Regional Economic Development Robert J. Stimson, Roger R. Stough, Brian H. Roberts, 2006-10-12 The completely reedited second edition of this book reflects recent advances and adds insightful new material The book analyzes regional economic performance and change and discusses how analysis integrates with strategies for local and regional economic development policy and planning The aim is to provide the reader with an account of

quantitative and qualitative approaches to regional economic analysis and of old and new strategic frameworks for formulating regional economic development planning **Economic Development** ,1968 **Introduction to Regional Economic Development** , *Understanding Local Economic Development* Emil Malizia,Edward J. Feser,Henry Renski,Joshua Drucker,2020-10-05 This book offers insights into the process and the practice of local economic development Bridging the gap between theory and practice it demonstrates the relevance of theory to inform local strategic planning in the context of widespread disparities in regional economic performance The book summarizes the core theories of economic development applies each of these to professional practice and provides detailed commentary on them This updated second edition includes more recent contributions regional innovation agglomeration and dynamic theories and presents the major ideas that inform economic development strategic planning particularly in the United States and Canada The text offers theoretical insights that help explain why some regions thrive while others languish and why metropolitan economies often rise and fall over time Without theory economic developers can only do what is politically feasible This text however provides them with a logical tool for thinking about development and establishing an independent basis from which to build the local consensus needed for evidence based action undertaken in the public interest Offering valuable perspectives on both the process and the practice of local and regional economic development this book will be useful for both current and future economic developers to think more profoundly and confidently about their local economy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Transitions in Regional Economic Development** Ivan Turok,David Bailey,Jennifer Clark,Jun Du,Ugo Fratesi,Michael Fritsch,John Harrison,Tom Kemeny,Dieter Kogler,Arnoud Legendijk,Tomasz Mickiewicz,Ernest Miguelez,Stefano Usai,Fiona Wishlade,2018-10-18 At a time of extraordinary challenges confronting the world this book analyses some of the profound changes occurring in the development of cities and regions It discusses the uncertainties associated with the stalling of hyper globalization and asks whether this creates opportunities for resurgent regional economies driven by local capabilities resource efficiencies and domestic production Theory and evidence on socio economic and environmental transitions underway in many regions are brought together Implications of the shifting balance of global power towards emerging economies in the East are explored along with the consequences of urbanization in the global South for politics and democracy Dilemmas surrounding migration are also discussed including whether incomers displace local workers and depress wages or bring benefits in the form of know how new technology and investment More integrative concepts of the region and theories of regional development are analysed recognising the role of human capital knowledge innovation finance infrastructure and institutions This was originally published as a special issue of *Regional Studies* Developing locally Beer, Andrew,Haughton, Graham,2003-11-26 Throughout the developed world governments have invested substantial sums in local and regional economic development Many have spent heavily on local

development agencies and strategies to bolster competitiveness within world markets What has been the impact of these actions How effective are the strategies and processes employed by development agencies How well funded are development efforts in one nation compared to another and how are their objectives defined This book addresses these questions It explores the impact and functioning of economic development agencies makes a unique contribution to the emerging literature on economic development agencies by reporting on the results of a cross national survey of economic development practitioners compares the institutional architectures of economic development in Australia England the United States and Northern Ireland analyses how these institutional arrangements affect individual agencies and their regions This book is intended for a wide audience including economic development practitioners local government officers officials within national or state governments and academics It provides the reader with a greater appreciation of how local and regional economic development systems operate in different economies and aids understanding of what makes the economic development system in each nation unique It challenges ideas about the uniformity of economic development efforts and encourages practitioners and policy makers to experiment with and explore strategies used elsewhere
