Regions of the Imagination W. J. Keith, 1988      British Short Fiction in the Early Nineteenth Century Tim

Killick, 2016-05-23 In spite of the importance of the idea of the tale within Romantic era literature short fiction of the period has received little attention from critics Contextualizing British short fiction within the broader framework of early nineteenth century print culture Tim Killick argues that authors and publishers sought to present short fiction in book length volumes as a way of competing with the novel as a legitimate and prestigious genre Beginning with an overview of the development of short fiction through the late eighteenth century and analysis of the publishing conditions for the genre including its appearance in magazines and annuals Killick shows how Washington Irving's hugely popular collections set the stage for British writers Subsequent chapters consider the stories and sketches of writers as diverse as Mary Russell Mitford and James Hogg as well as didactic short fiction by authors such as Hannah More Maria Edgeworth and Amelia Opie His book makes a convincing case for the evolution of short fiction into a self conscious intentionally modern form with its own techniques and imperatives separate from those of the novel      **The Cambridge Companion to British Literature of the**

Ordeal takes a sharp look at central aspects of the critical reception of Thomas Hardy It demonstrates how critical appropriations of Hardy's work often provide a simplifying conventional or conservative image of the writer which a sophisticated view of his creative intentions by no means confirms Edward Neill discusses the dangers inherent in interpreting Hardy's writings in terms of his life the limitations of criticism that views his work as nostalgic reaction

approaches to the poetry and the critical response to *Jude the Obscure*      **The Image of Georgian Bath 1700-2000** Peter Borsay, 2000-07-06 This interdisciplinary study explores the evolution structure and uses of the image of Georgian Bath from its genesis in the eighteenth century to its renaissance in the twentieth century In recent decades there has been both a popular resurgence of interest in heritage and tradition and a growing academic awareness of the power of imagery in shaping the lives of individuals and societies There is perhaps no city in Britain so saturated in history and layered with historic imagery as Bath It therefore provides an ideal case study to investigate the dynamic fusion and impact of the forces of past and representation The dominant perception of Bath today is that of a classical and particularly Georgian city In this stimulating and scholarly study Peter Borsay examines the construction and development of this image Its principal components biography and architecture are explored together with the media through which it was constructed and transmitted as well as its commercial social political and psychological uses Dr Borsay concludes by relating the findings for Bath to current debates on towns heritage and the nature of history      Lorna Doone Richard Doddridge Blackmore, 1993 Wordsworth Classics covers a huge list of beloved works of literature in English and translations This growing series is rigorously updated with scholarly introductions and notes added to new titles      *Sources of Regionalism in the Nineteenth Century* Linda Van Santvoort, Tom Verschaffel, 2008 KADOC Artes 9 Architectural concepts and styles seem to flourish on a variety of levels from the most local of contexts to the global This book investigates regionalism which is often conceived today as a late nineteenth century phenomenon because of the preservation and restoration movements that arose during that period Derived from the workshop The Sources of Regionalism held by the FWO research group World Views Cultural Identities and Architecture in Western Europe 1815 1940 the essays in this book examine the meaning of regionalism in architecture art and literature its sources and its cultural and historical background The contributors focus on the nineteenth century and the years of the twentieth century before World War I and focus geographically on Western Europe with an emphasis on Belgium France and England Together their essays provide a thorough examination of the complexity and multilayered quality of regionalism      *A Companion to Thomas Hardy* Keith Wilson, 2009-05-04 Through original essays from a distinguished team of international scholars and Hardy specialists A Companion to Thomas Hardy provides a unique one volume resource which encompasses all aspects of Hardy s major novels short stories and poetry Informed by the latest in scholarly critical and theoretical debates from some of the world s leading Hardy scholars Reveals groundbreaking insights through examinations of Hardy s major novels short stories poetry and drama Explores Hardy s work in the context of the major intellectual and socio cultural currents of his time and assesses his legacy for subsequent writers      **The Routledge Handbook of Literary Geographies** Neal Alexander, David Cooper, 2024-08-09 The Routledge Handbook of Literary Geographies provides a comprehensive overview of recent research and a range of innovative ways of thinking literature and geography together It maps the history of literary geography and identifies key developments and debates in the field

In Churchill's Shadow David Cannadine, 2003 With *In Churchill's Shadow* David Cannadine offers an intriguing look at ways in which perceptions of a glorious past have continued to haunt the British present often crushing efforts to shake them off The book centers on Churchill a titanic figure whose influence spanned the century Though he was the savior of modern Britain Churchill was a creature of the Victorian age Though he proclaimed he had not become Prime Minister to preside over the liquidation of the British Empire in effect he was doomed to do just that And though he has gone down in history for his defiant orations during the crisis of World War II Cannadine shows that for most of his career Churchill's love of rhetoric was his own worst enemy Cannadine turns an equally insightful gaze on the institutions and individuals that embodied the image of Britain in this period Gilbert Sullivan Ian Fleming Noel Coward the National Trust and the Palace of Westminster itself the home and symbol of Britain's parliamentary government This superb volume offers a wry sympathetic yet penetrating look at how national identity evolved in the era of the waning of an empire

