Death and Burial in Medieval England 1066-1550 Christopher Daniell,2005-06-20 Death had an important and pervasive presence in the middle ages It was a theme in medieval public life finding expression both in literature and art The beliefs and procedures accompanying death were both complex and fascinating Christopher Daniell s approach to this subject is unusual In bringing together knowledge accumulated from historical archaeological and literary sources The book includes the very latest research both of the author and of others working in this area The result is a comprehensive and vivid picture of the entire phenomenon of medieval death and burial Thirteenth Century England V Peter R. Coss,Simon D. Lloyd,1995 Studies in economic political and social history in 13c England Excommunication in Thirteenth-Century England Felicity Hill,2022-05-12 Excommunication was the medieval churchs most severe sanction used against people at all levels of society It was a spiritual social and legal penalty Excommunication in Thirteenth Century England offers a fresh perspective on medieval excommunication by taking a multi dimensional approach to discussion of the sanction Using England as a case study Felicity Hill analyzes the intentions behind excommunication how it was perceived and received at both national and local level the effects it had upon individuals and society The study is structured thematically to argue that

our understanding of excommunication should be shaped by how it was received within the community as well as the intentions of canon law and clerics Challenging past assumptions about the inefficacy of excommunication Hill argues that the sanction remained a useful weapon for the clerical elite bringing into dialogue a wide range of source material allows effectiveness to be judged within a broader context The complexity of political communication and action are revealed through public conflicting accepted and rejected excommunications Excommunication could be manipulated to great effect in political conflicts and was an important means by which political events were communicated down the social strata of medieval society Through its exploration of excommunication the book reveals much about medieval cursing pastoral care fears about the afterlife social ostracism shame and reputation and mass communication

written essays that augment Brundage's work on the growth of the legal profession and how traces of a legal education began to emerge in many diverse arenas. The influence of legal thinking on marriage and sexuality was another aspect of Brundage's broad interests. In the third section, Richard Kay, Charles Donahue Jr and Glenn Olsen explore the intersection of law and marriage and the interplay of legal thought on a central institution of Christian society. The contributions of Jonathan Riley-Smith and Robert Somerville in the fourth section round out the volume and are devoted to Brundage's path-breaking work on medieval law and the crusading movement. The Clergy in the Medieval World Julia Barrow, 2015-01-15. Unlike monks and nuns, clergy have hitherto been sidelined in accounts of the Middle Ages but they played an important role in medieval society. This first broad-ranging study in English of the secular clergy examines how ordination provided a framework for clerical life cycles and outlines the influence exerted on secular clergy by monastic ideals before tracing typical career paths for clerics. Concentrating on northern France, England and Germany in the period c. 800–c. 1200, Julia Barrow explores how entry into the clergy usually occurred in childhood with parents making decisions for their sons, although other relatives, chiefly clerical uncles, were also influential. By comparing two main types of family structure, Barrow supplies an explanation of why Gregorian reformers faced little serious opposition in demanding an end to clerical marriage in the eleventh and twelfth centuries. Changes in educational provision c. 1100 also help to explain growing social and geographical mobility among clerics.

The Heads of Religious Houses David M. Smith, Vera C. M. London, 2001-08-09. This book is a continuation of *The Heads of Religious Houses: England and Wales, 940–1216*, edited by David Knowles, C. N. L. Brooke and Vera London, which itself is reissued with substantial addenda by Professor Brooke. This present volume continues the lists from 1216 to 1377. In this period, further record sources have been provided by episcopal registers, governmental enrolments, court records and so on. Full references are given for establishing the dates and outline of the career of each abbot or prior, abbess or prioress when known. The lists are arranged by order: the Benedictine houses, independent dependencies and alien priories, the Cluniacs, the Grandmontines, the Cistercians, the Carthusians, the Augustinian canons, the Premonstratensians, the Gilbertine order, the Trinitarian houses, the Bonhommes and the nuns. An introduction discusses the nature, use and history of the lists and examines critically the
