Regula Monachorum:

The Divine Office in the Latin Middle Ages Margot E. Fassler, Rebecca A. Baltzer, 2000-08-17 The Divine Office the cycle of daily worship other than the Mass is the richest source of liturgical texts and music from the Latin Middle Ages However its richness the great diversity of its manuscripts and its many variations from community to community have made it difficult to study and it remains largely unexplored terrain This volume is a practical guide to the Divine Office for students and scholars throughout the field of medieval studies The book surveys the many questions related to the Office and presents the leading analytical tools and research methods now used in the field Beginning with the Office in the early Middle Ages the book covers manuscript sources and their contents regional developments and variations the relationship between the Office the Mass and other ceremonies and repertories and the deep links between the Office and medieval hagiography The book concludes with a discussion of recent technical advances for handling the enormous amounts of evidence on the Office and its performance in particular CANTUS the vast electronic database developed by Ruth Steiner of Catholic University for the analysis of chant repertories The Divine Office in the Latin Middle Ages is an essential resource for anyone studying medieval liturgy Its accessible style and broad coverage make it an important basic reference for a wide range of students and scholars in art history religious studies social history literature musicology and theology

The Corrupter of Boys Dyan Elliott, 2020-11-27 In the fourth century clerics began to distinguish themselves from members of the laity by virtue of their augmented claims to holiness Because clerical celibacy was key to this distinction religious authorities of all stripes patristic authors popes theologians canonists monastic founders and commentators became progressively sensitive to sexual scandals that involved the clergy and developed sophisticated tactics for concealing or dispelling embarrassing lapses According to Dyan Elliott the fear of scandal dictated certain lines of action and inaction the consequences of which are painfully apparent today In *The Corrupter of Boys* she demonstrates how in conjunction with the requirement of clerical celibacy scandal averse policies at every conceivable level of the ecclesiastical hierarchy have enabled the widespread sexual abuse of boys and male adolescents within the Church Elliott examines more than a millennium's worth of doctrine and practice to uncover the origins of a culture of secrecy and concealment of sin She charts the continuities and changes from late antiquity into the high Middle Ages in the use of boys as sexual objects before focusing on four specific milieus in which boys and adolescents would have been especially at risk in the high and later Middle Ages the monastery the choir the schools and the episcopal court *The Corrupter of Boys* is a work of stunning breadth and discomfiting resonance as Elliott concludes that the same clerical prerogatives and privileges that were formulated in late antiquity and the medieval era and the same strategies to cover up the abuses they enable remain very much in place

Columbanus Michael Lapidge, 1997 Essays investigating the writings attributed to Columbanus influential 6c founder of Luxeuil and Bobbio [The Regula Monachorum of Saint Columbanus, Abbot Saint Columban, 1942](#) *Columbanus and the Peoples of Post-Roman Europe*

Alexander O'Hara, 2018-04-11 The period 550 to 750 was one in which monastic culture became more firmly entrenched in Western Europe. The role of monasteries and their relationship to the social world around them was transformed during this period as monastic institutions became more integrated in social and political power networks. This collected volume of essays focuses on one of the central figures in this process: the Irish ascetic exile and monastic founder Columbanus c. 550-615, his travels on the Continent and the monastic network he and his Frankish disciples established in Merovingian Gaul and Lombard Italy. The post-Roman kingdoms through which Columbanus travelled and established his monastic foundations were made up of many different communities of peoples. As an outsider and immigrant, how did Columbanus and his communities interact with these peoples? How did they negotiate differences and what emerged from these encounters? How societies interact with outsiders can reveal the inner workings and social norms of that culture. This volume aims to explore further the strands of this vibrant contact and to consider all of the geographical spheres in which Columbanus and his monastic communities operated: Ireland, Merovingian Gaul, Alamannia, Lombard Italy, and the varieties of communities he and his successors came in contact with, whether they be royal, ecclesiastic, aristocratic, or grass roots. *The Visigoths in Gaul and Spain A.D. 418-711* Alberto Ferreiro, 2023-11-27 **Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms** Renie S. Choy, 2016-11-17 In early medieval Europe, monasticism constituted a significant force in society because the prayers of the religious on behalf of others featured as powerful currency. The study of this phenomenon is at once full of potential and peril, rightly drawing attention to the wider social involvement of an otherwise exclusive group but also describing a religious community in terms of its service provision. Previous scholarship has focused on the supply and demand of prayer within the medieval economy of power, patronage, and gift exchange. *Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms* is the first volume to explain how this transactional dimension of prayer factored into monastic spirituality. Renie S. Choy uncovers the relationship between the intercessory function of monasteries and the ascetic concern for moral conversion in the minds of prominent religious leaders active between c. 750-820. Through sustained analysis of the devotional thought of Benedict of Aniane and contemporaneous religious reformers during the reigns of Charlemagne and Louis the Pious, Choy examines key topics in the study of Carolingian monasticism: liturgical organization and the intercessory performances of the Mass and the Divine Office; monastic theology and relationships of prayer within monastic communities and with the world outside. Arguing that monastic leaders showed new interest on the intersection between the interiority of prayer and the functional world of social relationships, this study reveals the ascetic ideal undergirding the provision of intercessory prayer by monasteries. *The Life of St. Columban (St. Columbanus of Bobbio)* Mrs. Thomas Concannon, 1915 *The Visigoths in Gaul and Iberia (Update)* Alberto Ferreiro, 2014-07-03 The bibliography includes material published from 2010 to 2012. Following on from the first bibliography (Brill 1988) and its updates (Brill 2006, 2008, 2011), this volume covers recent literature on Archaeology, Liturgy, Monasticism, Iberian, Gallic,

