Regionalism Across The North South Divide:

Regionalism across the North/South Divide Jean Grugel, Wil Hout, 2003-12-16 In contrast to most studies of regionalism Grugel and Hout focus on countries not currently at the core of the global economy including Brazil and Mercosur Chile South East Asia China South Africa the Maghreb Turkey and Australia What seems clear from this original analysis is that far from being peripheral these countries are forming regional power blocs of their own which could go on to hold the balance of power in the new world order The Limits of Regionalism Robert G. Finbow, 2017-11-28 Assessing the effectiveness of the North American Agreement on Labour Cooperation NAALC this book examines the operation of the core institutions the Secretariat and National Administrative Offices over the past seven years It discusses the main functions of these institutions in hearing public submissions on violations of labour laws and in conducting research and cooperative activities Based on interview research the analysis reviews the strengths and weaknesses of the accord to assess its contribution to a common labour relations regime in North America and its impact in creating new transnational communities of actors in government and civil society in the three countries The NAALC is also compared with the social dimension of the European Union system and a final assessment is made as to whether the NAALC institutions live up to the promises of their founders and whether these can be a model for labour relations in any future Free Trade Area of the Americas FTAA agreement *New Regionalism in the Global Political Economy* Shaun Breslin, Christopher W. Hughes, Nicola Phillips, Ben Rosamond, 2002-08-22 Featuring a notable list of international contributors this book presents a systematic and stimulating discussion on regionalism covering topical issues such as recent financial crises enlargement within EU and the post Lome regionalism of Africa *North-South Regional Trade Agreements as Legal Regimes* Clair Gammage, 2017-05-26 This book offers a critical reflection of the North South regional trade agreements RTAs known as the Economic Partnership Agreements negotiated between the EU and the African Caribbean and Pacific countries Conceiving of regions as legal regimes Clair Gammage highlights the challenges facing developing countries when negotiating RTAs with developed countries and interrogates the assumption that these agreements will and can promote sustainable development through trade **Regionalism and Governance in the Americas** L. Fawcett, M. Serrano, 2005-08-25 This book links contemporary thinking on global and regional governance to the recent experience of the Americas It offers fresh insights into understanding the processes of order and change in the region and in the broader international system A particular concern is to reveal the changing contours of regional governance whether in terms of actors issue areas and relations with global structures Comparative Regionalism Fred H. Lawson, 2017-03-02 Regionalism has regained momentum in the post Cold War era New economic groupings continue to spring up across the globe while older regional organizations have strengthened their institutional bases and broadened their scope Explaining the reinvigoration of regionalism requires comparative analyses that not only highlight the commonalities that characterize various regional experiments but also

account for the differential outcomes and divergent trajectories such projects exhibit This collection of seminal articles on regionalism advances theoretical concepts that can stimulate useful comparisons along with scholarly surveys of important instances of regionalism in the contemporary world Besides classic studies of the European Union the volume includes authoritative overviews and case studies of regionalist projects in East Asia Sub Saharan Africa Latin America the Middle East and Central Eurasia An introductory essay situates these articles in the context of the five decade long research program on regional integration theory **Microregionalism and World Order** S. Breslin,G. Hook,2016-01-19

Microregionalism and World Order is a pioneering work on the least understood aspect of regionalism Leading specialists analyze the form microregionalism takes in different parts of the world including the Americas Asia Pacific and Africa By illustrating the complex relationship amongst the political economic and social dimensions of microregionalism the book seeks to contribute to the theoretical debate on regionalism as well as to provide new empirical insights **New Regionalism and the European Union** Alex Warleigh-Lack,Nick Robinson,Ben Rosamond,2011-06 The debates on regionalism have been polarized between European Union EU scholars and non EU scholars with the assumption being that regionalism within the EU and other regions of the world are quite distinct with little to be learnt from dialogue with each other This book challenges such assumptions and calls for a genuine debate between scholars of regionalism This book demonstrates that more can and needs to be learned about regional integration all over the world through comparison and reflection on specific regional trends Beginning with a theoretically driven introduction leading experts in the field are brought together to offer a series of case studies on regional integration within Latin America Africa Asia North America and Europe In Part III the authors investigate the links between the EU and selected other regional organisations and processes exploring the dynamics through which these interregional relations are developing and the implications they have for the study of contemporary regionalism regionalisation both inside and beyond the continent of Europe The conclusions set out a challenging research agenda for comparative studies in the field Addressing one of the under explored aspects of EU studies the EU s coexistence with other pan continental regional organisations in the European continent this book will be of interest to students and scholars of regionalism IPE European Studies and international politics *Italian Regionalism: Between Unitary Traditions and Federal Processes* Stelio Mangiameli,2014-06-12 The object of this book is to describe the institutional modifications of the Italian form of state more than ten years after the review of Title V Part II of the Italian Constitution for an audience that goes well beyond the Italian national boundaries The fifteen essays that make up the book discuss the birth and evolution of the Italian regionalism including those regions with Special Statutes as well as reforms of 1999 2001 A particular attention is devoted to the role of autonomy in defining regional statutes regional forms of government and regulatory and administrative powers These are subjects on which there is by now an abundant body of constitutional case law which is extensively referred to by the chapters The role of the regions vis vis the local bodies and vis

vis the European and international order is also discussed as the right to negotiate with foreign powers has now been conferred on the regions Lastly the volume presents contributions on regional finance and on the new law on fiscal federalism as well as on regional powers in the area of health and welfare

Domestic and International Perspectives on Kyrgyzstan's 'Tulip Revolution' Sally Cummings,2013-09-13 In early 2005 regional protests in Kyrgyzstan soon became national ones as protesters seized control of the country's capital Bishkek The country's president for fifteen years Askar Akaev fled the country and after a night of extensive looting a new president Kurmanbek Bakiev came to power The events quickly earned the epithet Tulip Revolution and were interpreted as the third of the colour revolutions in the post Soviet space following Ukraine and Georgia But did the events in Kyrgyzstan amount to a revolution How much change followed and with what academic and policy implications This innovative unique study of these events brings together a new generation of Kyrgyz scholars together with established international observers to assess what happened in Kyrgyzstan and after and the wider implications This book was published as a special issue of *Central Asian Survey*

of regions from a range of perspectives and assess leading contemporary examples **Regional Identities in North-East England, 1300-2000** Adrian Gareth Green, A. J. Pollard, 2007 Is North East England really a coherent and self conscious region The essays collected here address this topical issue from the middle ages to the present day Regional Policy in Britain Paul N. Balchin, 2021-07-11 Originally published in 1990 this book examines the extent to which the north south divide in the UK has been a reality in recent years It also reveals the degree to which the gap between the two parts of Britain has worsened An issue of enduring relevance particularly given the political drive to level up the regions the book focusses particularly on the 1980s a period when regional assistance became a victim of both monetarism and free market ideology The book reviews legislation and considers whether regional policy has been effective and consistent To widen the debate the author questions some common assumptions about regional imbalance and argues that intraregional disparities and the plight of Inner London were causes of concern no less serious than the problem of the north south imbalance
