

Hispano-American Congresses, 1829-1865

These congresses were the first attempts at regional integration and served as the foundation for subsequent experiments.

Pan-American and Inter-American Integration, 1889-1948

The first pan-American conference, called by the United States in 1889, initiated a regional process of institutional cooperation, extending the spheres of action and the number of states.

Regional integration initiatives in the Americas: 1950s and 1960s

Post WWII regional entities are inter-governmental, but they are confronted with economic and political nationalism and US hegemony.

Regional integration initiatives in the Americas: May 2018

The Americas have been taking part in neoregionalism since the 1980s with new agreements or by breathing new life into old ones, and then went even further with ALBA, CELAC and UNASUR.

Regionalism In America

**Vernon Rosco Carstensen, Gordon
Rufus Clapp, John Walton Caughey**

Regionalism In America:

Regionalism In America, 1951 *Regionalism in America* Merrill Jensen, University of Wisconsin, Felix Frankfurter, Vernon Rosco Carstensen, John Walton Caughey, Gordon Rufus Clapp, Merle Eugene Curti, John M. Gaus, William Best Hesseltine, John Fabian Kienitz, Hans Kurath, Fulmer Mood, Rexford Newcomb, Howard Washington Odum, Lancaster Pollard, Edgar Preston Richardson, Walter A. Rowlands, Francis Butler Simkins, Benjamin Townley Spencer, Louis Wirth, Rupert Bayless Vance, 1952 **Regionalism in America** Merrill Jensen, 1965 **Regionalism in America** University of Wisconsin Staff, 2003-01-01 *North American Regionalism* Eric Hershberg, Tom Long, 2025-02-01 North American Regionalism problematizes North America as an important region in its own right breaking with the area studies convention that divides the Global North and Global South portions of the Western Hemisphere at the US Mexican border By cutting across this division the theoretically sophisticated essays in this volume yield new insights about politics society and the economy of North America opening dialogues with the New Regionalism approach and the literature on comparative regional studies Drawing on a six year interdisciplinary collaboration among leading scholars from Canadian Mexican US and European universities the book brings North America back into International Relations study of regions and regionalism The book includes robust theoretical and empirical engagement with issues of trade migration security energy and climate and the rise of China **Regionalism in America** Vernon Rosco Carstensen, Gordon Rufus Clapp, John Walton Caughey, 1951 **Exploring the New South American Regionalism (NSAR)** Ernesto Vivares, 2016-04-15 The events and processes that have taken place in the last decade in South America have given way to one of the most interesting regional phenomena under a global crisis and within a changing world order From the traditional status of Washington's backyard and reign of economic and political stability South America has increasingly turned into a region marked by a heterodox development in the light of other dominant regional tendencies of development the European Union NAFTA and the Asia Pacific The political economic nature of the new South American regionalism NSAR is far from echoing the dominant interpretations about it which reflects the major regional projects today Given the reach and scope of the existing literature on the topic of the NSAR there is an important gap concerning its academic exploration in relation to its nature of development political economic complexity challenges and orientations In this sense this book explores from a wider and pluralist political economic perspective the developmental dimensions of the NSAR within a changing hemispheric and world order in transformation It analyses a set of specific debates regionalism in the Americas then and now social and economic development and regional integration and organized crime intelligence and defence An in depth and critical reflection on the complex and heterogeneous path of regionalization taking place in South America from different perspectives and in key issues of regional development **The New American Regionalism** Heinz Gert Preusse, 2004 **Harvard Guide to American History** Frank Freidel, Frank Burt Freidel, Richard K. Showman, 1974 Editions for 1954 and 1967 by O Handlin and others **The**

Cambridge History of American Music David Nicholls, 1998-11-19 The Cambridge History of American Music first published in 1998 celebrates the richness of America's musical life. It was the first study of music in the United States to be written by a team of scholars. American music is an intricate tapestry of many cultures and the History reveals this wide array of influences from Native European African Asian and other sources. The History begins with a survey of the music of Native Americans and then explores the social historical and cultural events of musical life in the period until 1900. Other contributors examine the growth and influence of popular musics including film and stage music jazz rock and immigrant folk and regional musics. The volume also includes valuable chapters on twentieth century art music including the experimental serial and tonal traditions.