**The Visible Poor** Joel Blau, 1992 Taking an in depth look at the causes of homelessness in the United States Joel Blau disproves the convenient myths that most homeless are crazy drug addicts or lazy misfits who brought their suffering upon themselves He shows that the current crisis was an inevitable result of economic and political changes in recent decades systematically reviewing the explanations offered by researchers politicians and pundits from the deinstitutionalization of mental patients in the 1960s to the gentrification of urban neighborhoods in the 1970s to the evisceration of federal spending on social welfare in the 1980s Blau argues that current government policies at every level are mired in pointless headcounting and quick fix solutions that only push the homeless out of sight without touching the underlying causes He advocates social reforms ranging from a national standard for welfare benefits a higher minimum wage and establishment of a social sector for non profit affordable housing A powerful contribution to public debate on homelessness *The Visible Poor* must be read by concerned citizens as well as by policy makers and advocates

Lifescapes Jeremy Burchardt, 2023-05-11 Why does landscape matter to us We rarely articulate the often highly individual ways it can do so Drawing on eight remarkable

unpublished diaries Jeremy Burchardt demonstrates that responses to landscape in modern Britain were powerfully affected by personal circumstances especially those experienced in childhood and youth Four major patterns are identified Adherers valued landscape for its continuity Withdrawers for the refuge it provides from perceived threats Restorers for its sustaining of core value systems and Explorers for its opportunities for self discovery and development Lifescapes sets out a new approach to landscape history based on comparative biography and deep contextualization which has far reaching implications It foregrounds family structures and relationships and the psychological dynamics they generate These it is argued were usually a more decisive presence in landscape encounters than wider cultural patterns and forces Seen in this way landscape can be understood as a mirror reflecting our innermost selves and the psychosocial influences shaping our development This is a compelling and original study of the relationship between individual lives and landscapes

**Love in a Green Shade** Richard F. Hardin, 2000-01-01 Love in a Green Shade examines for the first time in depth the reception history of Daphnis and Chloe in literature beginning with its Renaissance rediscovery and working through its various transformations in English French Spanish and other literatures At the same time Richard F Hardin launches a groundbreaking exploration of the idyllic romance tradition in fiction and drama While Virgil and Theocritus beget a tradition of poetry concerned with male eroticism idyllic romance centers on the couple in a story pointing toward marriage In addition to Daphnis and Chloe this study considers numerous works influenced by the idyllic romance tradition including Shakespeare's The Tempest Milton's Paradise Lost Bernardin's Paul et Virginie Stowe's The Pearl of Orr's Island Cather's O Pioneers novels by Sand Hardy and Pardo Bazan Louis Hemon's Maria Chapdelaine and Mishima's The Sound of Waves

**Seamus Heaney's Regions** Richard Rankin Russell, 2014-06-30 Regional voices from England Ireland and Scotland inspired Seamus Heaney the 1995 Nobel prize winner to become a poet and his home region of Northern Ireland provided the subject matter for much of his poetry In his work Heaney explored recorded and preserved both the disappearing agrarian life of his origins and the dramatic rise of sectarianism and the subsequent outbreak of the Northern Irish Troubles beginning in the late 1960s At the same time Heaney consistently imagined a new region of Northern Ireland where the conflicts that have long beset it and by extension the relationship between Ireland and the United Kingdom might be synthesized and resolved Finally there is a third region Heaney committed himself to explore and map the spirit region that world beyond our ken In Seamus Heaney's Regions Richard Rankin Russell argues that Heaney's regions the first geographic historical political cultural linguistic the second a future where peace even reconciliation might one day flourish the third the life beyond this one offer the best entrance into and a unified understanding of Heaney's body of work in poetry prose translations and drama As Russell shows Heaney believed in the power of ideas and the texts representing them to begin resolving historical divisions For Russell Heaney's regionalist poetry contains a Hegelian synthesis view of history that imagines potential resolutions to the conflicts that have plagued Ireland and Northern Ireland for centuries Drawing on

extensive archival and primary material by the poet Seamus Heaney's *Regions* examines Heaney's work from before his first published poetry volume *Death of a Naturalist* in 1966 to his most recent volume the elegiac *Human Chain* in 2010 to provide the most comprehensive treatment of the poet's work to date      **Encyclopedia of British Women's Writing 1900-1950**

who have in common their use of the English language The authors are from all over the world and their subject matter ranges from Shakespeare to Hardy from Margaret Oliphant to Kazuo Ishiguro and from the Canadian prairies to the Falklands War
