

The background of the book cover is a photograph of several oil pumpjacks (jackals) silhouetted against a dramatic sky at sunset or sunrise. The sky is filled with textured, golden-brown clouds, and the sun is low on the horizon, creating a strong backlight effect. The pumpjacks are in the foreground, their mechanical forms clearly visible against the bright sky.

in the Middle East Emily B. Landau, Tamar Malz, Zeev Maoz, 2004-11-23 Discussions on regional security were initiated in the Middle East in 1992 as part of the Middle East peace process The collapse of the Oslo process and other regional developments in the latter half of the 1990s have diminished hopes that the initial gains made in this direction might further develop as violence has again become the primary mode of effecting political changes in the region On the backdrop of this somewhat dismal current reality in the Middle East the rationale for this volume is that research into regional security structures should nevertheless be pursued When looking at the long term process of creating regional security setbacks are not unlikely The articles that make up this collection focus on the problems that have been encountered and possible directions for getting regional efforts back on track A special issue of the Journal of Strategic Studies **Regional Security**