A Companion to the Regional Literatures of America Charles L. Crow, 2008-04-15 The Blackwell Companion to American Regional Literature is the most comprehensive resource yet published for study of this popular field. The most inclusive survey yet published of American regional literature. Represents a wide variety of theoretical and historical approaches. Surveys the literature of specific regions from California to New England and from Alaska to Hawaii. Discusses authors and groups who have been important in defining regional American literature.

New Regionalism and the European Union Alex Warleigh-Lack, Nick Robinson, Ben Rosamond, 2011-06-01 The debates on regionalism have been polarized between European Union (EU) scholars and non EU scholars with the assumption being that regionalism within the EU and other regions of the world are quite distinct with little to be learnt from dialogue with each other. This book challenges such assumptions and calls for a genuine debate between scholars of regionalism. This book demonstrates that more can and needs to be learned about regional integration all over the world through comparison and reflection on specific regional trends. Beginning with a theoretically driven introduction leading experts in the field are brought together to offer a series of case studies on regional integration within Latin America Africa Asia North America and Europe. In Part III the authors investigate the links between the EU and selected other regional organisations and processes exploring the dynamics through which these interregional relations are developing and the implications they have for the study of contemporary regionalism regionalisation both inside and beyond the continent of Europe. The conclusions set out a challenging research agenda for comparative studies in the field. Addressing one of the under explored aspects of EU studies the EU's coexistence with other pan continental regional organisations in the European continent this book will be of interest to students and scholars of regionalism IPE European Studies and international politics.

Interregionalism and the Americas Andreas Falke, Gian Luca Gardini, Simon Koschut, 2018-10-15 This book addresses the question of how the American continent engages with various forms of interregionalism including how different regions within the Americas deal with other regions of the world as well as how they relate among themselves. The presence of different political economic and cultural sub regions within the Americas makes the continent a perfect setting to explore differences and commonalities in the western hemisphere's relationship with other regions across the globe. Interregionalism and the Americas tackles three

unifying questions First what type and understanding of interregionalism characterize the Americas way to interregionalism if any Second is summitry ultimately the major visible feature of interregionalism in the Americas and beyond Third is there anything typical or characteristic in the way in which the Americas engage with interregionalism This book contributes both to the theoretical debates about interregionalism and to the empirical understanding of the phenomenon and makes a compelling case to strengthen the inter American system and to advance a trilateral interregionalism mechanism between North America Latin America and Europe to stand up for their common values norms and preferred international order

Regionalism in America Walter Curt Behrendt, 1943 **Trends in Latin American International Relations** Peter Birle, Claudia Zilla, 2025-10-09 Since the beginning of US President Donald Trump s second term the already volatile international order has faced increasingly disruptive developments and fundamental challenges This volume outlines and analyses the role of Latin America as a whole and of individual countries including Argentina Brazil Chile Colombia and Mexico in the new global dis order The book is divided into three parts The first contains contributions on regional dynamics in Latin America What do global developments mean for Latin America s development options What are the consequences for Latin American regionalism Why have regional democracy clauses repeatedly proved ineffective The second part examines the role of external actors in Latin America the USA China the European Union and Russia The third section analyses the foreign policies of single states and asks what role concepts such as active non alliance and feminist foreign policy play for Latin America In their concluding remarks the editors analyse the potential consequences of Trump s policies for the topics covered in the volume after the first 100 days of his Administration The volume provides an up to date theory based examination of key issues in Latin American international relations and is essential reading for scholars students policymakers and others interested in Latin American international relations Many Wests David M. Wrobel, Michael C. Steiner, 1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West s regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people

live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West as different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions

