Rehabilitation Administration and Supervision William George Emener, Richard S. Luck, Stanley J. Smits, 1981-01-01

Readings in Rehabilitation Administration T.F. Riggart, J.R. Lorenz, 1985-11-01 *Readings in Rehabilitation Administration* fills the gap in the training of human service administrators and managers. The selections reflect the growing needs, trends, and new requirements that directly affect the human services at both the national and local levels. This text meets the needs of those innovative educators who are responsive to the needs of students in the human resource field and the disabled. While practitioners are well trained in their field, many have little or no education or training for the management roles they assume. *Readings in Rehabilitation Administration* provides for the first time a curriculum content to prepare new administrators. The articles included cover a wide range of not only current trends but classic topics which have passed the test of time. An extensive bibliography categorizes rehabilitation administration management articles published during the past decade.
