centric approaches to regionalism Towards a Better Regional Approach to Development in West Africa Conclusions of the Special Event of Sahel and West Africa Club, May 2002 OECD, Sahel and West Africa Club, 2004-03-23 This book presents the conclusions of a meeting of the Sahel and West Africa Club in Accra Ghana in May 2002 on the following topic Towards a Better Regional Approach to Development in West Africa *Regional and Global Regulation of International Trade* Francis Snyder, 2002-07-05 The processes of legal and economic integration at a regional and global scale have created powerful legal and economic dilemmas They challenge the paradigms of constitutionalism including the State's monopoly of constitutionalism the autonomy of national political communities and the traditional forms of participation and representation The phenomena of globalisation and regional forms of governance have promoted the interdependence of national political communities and destroyed the artificial boundaries upon which national constitutional democracies are found and from which they derive their legitimacy Furthermore it is inevitable that the development of international trade and economic integration will raise claims for some form of global distributive justice to complement the wealth maximisation arising from free trade This will come from the gradual development of global forms of political discourse and law making challenging State constitutionalism and requiring some of the instruments and theories of constitutionalism The essays in this collection written by leading scholars in international trade law argue the pros and cons of greater regional and global regulation They conclude that whatever the final framework for international trade the critical decisions about institutional form and content will be decided in an emerging global political arena They help to identify this political arena who governs it and according to which rules and identify the different institutional alternatives in that global political arena Handbook on Global Governance and Regionalism Jürgen Rüland, Astrid Carrapatoso, 2022-11-18 This Handbook expertly explores the profound transformations in international relations in recent decades Proliferating cross border challenges including global financial crises climate change environmental degradation irregular migration and COVID 19 require governance structures that transcend the nation state and take both global and regional interplay as well as problem solving capacities into account Contributing authors investigate the effectiveness of international cooperation and performance in a diverse range of policy fields Regional Policy in the Southern African Development Community J. Sub-regionalisms in the European Union: Bridge-builders or spoilers? Anna-Lena Kirch, 2021-09-14 In today's interconnected differentiated and polarized European Union sub regional groupings between the national and EU level are a highly relevant empirical phenomenon Despite their importance the interactions between sub regionalisms and EU actors and processes remain under researched This book fills this large research gap by applying a systematic comparative approach Taking into account a huge corpus of empirical data gained through expert interviews and document analysis this study provides the conceptual and empirical groundwork necessary to better understand EU sub regionalism For the timeframe between 2009 and 2018 it analyses the scope of sub regional cooperation in the Baltic Benelux and Visegrád groupings Moreover it compares their respective institutional design political identity foreign policy as well as their external recognition by EU actors A special focus lies on their role in six EU policy cases including EU budget negotiations TTIP the drafting process of the EU Global Strategy refugee relocation quotas the revision of the posted workers directive and defence cooperation through PESCO In its conclusion this book identifies two sub regional archetypes functional hubs and political tools While differing in many regards the shared assessment finds that the overall bridge building efforts of the Baltic Benelux and Visegrád sub regionalisms exceed their spoiling potential

Selling One's Favourite Piano to Emigrate Jakub Isański, Piotr Luczys, 2011-05-25 International migration is a common phenomenon of the contemporary world however not all the aspects of migration are adequately investigated In this book migration is described by academics from various European countries who see it not only as an economic but mainly as a social process Thirteen texts written by authors from seven countries consider migration from various perspectives regarding its social consequences for migrants their families and entire societies Although the majority of the texts pertain to the Polish context connected with Poles as migrants but not necessarily Poland as a country in general the book can be qualified as an illustration of current migration from the less developed parts of the unified Europe which impacts on the economies and societies of the European continent A few years ago one had to sell their favourite belonging a piano to collect money for the journey These days it is much more accessible but not less complex and various examples from this book offer a unique insight into the variety of human flows in the contemporary world