Patristics Paleography Linguistics Germanic and Muslim Invasions and more In addition peoples such as the Vandals Sueves Basques Alans and Byzantines are included The book contains author and subject indexes and is extensively cross indexed for easy consultation A periodicals index of hundreds of journals accompanies the volume Further updates are to be expected at intervals of three years Studia patristica ,1975 Papers presented to the International Conference on Patristic Studies 2d

1955 **Jonas of Bobbio and the Legacy of Columbanus** Alexander O'Hara,2018-06-01 Jonas of Bobbio writing in the mid seventh century was not only a major Latin monastic author but also an historical figure in his own right Born in the ancient Roman town of Susa in the foothills of the Italian Alps he became a monk of Bobbio the monastery founded by the Irish exile Columbanus soon after his death in 615 He became the archivist and personal assistant to successive Bobbio abbots travelled to Rome to obtain the first papal privilege of immunity and served as a missionary priest on the northern borderlands of the Frankish kingdom He spent the rest of his life in Merovingian Gaul as abbot of the double monastic community of Marchiennes Hamage where he wrote his Life of Columbanus one of the most influential works of early medieval hagiography This book the first major study devoted to Jonas of Bobbio his corpus of three saints Lives and the Columbanian familia explores the development of the Columbanian monastic network and its relationship to its founder The Life of Columbanus was written following a period of crisis within the Columbanian familia and it was in response to this crisis that the Bobbio community in Lombard Italy commissioned Jonas to write the work Alexander O Hara presents the Life of Columbanus as a subtle and clever critique of the changes and crises that had taken place in the monastic communities since Columbanus s death It also considers the life of Jonas as reflecting many of the changing political cultural and religious circumstances of the seventh century and his writings as instrumental in shaping new concepts of sanctity and community The result of the study is a unique perspective on the early medieval Age of Saints and the monastic and political worlds of Merovingian Gaul and Lombard Italy in the seventh century Subject-index of the London Library, St. James's Square,

London London Library,Charles Theodore Hagberg Wright,Christopher James Purnell,1909 **Papers presented to the Sixth International Conference on Patristic Studies held in Oxford 1971, Part II: Classica et Hellenica, Theologica, Liturgica, Ascetica** Elizabeth A. Arnaldi de Villanova De esu carni Arnaldus (de Villanova),1981 *Medieval Monasticisms* Steven

Vanderputten,2020-03-23 From the deserts of Egypt to the emergence of the great monastic orders the story of late antique and medieval monasticism in the West used to be straightforward But today we see the story as far messier less linear less unified and more historicized In the first part of this book the reader is introduced to the astonishing variety of forms and experiences of the monastic life their continuous transformation and their embedding in physical socio economic and even personal settings The second part surveys and discusses the extensive international scholarship on which the first part is built The third part a research tool rounds off the volume with a carefully representative bibliography of literature and primary sources *The Church in the Age of Feudalism* Friedrich Kempf,1980 *The Irish in Early Medieval Europe* Roy Flechner,Sven Meeder,2017-09-16 Irish scholars who arrived in Continental Europe in the early Middle Ages are often credited with making some of the most important contributions to European culture and learning of the time from the introduction of a new calendar to monastic reform Among them were celebrated personalities such as St Columbanus John Scottus Eriugena and Sedulius Scottus who were in the vanguard of a constant stream of arrivals from Ireland to continental Europe collectively known as peregrini The continental response to this Irish diaspora ranged from admiration to open hostility especially when peregrini were deemed to challenge prevalent cultural or spiritual conventions This volume brings together leading historians archaeologists and palaeographers who provide for the first time a comprehensive assessment of the phenomenon of Irish peregrini in their continental context and the manner in which it is framed by modern scholarship as well as the popular imagination *A History of Penance* Oscar Daniel Watkins,1920 *Emotions, Communities, and Difference in Medieval Europe* Maureen C. Miller,Edward Wheatley,2017-01-12 This book of eleven essays by an international group of scholars in medieval studies honors the work of Barbara H Rosenwein Professor emerita of History at Loyola University Chicago Part I Emotions and Communities comprises six essays that make use of Rosenwein s well known and widely influential work on the history of emotions and what Rosenwein has called emotional communities These essays employ a wide variety of source material such as chronicles monastic records painting music theory and religious practice to elucidate emotional commonalities among the medieval people who experienced them The five essays in Part II Communities and Difference explore different kinds of communities and have difference as their primary theme difference between the poor and the unfree between power as wielded by rulers or the clergy between the western Mediterranean region and the rest of Europe and between a supposedly great king and lesser ones