Regionalists on the Left Michael C. Steiner, 2015-02-02 Nothing is more anathema to a serious radical than regionalism Berkeley English professor Henry Nash Smith asserted in 1980 Although regionalism in the American West has often been characterized as an inherently conservative backward looking force regionalist impulses have in fact taken various forms throughout U S history The essays collected in Regionalists on the Left uncover the tradition of left leaning western regionalism during the 1930s and 1940s Editor Michael C Steiner has assembled a group of distinguished scholars who explore the lives and works of sixteen progressive western intellectuals authors and artists ranging from nationally prominent figures such as John Steinbeck and Carey McWilliams to equally influential though less well known figures such as Angie Debo and Amrico Paredes Although they never constituted a unified movement complete with manifestos or specific goals the thinkers and leaders examined in this volume raised voices of protest against racial environmental and working class injustices during the Depression era that reverberate in the twenty first century Sharing a deep affection for their native and adopted places within the West these individuals felt a strong sense of avoidable and remediable wrong done to the land and the people who lived upon it motivating them to seek the root causes of social problems and demand change Regionalists on the Left shows also that this radical regionalism in the West often took urban working class and multicultural forms Other books have dealt with western regionalism in general but this volume is unique in its focus on left leaning regionalists including such lesser known writers as B A Botkin Carlos Bulosan Sanora Babb and Joe Jones Tracing the relationship between politics and place across the West Regionalists on the Left highlights a significant but neglected strain of western thought and expression

Handbook on the Geographies of Regions and Territories Anssi Paasi, John Harrison, Martin Jones, 2018-07-27 This new international Handbook provides the reader with the most up to date and original viewpoints on critical debates relating to the rapidly transforming geographies of regions and territories as well as related key concepts such as place scale networks and regionalism Bringing together renowned specialists who have extensively theorized these spatial concepts and contributed to rich empirical research in disciplines such as geography sociology political science and IR studies this interdisciplinary collection offers fresh cutting edge and contextual insights on the significance of regions and territories in today's dynamic world

America's Folklorist Lawrence R. Rodgers, 2014-10-20 Folklorist writer editor regionalist cultural activist Benjamin Albert Botkin 1901 1975 was an American intellectual who made

a mark on the twentieth century even though most people may be unaware of it This book the first to reevaluate the legacy of Botkin in the history of American culture celebrates his centenary through a collection of writings that assess his influence on scholarship and the American scene Through his work with the Federal Writers Project during the New Deal the Writers Unit of the Library of Congress Project and the Archive of American Folksong Botkin did more to collect and disseminate the nation s folk cultural heritage than any other individual in the twentieth century This volume focuses on Botkin s eclectic but interrelated concerns work and vision and offers a detailed sense of his life milieu influences and long term contributions Just as Botkin boldly cut across the boundaries between high and low popular and folk this book brings together reflections that range from the historical to the philosophical to the disarmingly personal One group of articles looks at his career and includes the first extended analysis of Botkin s poetry another probes the fruitful relationships Botkin had with leading musicologists composers poets and intellectuals of his day This is also the first book to bring together a collection of Botkin s best known writings giving readers an opportunity to appreciate his wide ranging mind and clear often memorable prose For Botkin the blurring of art and science literature and folklore was not just a philosophy but a way of life This book reflects that life and invites fans and those new to Botkin to appraise his lasting contributions

Governing the Metropolitan Region: America's New Frontier: 2014 David Y Miller,Raymond Cox,2015-01-28 This text is aimed at the basic local government management course upper division or graduate that addresses the structural political and management issues associated with regional and metropolitan government It also can complement more specialized courses such as urban planning urban government state and local politics and intergovernmental relations

This is likewise one of the factors by obtaining the soft documents of this **Regionalism In America** by online. You might not require more get older to spend to go to the ebook launch as without difficulty as search for them. In some cases, you likewise complete not discover the statement Regionalism In America that you are looking for. It will entirely squander the time.

However below, as soon as you visit this web page, it will be hence utterly simple to acquire as well as download lead Regionalism In America

It will not put up with many times as we explain before. You can complete it though statute something else at house and even in your workplace. appropriately easy! So, are you question? Just exercise just what we have enough money under as with ease as evaluation **Regionalism In America** what you gone to read!
