.

Handbook on the Politics of International Development Deciancio, Melisa, Nemiña, Pablo, Tussie, Diana, 2022-05-24. This innovative book sets out to rethink corporate social responsibility (CSR) in global value chains.

Governing Nature and the Making of World Order Elana Wilson Rowe, Paul Beaumont, Lucas de Oliveira Paes, 2025-06-24. Available open access digitally under CC BY-NC-ND licence. How have efforts to govern nature and address urgent global environmental challenges shaped, transformed, or undermined processes of world ordering? Chapters in this book explore how efforts to govern nature have transformed or are transforming how we understand and practice world politics. Bringing together a team of contributors from around the world, the book traces this inquiry across diverse international policy fields: from security and peacebuilding through science, cooperation, and governing ecosystems to the politics of economic growth.
